FROM EUROPE.

The Hibernia arrived at Halifax yesterday, (Aug. 14,) at 8 A. M.

Hungary and Austria.

GLORIOUS SUCCESS OF THE HUNGARIANS.

The Hungarians continue successful. Again they have defeated and outmaneuvered the enemy—placed the Austrians in peril and cut off the Russians from their base of operations. The three great generals are now in communication with each other, and ready to act together if necessary. Their respective positions are rendered secure by the nature of the country, while there is nothing to prevent their emerging from their fastnesses when occasion presents itself. The whole population serve them with heart and hand, bring them food, horses, and intelligence of the enemy's movements.

EFFECTS OF THE ENGLISH DEBATES ON THE AUSTRIANS.

The London News of Aug. 3, has Vienna dates to July 28. The English papers with the debate in Parliament on the Hungarian question had arrived and the Vienna public were occupied extensively in studying the translations, which appeared on the above date of Lord Palmerston's speech. This it is said has been a clap of thunder to the Ministry.

DEFEAT OF THE RUSSIANS.

The news of Gorgey having beaten the Russians at Jasseo. [This name is incorrect; the dispatch we think must mean to say Jasz Bereny or Jasz Agathi, in the territory of the Magyar tribe of Jaszgyes which lies thirty odd miles east of Pesth and forty miles southeast of Waitzen.—Ed. Trib.] entered Kaschain and crossed the Theiss, came at the same time and already there were rumors of intentions to negotiate for peace.

SUCCESSES IN THE SOUTH—BEM.

Temesvar is reported to have surrendered to the Magyars. The Ban Jellachich was continuing his retreat toward the south of Syramia. Bem announced his victory to Kossuth in these three words: "*Bem, bum, banum.*" In a later dispatch he says: "Our country requires now to conquer two Generals more—Julius and Agustus."

RUSSIANS COUNTERMANDED AT CRACOW.

Letters from Cracow of the 23d June, state that a number of Russian troops who were on the point of leaving the above city for Hungary, had received counter orders. Twenty railway waggons had arrived recently in Cracow filled with wounded Russians.

ANOTHER BATTLE—RUSSIANS DEFEATED.

From Postcript in Liverpool Courier, 4th.—The accounts from Hungary, by Paris, Vienna and Cologne, announce another battle in Hungary and another victory for the Hungarians at Eriau. It appears the troops of Dembinski and Paskiewitch came to an engagement, which ended in the defeat of the Russians. Paskiewitch is cut off from his line of operations, and Dembinski, Bem and Gorgey are in communication. Haynau is described as in a most perilous situation.

THE SOUTH IN POSSESSION OF THE MAGYARS.

The Magyar Generals are masters of the whole Southern line, from Esseg, the main fortress of Sclavonia, on the Drave, the extreme southeast town of Hungary, to Orsova, facilitating their communication with Belgrade and the Turkish provinces.

AUSTRIAN GOVERNMENT FRIGHTENED.

The Cabinet of Vienna are obviously in a state of alarm. A peremtory order has been issued prohibiting the purchase of foreign stock, shares, &c, the object being, it is supposed, to prevent money being sent out of the country.

THE BATTLE OF WAITZEN—NEW VERSION.

A desperate battle was fought at Waitzen between the Russians commanded by Paskiewitch and the Hungarians under Gorgey, in which the former was defeated. The army of Gorgey has broken through the lines and marched north, thus effecting a junction with the main army. A letter from the seat of war says: "The attack of the Hungarians upon Paskiewitch's division was tremendous, and the Russians were borne down and compelled to yield before the terrible onslaught of the Magyars who fought with unexampled courage and daring."

Another letter describes the Russian retreat to Duna Kesz as a disorderly flight before Dembinksi's hussars, and states that the Russians were only saved from annihilation by the arrival of Romberg. It was admitted in Vienna on the 20th, that the victory of the Hungarians at Waitzen had been complete.

There has been a change in the Austrian Ministry.

Turkey.

THE TURKS AIDING THE HUNGARIANS.

