Mr Editor—Sir:—I see that the Statesman editor is engaged in an elaborate discussion of the location *bill*, and though it is now some six weeks since he commenced it, he has not got it *settled* yet This discussion has enlisted many of the learned and legal advisers of the Territory. Some for and some against. It seems to me that after all that has been said the darkness that existed before has been rendered less visible, and us poor mortals who are unlearned have our brains so befogged that we are worse off than before. The only conclusion I can arrive at is that Doctors, never so learned, will disagree. Positions have been assum'd and demolished by the parties respectively, each taking their turn. What is to grow out of the whole affair it is difficult to determine. This is a matter that must be settled sooner or later, and we have no doubt the course pursued will bring about the desired results. But there are other things that ought to be settled, with even greater promptness. I ascertained whilst in your city last week, that the boarding bill, alluded to by your correspondent from Lane County in your last week's paper, remains unsettled. Now, Mr. Editor, don't you think it would look much better for the Editor of the Statesman to walk up to Captain Hood's and settle that bill at once, and let the Legislature settle its own bill. Then he might talk boastingly about paying the highest wages for printers. It is always best to be *just* before one is *generous*.

I am informed that wages at one time were as high as $2000 a year, and that amount has been paid in the Spectator office. Now, Mr. Bush has made a contract with his printers for a certain length of time at stipulated rates, yet he puffs himself weekly for doing what his contract makes it his "bounden" duty to do. It is rather unusual for persons, in any kind of business, to pay more than they are justified in doing. The boasted liberality of the Statesman is narrowed down then to the performance of what he is compelled to pay; for which he deserves a premium and no mistake. That Bush must have come from a noble scion. I must close for the present—my wife admonishes me that the hour for retiring is at hand, and my candle has weeped itself nearly quite away, and its tears have run down over the sides of the stick.

Yours, &c., PETER.

For the Spectator

OLYMPIA, O. T. Oct. 20, 1851.

Mr. Schnebly—Dear Sir:—I have no further news to communicate to you at this time than is contained in the following:

The Queen Charlotte gold mines are creating considerable excitement in this part of the country. The sloop, George Anna was chartered a few days since, by about 20 persons, citizens of this place and vicinity, and will sail about the 27th inst. They are going prepared for a three months voyage, and will no doubt give the Island a thorough exploration.

We are about to open a direct trade with the Sandwich Islands; the brig Orbit, having been refitted and painted up, and will leave this port, bound thither, in a few days. Her cargo consists of fish, spars, &c., &c. She will be commanded by Maj. H. A. Goldsborough. A. M. P.

Horrid Murder.—A most unprovoked murder was committed at the house of Mr. Bonser on Souvies Island, the 19th inst, a man by the name of Turner stabbing Mr. Edward A. Bradbury, formerly a resident of Cincinnati, some seven times, five of which were in the abdomen and either of which would have caused his death. The affair occurred on Sunday about 9 o'clock, A. M.; he died the following morning. Turner became jealous of the attentions of Mr. Bradbury to a young lady of Mr. Bonser. The latter was a son, the *Oregonian* learns, of C. M. Bradbury, Esq', owner of Bradbury's mills, Cincinnati, Ohio. Turner was formerly of Kentucky.

☞ A very large diamond is in the sceptre of the Emperor of Russia. It is about the size of a pigeon's egg, and is worth £300,000. This diamond was stolen from the head of a heathen deity, on the Malabar coast, by a Frenchman who sold it to the captain of a merchant vessel for £2,000. The captain sold it afterwards for £16,000. The purchaser retained it for several years, and then sold it to the Empress Catharine for £90,000 in ready cash, and an annuity of £4,000.

☞ We direct attention to our correspondence from Olympia. A breeze is springing up and directing its course towards Queen Charlottes Island.

☞ If the harvest of a single year should fail, nearly the whole human race would perish.

☞ Our correspondent "Z" cannot make a personal assault in our columns upon the editor of the Democrat. Our neighbor is a clever fellow personally, although a Locofoco, a secessionist, a filli-buster, and as ugly as ten thousand devils —Prentice.

☞ It is stated that among the millions of farmers in the United States, there is not one Jew. This is singular, if true, but we do not believe it. The ancient Jews were a pastoral people.

Rare Chance for Investment.

The undersigned being proprietor of one of the finest water powers in the world, would propose to have the same improved. The wants of the country seem to demand a speedy completion of said improvements in the erection of Flouring Mills, and almost all kinds of machinery that can be propelled by water; and the water privileges being so extensive, the undersigned would propose to capitalists, that he is desirous of making arrangements for having said water brought into immediate use, and will offer such inducements to those desirous of engaging in such an enterprise, that they cannot fail to meet their views. Said water power is situated at the Great Falls of the Willamette. It is perhaps unnecessary to add that as to location, it is perhaps the finest in the world, being at the great outlet to all the farming country of the great valley of the Willamette. Call on the undesigned.
