PREMIUM GANG PLOWS

As the age in which we live demands progress in Farming Implements as well as in all other branches of indus try, we have determined to enter exten of Idaho, fuel, books, stationery, and other sively upon the manufacture of the

Pfeil Gang Plow!

Better known in Oregon as the WOL-GAMOTPLOW, This Piow com. bines all the desirable points of a perfect implement, being simple in con struction, cheap, durable, and of light draft. The only Premiums which were awarded to Gang Plows at the great Implement trial at Mattoon, Sept. 4. 1866, by the State Agricultural Society of Illinois, were awarded to this Plow. The following is an extract from the Report of the Commissioner of Agriculture, for the year 1866, and may be found on page 246 of that re

"The Gang Plow made by J. C. Pfeil, Arenzville, Cass county Illinois, is received with no little favor in the west. Almost inand efficiency in plowing the prairie fields of Illinois and other States. " The depth of the furrow is regulated by the crank-axle, which is so arranged that the ploughs can be driven deeper or shall lower at the pleasure of the driver, when the team is moving, by means of the lever. We also manufacture sulkey plows for small boys, or infirm persons who are unable o manage a team of three or four horses. This gang or sulkey plow, will cut a furrow from 2 to 10 inches deep.
The compattee who tested the draught of this plow with a dynamometer state, that it ran lighter by 140 pour ds, than other plows when running at the same depth, and held by the plowman while on foot."

With this Plow one man can do more work than two men can do with walking Plows, and the same amount of team. Hence, it will be seen that it will more than pay for itself in one season's plowing.

In addition to the above, John W. Lewis will also manufacture the Mining and Farmers' Tools,

WEB-FOOT GANG PLOW! Web-Foot Walking Plow!

for which patents have been applied for, and which have withstood practical tests with the best results receiving flattering testimonials wherever seen

Bor Now, the Farmers of Oregon are invited to give the Oregon City Manufactory a trial. Do not purchase a Plow of any description until you have examined our make and prices, as we are determined to sell at less than importer's rates, by giving you a more durable article, and a guarantee warrenting the same.