Advices from Constantinople state that an army of 80,000 men is ordered to assemble on the Hungarian frontier to protect the Turkish territory and to disarm any who may be driven across the frontier.

Italy.

THE POPE STILL AT GAETA.

Although the French have restored the Government of the Pope in Rome, they have not persuaded the Pontiff to return to the Vatican. Gen. Oudinot has been himself at Gaeta, in the hope of modifying the intentions of his Holiness, but with what effect has not been announced.

NO PEACE BETWEEN AUSTRIA AND SARDINIA.

The Austro Piedmont Treaty is not yet settled, nor, from appearances, is it likely to be at present, if at all. On consenting to the payment of 75,000,000 indemnity money, the Piedmontese government further insists upon an amnesty being granted to the Lombards, the Venetians and the inhabitants of Parma and Placentia, which Austria peremtorily refuses to comply with. Both parties have expressed their determination to make no concession, and it is said that under the circumstances Sardinia has demanded the support of France.

RUMORED ESCAPE OF GARIBALDI.

The Milan Gazette of the 22d, states that a rumor is current at the Neapolitan frontier, that Garibaldi had embarked for America, under favor of a disguise, and that bands now on the Tuscan Appenines, merely keep up his name as a sort of prestige.

CHARLES ALBERT DEAD.

Charles Albert Ex-King of Sardinia, died at Riber July 28.

France.

MORE PRESIDENTIAL EXCURSIONS.

The President has been on a tour in the South. On his return to Paris he is to review the whole of the army of the Seine, amounting to 150,000 men. This spectacle is at present fixed for the 15th of August.

PROSPECT OF GOOD CROPS.

There seems every prospect of a most abundant harvest throughout France. In some of the departments the wheat is already cut under the most favorable circumstances.

FUNDS GOING UP.

The funds are also on the advance, so that material prosperity is within the grasp of the public. The President is still accused of aiming at the Imperial Crown.

THE EXPECTED RESTORATION.

The Liverpool Journal says his reception in the provinces did not warrant the hope he is said to entertain of being re-elected for ten years. We put no faith in the reports of reaction in France—of the restoration of the Orleanists or Burbons. The day is past for royal dramas, and Louis Napoleon is not the man to found a dynasty.

England and Ireland.

QUEEN'S VISIT TO IRELAND.

The Queen having quitted Osborne House for Ireland on the 1st inst. the Parliament was prorogued by commission. The speech delivered at the close contains nothing very novel.

The inhabitants of Cork, Dublin and Belfast are making the most active preparations to give a loyal and enthusiastic reception to the Queen, and political felings are almost forgotten in the general excitement which prevails.

LATER FROM FLORIDA.

Reports of Further Depredation.

By an extra from the Savannah Georgian, dated August 1st, we have accounts of further depredations and signs of outbreak among the Florida Indians. The Extra says:

From passengers by the Florida boat, we learn that another express arrived at Palatka, just as the boat was leaving, giving information of the murder, by the Indians, of six or seven negroes, the property of some of the settlers on the Manatee, between Tampa Bay and Charlott's Harbor. It is stated that the indians first attempted to carry off the negroes, but they resisting, were killed upon the spot.

It is further reported that the company of troops from Tampa, with a few volunteers, came upon the trail of the Indians and pursued it to the banks of a stream, (the name of which we did not learn,) where the bridge used for crossing had been destroyed, and the Indians to the number of one hundred, appeared on the opposite side, armed and painted, and giving the war whoop, daring the troops to cross. Being so small a number in comparison to the Indians, the troops felt obliged to decline the invitation, and returned to Tampa.

These reports, which are said to be well authenticated, evince a disposition to hostility we have heretofore suggested, and of another regular outbreak.

An editorial in the Jacksonville News of the 28th July, written before the receipt of the news by the last express, intimates that the depredations are not the consequences of a general rising of the Seminole nation, stating a reason, that Billy Bow Legs, one of the principal chiefs, had been met by the United States troops from Tampa, who solemnly disclaimed all participation in the affair, and charged it upon a band of outlaws of the tribe.

All the plantations are deserted, and the frontier along the St. Johns, Lake Monroe, &c. are placed under military discipline. Dwellings on plantations more exposed are being picketed in, as during the last war.

