Drowned.—On Thursday evening last, a young woman named Mary Ann Fisher, while taking a boat ride, along with two or three others, fell overboard and was drowned. She is said to be a native of England, and came here on the schooner A. Emery which arrived a few days ago from the Sandwich Islands. It was her intention, we understand, to go to California where she had relatives, the first opportunity. There was something rather singular attending the circumstance: her body never rose to the surface, nor did an open parasol which she held in her hand, at the time she fell overboard.—Search was made for the body, but proved unavailing. We give the particulars as we heard them.—*Oregonian.*

Solar Eclipse.—There will be a total eclipse of the sun on the 28th of July, and one of the most important that will happen for many years. A writer in the Boston Daily Advertiser thinks it will be one of the grotest inducements for travelers to visit Europe this summer—as the eclipse will be *total* in no part of the United States. The greatest obscuration will be in Oregon and California, where about five-sixths of the sun on the South side will be obscured.

Rhode Island—*Congressional Election.*—The votes for Members of Congress have been counted by a Committee of the Legislature, and Benjamin B. Thurston, democrat, declared elected in the Western District, by about 1000 majority; and George G. King, whig, in the Eastern, by 114 majority.

Washington, May 11, 8 P. M.—At Alexandria, this afternoon, William Page, Deputy Grand Master of the Masonic Fraternity, whilst delivering a lecture, in Washington Lodge Room, suddenly fell and instantly expired. He leaves a large family, and was generally esteemed. This sudden event has cast a gloom over the whole town.

The Washington Union says:—"We understand that the Mexican government has, through its minister in this city, made formal reclamation for the depredations which have been committed by Indians living in the limits of the United States."

Married:

On the 18th of June, 1851, at the residence of Col. M. T. Simmons, near Olympia, Lewis county, O. T. by H. A. Goldsborough, J. P. John L. Butler, formerly of Boston, Mass., to Artimisia Bowman, grand daughter of David Kindred, Esq.

Died.

In Portland, on Thursday, July 10, 1851, Doct. George W. Sailsbury, formerly from Valparaiso, Indiana.

On Sabbath morn, July 6, at West Tualatin Plains, Mrs. Charlotte Flett, wife of John Flett, aged 34 years.

Mrs. F. came with her husband from the Red River Settlement in 1841. She was there a member of the Episcopal Church, but after her arrival in Oregon, she united with the Presbyterian Church under the care of Rev. H. Clark. Her piety was guided by firm principle, which enabled her to be always the christian. It was her great desire and effort to bring up her children in "the nurture and admonition of the Lord." She suffered two months from chronic liver disease, yet still she hoped to recover. At her urgent request she was carried to the camp-ground and was permitted to hear two sermons. On Saturday evening her breathing became difficult. Her husband and children, and other friends, with her pastor and brethren and sisters in the church, soon gathered aroung her, and did what they could to alleviate pain, and give consolation. But her hope was in Christ, and not long after the Sabbath sun arose, her spirit peacefully left the body and went to commune with her Saviour face to face, while the Church communed at his table below. She left a husband and seven children to mourn her loss. The church and a large congregation attended her funeral on Monday. [Com.

THE undersigned being proprietor of one of the finest water powers in the world, would propose to have the same improved. The wants of the country seem to demand a speedy completion of said improvements in the erection of Flouring Mills, and almost all kinds of machinery that can be propelled by water; and the water privileges being so extensive, the undersigned would propose to capitalists, that he is desirous of making arrangements for having said water brought into immediate use, and will offer such inducements to those desirous of engaging in such an enterprise, that they cannot fail to meet their views. Said water power is situated at the Great Falls of the Willamette. It is perhaps unnecessary to add that as to location, it is perhaps the finest in the world, being at the great outlet to all the farming country of the great valley of the Willamette. Removal.

THE undersigned, proprietors of the Town of Milton, being desirous to have improvements progress rapidly, propose that they will give to every bona fide settler two town lots, and to every single man one town lot, who will become an actual settler in said town within six months, and build a house upon the same; in addition to which, we will sell building materials to those that accept this proposition, and allow them a reasonable length of time to pay for them in.

To any one that will build a good Grist Mill, calculated to do the business of the place, we will give a mill site, together with land sufficient for the purposes of a grist mill.

