Unobserved, while the dance was going on he slipped out of the house and moved the curb a lew feet be yond the well, and then awaited the result. Presently out came one of the dancers, and plump to the bottom of the well he went. Blowing and puffing he came to the top, and exslaimed. "By gorry! whose moved dis well since I's out here last ?"

" No, she's gone too."

"Then you are all by yourself?" "No, Sam's in thar huggin' the nigger gal."

A WARNING! DO YOU SUFFER FROM PHYSing from Nervous D'bility? If you are, be warned in time! You have now the means and opportunity of being restored to health. Be warned, also, to whom you apply. There

are two rocks upon which you may split, the one being the legally qualified physician, who, although fully qualified by his knowledge of his profession to treat the various general ail-ments of lumanity, yet is totally ignorant, as the majority of them generally are, of this pe-culiar branch of his science; the reason being that he has never made it his peculiar study. And the other rock is the blatant charlatan and quack, who preys on the pockets and lives of its victims. These individuals assume titles to which they have not the slightest pretension, and are, for the most part, men even with out the ordinary common rudiments of educa

tion, who, by their force of impudence and advertising, ir ctrievably ruin the small remains of health of the poor, deluded victim. DR. S. HASTINGS HALL, Who has been established in San Francisco since 1863, has stepped, perhaps, he acknowledges, out of the routine of his profession, by thus advertising; but he deems it better to give a fellow being an opportunity of at least being capable of discriminating for himself out of the masses of charlatanism, at least one practitioner who has decoted his time, money and study to this peculiar branch of his profession, and who is a legally qualified practitioner and member of the Medical Board, and was formerly a pupil of and practiced under the cele-brated Acton & Record, has now the most ex-tensive practice, extending through the whole of California, Oregon, Nevada, Washington Territory, and throughout the whole Pacific slope, having established this extensive practice through his admirable system of correstice through his admirable system of correstice through his admirable system.

His reputation alone a: a lecturer on Physiological and Anatomical subjects is sufficient security to the public that those who place themselves under his care will, to say the least, have a guarantee that they have placed themselves in the hands of one who is well acquainted with the hands of one who is well acquainted with the anatomy and physiology of the human body and its mysterious workings; and, therefore, irrespective of his reputation for curing these diseases, he is universally acknowledged to be competent to cure them. He also takes the greatest precaution to avoid publicity being given as to recognition from whence the cor-respondence comes.