For a long time the Indians have had every opportunity of providing themselves with the means of defence. They have been laying up provisions, and have secured themselves ready for another attempt to gain full possession of the country.

It is rumored, but we do not credit it, that re-inforcements of other Indians have made their way into Florida, from Alabama and other quarters. There were a few Indians left in West Florida who might have joined the Seminoles, but their number were few, and unimportant.

Whether our details are strictly correct or not, one thing is certain—they are believed in Florida, and the authorities of the State are promptly acting in reference to this belief.

Gov. Moseley has issued a requisition for a large number of volunteers, and will prosecute a war of extermination. We have heard of the requisition amounting to he number of five hundred, and that if necessary it will be further increased. One company has already left Tallahassee. One hundred men will be mustered into service at Jacksonville, by Col. Pons to-morrow, and double that number we learn are in readiness. Requisitions have likewise been made on the other counties in East Florida. There will be no lack of volunteers from the State. And from the well known character of Gov. Moseley, we are satisfied that the Indians will be removed—if not by the General Government, by the State Authorities.

NEWS GLEANINGS.

PANAMA RAILROAD.—The subscription books for the capital stock of the Panama Railroad company, of Messrs Aspinwall, Stephens, and others, amounting to one million of dollars, were opened on Wednesday, at the Bank of the New York, and the whole amount was taken before three o'clock. The subscriptions were principally by capitalists in New York, a small portion only being taken from Pennsylvania, Connecticut and Rhode Island.

GENERAL SCOTT.—Some reports of the bad health of General Winfield Scott have been circulated. The New York Courier says these reports are unfounded, and that General Scott's health has not been so good for some months past as it is at present.

MICHIGAN.—John Owen of Detroit, nominated for Governor by the late Whig State Convention, has positively declined.

THE STEAMER EMPIRE STATE, of the Fall River line which was burned last January, has been restored to her former splendour.

SECOND HAND.—A correspondent of the Washington Republic states that the speech of Mr. McDowell of Virginia, in the House last winter, a portion of which, it will be recollected, was so affecting as to draw tears from the eyes of the rough politicians in Congress, is identical, almost word for word, with an oration which Mr. McDowell, delivered twelve years before, before the societies at Princeton College.

The weather of last week is *stigmat zed* as intensely and remarkably hot, in the Journals which reach us from far and near. [Salem Gazette.]

This reminds us of the old Scotch lady, who apologised to a visitor from the South, that her weather was so bad that she was *quite ashamed* of it.

PERSECUTION.—The Examiner a paper of large circulation in Upper Canada, affirms that "Lord Elgin could be elected to the office of Governor-General by three-fourths of the constituencies of the Province."

SHOCKING ACCIDENT AT PENSACOLA.—The Florida Democrat gives an account of a shocking event occurring near the Dry Dock in that place, on Saturday week. Two women—Mrs. Murray, wife of Michael Murray, and Margaret Ferguson, unmarried—were in bathing in the evening. Their cries for help alarmed Thomas Mansfield, a young man engaged to be married to the younger female. He plunged in, saved her, and returned to rescue the other. It is supposed that the drowning woman clung to him, so as to prevent him from exerting himself. Both perished. The womans body was discovered next day, mangled by the sharks; and it is supposed that he shared the same horrible fate.

VALUATION OF PROPERTY OF RHODE ISLAND.—The whole taxable property of Rhode Island is valued at $70,290,000 for personal estate, and $48,956,629 for real estate. The personal property in the city of Providence is set down at $28,407,000, and the real estate of the city at $16,894,000.

T. W. DORR.—A resolution, restoring to Thomas W. Dorr his forfeited civil and political rights, has passed the House of Representatives of Rhode Island by a majority of one vote—the vote standing ayes 29, noes 28. In the Senate it was read laid on the table.

