There is a well-worn story of the conviction of a murderer having been at people once numerous, warlike, and pow- trifling incivilites, indulged in at the extained by the circumstance that a recog- erful, and the region where they sought a pense of counsel, have sometimes met nizable image or likeness was found im-pressed upon the victim's eye, after death. arms of the Germans. It is, indeed, the once engaged in a case, when, towards The story has been variously told. One only colony which retains anything of the the end of the afternoon, it became a version places the occurrence in Lyons, ancient speech and habits. Elsewhere the question whether the court should pro-France; another in England. It was Wends accepted the German religion, ceed or adjourn till the next day. Plunprobably invented about the time that dagnerreotypes came into use; and was perhaps suggested by the fact that a small picture of whatever the eye is looking at is formed in the center of the eye. Lausitz, they fought almost to the point in the case proceeded, and and is plainly visible to other eyes. of extermination, and offered a moral re- presently the judge had occasion to obrectype was taken of the victim, and the availed. The Northern Wends accord- the action would not "lay." "Lie, my sive cordial. image of the murderer was found in the eye by a painter who was making a picture of the murdered man and had occasion to study the daguerreotype under high magnifying power. Another version in the memory of a brave but useless fine you a hundred pounds." "I'll give who bent over the victim when expiring; repugnance to the new civilization, the stop it for me," was the ready reply. the friend is of course arrested as the brave, prolonged, and desperate warfare. Curran was once addressing a jury.

age often become the facts of discovery in another. Within a few weeks a partient German has announced and exhibited some startling experiments that bring the Eye-picture start fully within the limits of possibility. Dr. W. Kulne, Professor of Physiology in the University of the Professor of Physiology in the University of Expension of Physiology in the Professor of Physiology i Professor of Physiology in the University man tribes swept over the Rhine and chancellor, with whom he was on terms of Heidelberg, has been carefully reviewdown upon the fair domains of the Ro- of anything but friendship. The chancellor, with whom he was on terms thereby affording them an opportunity of anything but friendship. The chancellor, with whom he was on terms thereby affording them an opportunity of anything but friendship. ing and extending a discovery of Dr. Boll, now of Rome. Dr. Boll had found that the external layer of the retina of the eye Asia. In the adjustment of these races brought with him on to the bench, a safety truly enviable. Besides their retail the external layer of the retina of the every possesses in life a beautiful purple color. This color is perpetually destroyed and renewed while the eye is doing work. Dr. Kuhne found that light was the agent by which the purple is destroyed; while the animal is alive the color is quickly restered by the secretive action of the neighboring tissues. The next discovery was that only certain kinds of light have the power of discharging the color. If kept in level of the power of discharging the color. If kept in level of the power of discharging the color. If kept in level of the power of discharging the color. If kept in level of the power of discharging the color. If kept in level of the power of discharging the color. If kept in level of the power of discharging the color. If kept in level of the power of discharging the color. If kept in level of the power of the power of discharging the color. If kept in level of the color is quickly restain that only certain kinds of light have the power of discharging the color. If kept in level of the color is quickly restain kinds of light have the power of discharging the color. If kept in the design that the Sclaves as were their immediate neighbors. The pext discovery was that only certain kinds of light have the power of discharging the color. If kept in the color is quickly restain kinds of light have the power of discharging the color. If kept in the color is quickly restain kinds of light have the power of discharging the color. If kept in the Sclaves as were their immediate neighbors and proposed with him on to the beach which he large Nearfoundlaud dog, to which he power of discharging the color. If kept in ly derived from any corresponding dis-other kinds of light, such for instance unction made by the Sclaves themselves. barrister, "I really was under the inpresas is obtained by burning a mixture of The Wends were also further subdivided sion that your lordships were in consoda and alcohol, the purple color re-mains unaltered, even after death. Final-and Abotritans. ly, Dr. Kuhne found chemical re-agents By the fifth century the Wends were der ever flung back in return for an in-that would fix the color. Now came the firmly settled in their new homes. In sult from the beach, was that which this crowning experiment. He fastened a rab- culture and refinement, in the arts and same advocate buried at Judge Robinbit so that one of its eyes was for three conveniences of life, in agriculture, son. Judge Robinson is described as a Francisco Ster, a very neat little paper of 30 minutes exposed to the light from an trade, and other industries they were man of sour and cynical disposition. minutes exposed to the light from an trade, and other industries, they were man of sour and cynical disposition, open window-shutter. Then he instantly not behind the Saxons, their neigh- who had been raised to the bench, so, at open window-shutter. Then he instantly not behind the Saxona, their neighwho had been raised to the bench, so, at appropriate motto "Owe no Man Anything, decapitated the rabbit and put the eye in bors. They lived in towns and villages, least, it was commonly believed, simply but to Love One Another." It is published suitable pickie. Two minutes after the and possessed a rude system of civil gor-because he had written in favor of the once a month and has a good circulation.

