HOLMAN HOUSE,

PACIFIC CITY.

THE subscribers would respectfully inform the public, that they have so far progressed with their Hotel, as to be able to accommodate those who wish a resort near the coast, where they may enjoy the luxury and renovating influences of the Ocean breezes. The *HOLMAN HOUSE* is situated on an extensive and beautiful Bay, commanding a view of Cape Disappointment, Point Adams, Astoria, and is encircled by a picturesque scenery. For those who wish to recruit their health, and try the effects of Salt-water bath, the location is, in many respects, desirable. The air is pure and the water good, and the Proprietors hope, before another season, to progress with their improvements and make their accommodations correspond with the healthfulness and beauty of the situation.

They also take this opportunity to inform the public that Prof. J. M. Howe is now engaged in teaching in Pacific City. As an Instructor, Mr. Howe possesses the advantages acquired by long and successful experience. Those in Oregon and California having children which they wish to place in a quiet and healthy situation, may be confident that the education of their children need not suffer in Pacific City. Mr. Howe, as a teacher, is well qualified, in the rudiments, the Natural Sciences, Mathematics, and the Learned Languages.

MUSIC, VOCAL AND INSTRUMENTAL.

G. P. Nowell, Professor of Vocal and Instrumental Music, has selected Pacific City as the place of his residence. Mr. N., in teaching, makes music a simple and beautiful science. He takes the Italian or natural plan. There is at the Holman House one of Hobler's best premium Piano Fortes, for practice, when giving to those who wish to become musicians on the Piano Forte, an opportunity that would hardly be expected in this Territory.

To Emigrants and others.

THE undersigned, proprietors of the Town of Marion, being desirous to have improvements progress rapidly, propose that they will give to every head of a family two town lots, and to every single man one town lot, who will become an actual settler in said town within six months, and build a house upon the same; in addition to which, we will sell building materials to them at so much per thousand, and allow them a reasonable length of time to pay for them in.

To any one that will build a good flour mill, and confine it to the business of the place, we will give a mill site, together with land sufficient for the purpose of a grist mill.

This town is immediately located upon the west branch of the Willamette river, and the nearest point to the junction with the Columbia, and is an excellent harbor, and has the advantage of the fine navigable farm of Salem, situated at the head of the Willamette valley.

Two steamboats steam one, one on each side of the town, affording water communication to manufacture 50,000 feet of lumber per day—upon one of which there now mills are now employed.

Although this town has been laid out but a few months, it has already made much progress in point of improvement and commerce, and bids fair, soon, to become the most important one in the territory.

To those desirous of taking up land claims, we would state that we are surrounded by as beautiful and fertile a country as Oregon can boast of, including the Champoeg plains, Scorton Island, the rich and extensive Pudden lately explored upon the Cottonpoke or Lewis river, and the fine land in the immediate vicinity of the town.
