Up-River Navigation!!

Is the Willamette river navigable above the mouth of Yam Hill? The new Keel Boat SALEM CLIPPER!! will answer that question that the has encountered to the state of the sale o

lameter every justify it.

This boat will continue to ran from the Falls to any accessible point in the country above. Terms

Willamette River, Oct. 31, 1830-8tf

To forestigrants and others.

This undersigned, proprietors of the Town or Mitros, being deprice to have improvements progress rapidly, propose that they will give to every head of a family two town lots, and to every single man one town lot, who will become an actual settler in said town within six months, and build a house upon the same; in addition to which, we will sell building materials to those that accept the proposition, and allow them a reasonable length of time to pay for them in.

To any one that will build a good Grist Mill, calculated to do the business of the place, we will give a mill site, together with land sufficient for the purposes of a grist mill.

This town is handsomely located upon the lower branch of the Willamette river, just far enough above its junction with the Columbia to reader it an excellent harber, and has the advantage of being accessible from all sides, either by land or water; it is also the lowest point upon the river that has a wagou read feating from it to the Willamette valley.

Two mountain streams run, the on each side of To Immigrants and others.

has a wagon two resume run, one on each side of the town, affecting water power sufficient to mann-facture \$0.900 feet of impact per day—upon one of which three saw mills are now underweigh. Although this town has been laid out but a few months, it has already made much progress in point of improvement and commetre, and lods fair, soon, to become the most important one in the ter-citory.

ison, to become the most important one in the ter-ritory.

To those desirous of taking up land chains, we would state that we are surrounded by as beautiful and fertile a section of country as Origina can beau-of, including the Scripposes plains, Sauview Island, the rich and extensive Prairies lighely explored upon the Catlapsodie-or Lewis riper, and the fine land in the numedate victority of the town CROSHY & SMITH.

October 10, 1850-544, N. H. We can give permanent employment to

N. B. We can give permanent employment t pute a number of hands during the winter.

From Melton and St. Helens to La Fayette THE great necessary of a RAIL ROAD valley with the Columbia River, is at length about

It is estimated by competent judges, that the work can be done for \$500,000, and it is proposed to divide that sum into one thousand shares of \$500

to divide that sum into one thousand shares of \$500 each.

From the immense amount of stoch already taken abroad, and from the fact that every possible arrangement has been made for its speedy completion, it is confidently believed that the work can be finished in twelve months.

The subscription basks are now opened, and can be seen by calling upon W. H. Tappann, St. Heimer, Crasby & Smith, Milton.

N. B. It is almost unless to add, that the terminus of this road should be at a point that can be reached with safety by large close reached and any stage of the river, as the people of Oregon have already expressed their wishes upon the subject.