RAVAGES OF THE ARMY WORM.—The St. Louis Organ states that the ravages of the army worm are very severe in that section. Four-fifths of the meadows have been eaten over. The corn crop is also suffering from their ravenous appetite. All attempts to destroy them have failed, and the only mode of arresting their march is a trench about a foot in width, and a foot deep, one side perpendicular, and the one next the land to be protected shelving in. Hundreds of miles of these trenches have been dug in the vicinity of St. Louis. The visits of the army worm appear to be periodical, happening once in six years.

REASON FOR LIQUOR DRINKING.—According to the bill of mortality for the past week, there have been ten deaths in this city produced by drinking water. This will be an argument in the mouths of the opponents of the temperance cause.

FLOGGING.—During the last cruise of the United States ship Independence, there were *forty-four thousand eight hundred and thirty-five lashes* inflicted on the crew [illegible] time when they were engaged in dangerous service on the Pacific coast.

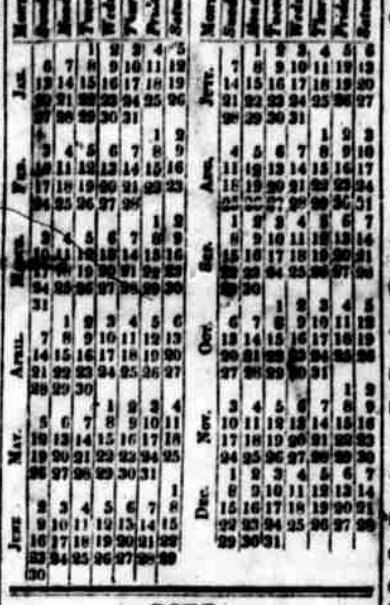
Poor Col. Holmes of the 23d, who died of the cholera, at Montreal, was at the storming of Cuidad Rodrigo, Siege of Badajoz, battle of Neville, Nive, Orthes, Toulouse, Waterloo, the storming of Cambray and Capture of Paris. He was severely wounded in the right hand at Badajoz by a musket ball, and also received a contusion in the head from a musket ball at Waterloo.

Daniel Webster has taken apartments at Sharon Springs. Of course a number will follow in his wake. A letter from their states that the lady visitors spend much of their time at nine pins—there being four bowling alleys.

OREGON SPECTATOR

Counting House Almanac,

FOR 1850.



DIED.

At Oxford, December 9th, WILLIAM LEANDER, son of R. V. Short, aged eleven months and three days.

At Yam Hill Falls, Yam Hill county, on the 3d inst., of inflamation of the bowels and lungs, FRANCIS ALONZO RICE, aged 2 years, 3 months and 4 days. On the 5th inst., of dysentery, ROSELLA RICE, aged 8 months and 6 days—children of LEVI A. and PRUDENCE RICE, of Yam Hill.

"Suffer little children to come unto me, and forbid them not; for of such is the kingdom of heaven."

PARENTS bereaved, your grief subdue,
Nor think your God severe;
Arise! to Heaven direct your view,
And words of comfort hear.

Your infants are by Love withdrawn
From sorrow, sin and pain;
And ever behold the glorious dawn
Of Love's eternal reign.

Angels the welcome guests receive
To their affection given,
And train them up to know, believe,
And serve the God of Heaven.

Daily shall they in knowledge rise,
In beauteous stature grow,
Become, like angels, good and wise,
And with their raptures glow.

Then comfort take! your transient loss
Is their eternal gain:
Resigned to Jesus, bear your cross,
Nor his kind will arraign!

PUBLIC NOTICE is hereby given that the undersigned holds a power of attorney from Benjamin Stark to act in his stead in any and all matters, during his temporary absence from the Territory. JNO. H. COUCH.
Portland, December 19th, 1849—3t

NOTICE.

NOTICE is hereby given, that whereas letters of administration have been granted me by the Probate court, in and for the county of Yam Hill, in the Territory of Oregon, upon the estate of Peter Scott, deceased, late of the county and Territory aforesaid, bearing date of the 4th day of December; therefore, all persons having claims against said estate are hereby required to bring them forward for allowance to the administrator within twelve months after the date of the above named letters, or they may be ever precluded from any benefit from said estate; and if such claims be not exhibited within three years from the date, they shall be forever debarred. LEMUEL SCOTT,
Admr of the Estate of Peter Scott, dec.
