

The East Oregonian.

SATURDAY, SEPT. 1, 1877

LODGE DIRECTORY.

DARWIN LODGE No. 4, K. of P.—Meets in the Castle Hall, Pendleton, every Wednesday evening. Brothers in good standing are cordially invited to attend.

CHURCH DIRECTORY.

EPISCOPAL CHURCH—On the third Sunday of each month, the Rev. L. H. Wells will officiate, and preach in the morning at 11 o'clock in winter, in the evening at 7 o'clock in summer.

S. L. Morse now assists Dave Taylor in giving prisoners an airing

Both, August 31, to the wife of Jerry Despain, a daughter. Weight 9 1/2 pounds.

Miss Anna Morse returned this week from Umatilla where she had been on an extended visit.

James Jones has purchased the property in the east end of town heretofore belonging to Mr. Starr.

News has been received that Brigham Young is dead. What will become of the many lone widowers?

A school meeting to be held on Saturday, September 8, in Pendleton, to take into consideration the propriety of levying a tax to pay the debts of the district.

G. D. Richardson wishes us to publicly thank George Barnhart for the finding and prompt return of a pocket-book containing valuable papers, lost by him last June, and given up for lost.

John T. Hinton sent us samples of wheat grown on his farm on Willow creek, this county, which we believe was never excelled for luxuriant growth, size and numbers of grain, in the county.

Wm. Lee, the veterinary surgeon, will be in attendance at the Union Fair, where all who desire his services can be accommodated. All operations in his line carefully done and warranted. Mr. Lee has proven himself highly qualified to perform all he professes.

COUNTY STATISTICS.

Without comment at this time we submit the following statistics of our county for 1877 and 1876:

Table with 2 columns: Year (1876, 1877) and various statistics (Gross value of property, Indebtedness, Exemption, Total taxable property, Increase over last year).

On the hurricane deck of an ambling cayuse horse last S—(the day previous to Monday) we started on a short journey toward the famed city of Walla Walla.

We do not intend to write anything but a paragraph regarding the trip. Lack of time and a dyspeptic disposition would preclude anything else.

By private letter from Union, Union county, we learn that the front of the brick store in course of erection for Sumner & Baer, fell to the ground on Saturday last, carrying the workmen with it.

There were not enough people present at Pilot Rock last Wednesday to make a "meeting," therefore the meeting to be had to take steps to construct a road to Granite creek mines, was adjourned to a subsequent period as will be seen elsewhere in this paper.

By reference to our advertising columns it will be seen that the "condemned" case for divorce which occurred last Spring, has been renewed. It will also be noticed that the attorney for the then condonor is the attorney now for the then condonee.

For the robbery of Gottlieb Schweigert, Tom Burns and James Goodrich were held to appear in the sum of \$1,000 each; and the Indian, Tsa-ta, in the sum of \$100. It is supposed that neither Burns nor Goodrich can furnish the necessary bonds.

W. Jasper took our advice given last week, and secured a license from Clerk Sharon to marry Mary Linville. "The early bird catches the worm." Mr. J. applied for the precious article at 4 o'clock in the morning.

Col. C. Sharp, general travelling agent for the Wilson Sewing Machine (no. Wheeler & Wilson), is now in Pendleton for the purpose of establishing an agency. This machine is reported to stand A1.

Prof. Arnold's High School commences a term October 1. The necessity of scholars beginning the first day of the term will be referred to next week.

Up to Friday does not a taxpayer had appeared before the Board of Equalization for a reduction of assessment. Assessor Benson's work must have been satisfactory.

On Monday County Court commences its September term. On Wednesday next county business will receive the attention of the court.

Mr. Lenox has moved his home hold effects to his "other house" to make room for the coming John Hexter, merchant.

George M. Bull, the long absent and eldest son of the proprietor of this paper, returned home last Saturday.

Millard White's residence is fast nearing completion. It is going to be a neat and commodious residence.

Uncle McDonald of La Grande, we were informed, would soon be pounding iron in Milton.

Next week marriage licenses and real estate transactions.

Miss Emma Bishop returned from Umatilla this week.

store for the people of Heppner and vicinity. This is decidedly a favored country, and success is sure to crown the efforts of an industrious people."

As items of news we submit the following:

Dr. J. C. Andrews has built a cozy little residence in town where he now resides with his happy family.