This town is handsomely located upon the [illegible] branch of the Willamette river, just far enough above its junction with the Columbia to render it an excellent harbor, and has the advantage of being accessible from all sides, either by land or water; it is also the lowest point upon the river that has a wagon road leading from it to the Willamette valley.

Two mountain streams run, one on each side of the town, affording water power sufficient to manufacture 50,000 feet of lumber per day—upon one of which three saw mills are now underwright.

Although this town has been laid out but a few months, it has already made much progress in point of improvement and commerce, and bids fair, soon, to become the most important one in the territory.

To those desirous of taking up land claims, we would state that we are surrounded by as beautiful and fertile a portion of country as Oregon can boast of, including the Scappoose plains, Sauvies Island, the rich and extensive Prairies lately explored upon the Cowlitz, Coweeman and Lewis river, and the fine land in the immediate vicinity of the town.

Tualatin Academy.

THIS Institution is situated in the town of Forest Grove, Tualatin Plains. It bears in its infancy, yet presents and guarantees doubting no one to this point, only to convince not only of the healthiness and beauty of the location, the excellence and morality of the inhabitants, but especially that such locations will be conducive to the highest mental and moral improvement of the scholars, their chief object.

A spacious and noble Academy building has been erected up on a site, commanding the view of two extensive prairies, with their intervening and encircling forests, and when completed, it will furnish ample accommodations for both departments of the school.

Forest Grove is about equidistant from the towns of St. Helens, Milton, Portland, Milwaukie, Oregon City, and Lafayette.

Clackamas County Female Seminary.

THE first term of this Institution will commence on Monday, May 19th, and continue eleven weeks.

The Trustees are happy to inform the public, that teachers of high and varied accomplishments and of long experience have been secured, who will devote themselves to the welfare of the pupils committed to their charge.

A large and commodious Seminary building has been erected, and measures taken to secure all necessary apparatus for the school.

Oregon City, the location of the Seminary, presents several important advantages. It has a well deserved celebrity for healthfulness, being free from the prevalent fevers common to the river towns. It is convenient of access; steamers plying on the Columbia and Willamette from below the falls, and from above, will touch at this place.

To any one that will build a good Grist Mill, calculated to do the business of the place, we will give a mill site, together with land sufficient for the purposes of a grist mill.

This town is handsomely located upon the [illegible] branch of the Willamette river, just far enough above its junction with the Columbia to render it an excellent harbor, and has the advantage of being accessible from all sides, either by land or water; it is also the lowest point upon the river that has a wagon road leading from it to the Willamette valley.

Two mountain streams run, one on each side of the town, affording water power sufficient to manufacture 50,000 feet of lumber per day—upon one of which three saw mills are now underwright.

Although this town has been laid out but a few months, it has already made much progress in point of improvement and commerce, and bids fair, soon, to become the most important one in the territory.

To those desirous of taking up land claims, we would state that we are surrounded by as beautiful and fertile a portion of country as Oregon can boast of, including the Scappoose plains, Sauvies Island, the rich and extensive Prairies lately explored upon the Cowlitz, Coweeman and Lewis river, and the fine land in the immediate vicinity of the town.

Tualatin Academy.

THIS Institution is situated in the town of Forest Grove, Tualatin Plains. It bears in its infancy, yet presents and guarantees doubting no one to this point, only to convince not only of the healthiness and beauty of the location, the excellence and morality of the inhabitants, but especially that such locations will be conducive to the highest mental and moral improvement of the scholars, their chief object.

A spacious and noble Academy building has been erected up on a site, commanding the view of two extensive prairies, with their intervening and encircling forests, and when completed, it will furnish ample accommodations for both departments of the school.

Forest Grove is about equidistant from the towns of St. Helens, Milton, Portland, Milwaukie, Oregon City, and Lafayette.

Clackamas County Female Seminary.

THE first term of this Institution will commence on Monday, May 19th, and continue eleven weeks.

The Trustees are happy to inform the public, that teachers of high and varied accomplishments and of long experience have been secured, who will devote themselves to the welfare of the pupils committed to their charge.

A large and commodious Seminary building has been erected, and measures taken to secure all necessary apparatus for the school.

Oregon City, the location of the Seminary, presents several important advantages. It has a well deserved celebrity for healthfulness, being free from the prevalent fevers common to the river towns. It is convenient of access; steamers plying on the Columbia and Willamette from below the falls, and from above, will touch at this place.