The Mystery of Dreams.

A man fell asleep as the clock toiled walked out. the first stroke of twelve. He awakened ere the eche of the twelfth stroke had from Mexico only yesterday."
died away, having in the interval dreamed "Did, chi Was Diaz well when you that he had committed a crime, was de- left?" tected after five years, tried and condemned; the shock of finding the halter around his neck aroused him to con- Mr. Grover?" sciousness, when he discovered that all these events had happened in an infinites-simal fragment of time. Mohammed, wishing to illustrate the wonders of sleep, told how a certain man, being a sheik, the town of Podunk, was it? years, bringing up a family and working hard, and how, upon waking up from his long dream, so short a time had he been Podunk, Mexico, after leaving President over-turned as he fell asleep, had not time to empty itself. How fast the soul travels when the body is asleep! Often when we awake we shrink from going back into the full routine of a sordid existence, regretting the pleasanter life of dream when we go to a strange place we fancy when we go to a strange place we fancy ble that when one has been asleep the soul has floated away, seen the place, and has the memory of it which so surprises us) In a word how for the property of the property o soul has floated away, seen the place, and but if you prefer to hall from Mexico I be best."

has the memory of it which so surprises can't help myself."

"And vus? In a word, how far dual is the life "Well, I'll tell you the truth, your "Well,

known to his congregation. One day, after he had preached a very spiritual sermon, an old lady was observed to leave the church in a very hasty manner. Meeting her a few days after, the minister asked her why she had rushed from church so suddenly the Sunday before. "Well," she responded, "the fact is, I was so filled with grace in listening to your sermon that I found I could not contain myself, so I ran over to the Methodist church across the way and shouted."

Let me get through this crowd and tell the judge what a vagabone, villed was pagabone, villed with grace in listening for the corridor.

"Three get through this crowd and tell the judge what a vagabone, villed with fellow is!"

"Say three meanths, judge!" whispered the prisoner, heading for the corridor.

"Three or is!"

When the woman reached the bar her busband was seated on the back of a chair in the corrider, picking his teeth with a sliver, and as he caught his wife's eye he said softly:

The people of the United States used to the superior merits and peculiar advantages of the New American "Self-Threading" Sewing Machine. The blind can thread it, on the construction of the curiosities at a recent sillustration in the company are offering the most liberal terms to cash customers. Call and see it. The success of the San Francisco Chronicle (Daily and Weekly) is unparalleled in the history of journalism on this coast. It has the largest bona fide circulation. Its advertising patronage is greater than that of any other journal. It is the most popular paper. It has a potent influence, as shown by the many reforms of local abuses which its bold, persistent and able exposures have caused. It is the most brilliant, fearless, enterprising and complete newspaper printed on the Pacific Coast. It is the cheapest paper. It is a first-rate family paper. It is a first-rate story paper. It is a first-rate agricultural paper. It reports the fashions for the ladies and the markets for the men. Its Boys' and Girls' Department is a most attractive feature. Independent in everything, neutral in nothing. Always the friend and champion of the people.