Mr. Minor's new hotel is doing a flourishing business.

Mr. L. I. Shortridge has nearly completed his boot and shoe store and residence combined, when he will soon take possession and commence business.

Mr. I. H. Chase has again bought in, and is now a partner with the Dicksons in the blacksmithing business.

A few nights since an altercation took place in the street in front of Mrs. Smith's hotel between some parties said to be Billy Jones, Oscar Mitchell, and Johnny Butterfield in which a pocket knife was used pretty freely. If we are to judge from wounds carried away by the last named gentleman. Such work as this does not speak very well for the morals of our town and we hope it will be the last of the kind.

Mrs. Dr. Andrews has been engaged to teach the Heppner school for the quarter commencing on Monday, September 8d.

BILLY B.

BOTH MADE MONEY.—The Walla Walla Union says: A year ago about a tract of 133 acres of wild land at the foot of the mountains, near the Oregon line, that one of our citizens wanted to buy. The owner asked \$1,000 for the land. This would be purchased offered to give the first crop raised on the land for the title to it. This offer the owner finally agreed to. The proper transfer was made. The purchaser at once broke up and seeded the ground to wheat. This summer he cut, threshed and delivered the crop. The crop was sold for \$4,655. In other words the man who took the first crop for his land, received \$35 per acre for it, instead of \$7.50, or a clear profit of \$27.50 per acre. The purchaser says it cost him \$709 to break the ground, put in, harvest and deliver the crop, or a clear profit of \$301. Both men are satisfied, the seller being just a trifle the most pleased.

RAILROADS, ETC.

There is much ado being made at this time in the papers of the State in regard to railroads. Some are decidedly in favor of an extension of time for the completion of the North Pacific road, carrying with it the magnificent grant or subsidy made by Congress. The Portland Oregonian is radically in favor of lengthening the already long time enjoyed by that company for the construction of its road, and principally so for the reason that Portland is to be virtually a terminus, and favors a route on the south side of the Columbia. In this the Oregonian we fear misses the mark, as that road will never traverse the confines of Umatilla and Wasco counties. However we may be mistaken, and do not oppose anything reasonable which will secure a road to any people. Grand Ronde valley wants a railroad to the Columbia river, and her citizens with outside capital are going to build it regardless of the people of this or any other county, and without asking any favors; hence our people are highly interested in having a through road, reaching from the Columbia to Kelton or some other desirable point on the Union Pacific, which will give us eastern and western connections. Portland capitalists have always opposed an eastern connection via eastern Oregon—the reasonings and assertions of the Oregonian to the contrary. The attention of that paper is called to the year 1867, when the Pengra route was sprung and backed by Portland's leading men in order to defeat any important progress made by the Portland, Dalles & Salt Lake Railroad Company; and as an evidence of this fact the following paragraph, appearing in the report of the Board of Trade of Portland and signed by H. W. Corbett and George Reid, (the former an ex-Senator) is herewith produced:

The railroads, steamships, coasting vessels and river steamboats we now possess are adequate and sufficient for some time to come to meet the internal transportation of the various products of the State.

Thus it will be seen as long as Portland is satisfied with facilities for egress and ingress, a certain class or portion of her leading men ask nothing for Eastern Oregon, until the next political campaign shall roll around when candidates will be found all right on that question. Therefore, we feel very much like commending the following taken from the Mountain Sentinel, to the consideration of all who have the interest of this country at heart:

Whereas, it has been the custom of fee-seekers generally, to pledge themselves to every enterprise calculated to open up and develop the resources of Umatilla, Union and Baker counties, and whereas, locks at the Cascades, a railroad to the Columbia river, the Dalles & Sandy wagon road and many other measures of great importance yet remain in a most glorious state of primitive freshness, therefore be it Resolved, That we carelessly little concern the political professions of any candidate for office, but give due notice that we propose to hunt out and support men who we have reason to believe will work for the interest of this locality until we obtain the long promised relief.

ADVERTISEMENTS.

Pendleton High School.

The next term of Pendleton High School will open on MONDAY, OCTOBER 1, 1877.

Terms of tuition, per quarter, payable in advance: Primary Department, \$1 50; Practical, 35 00; Higher, 25 00.

The Primary Course consists of Elementary Spelling, Reading and Writing, and the fundamental tables of Arithmetic.

The Practical Course includes all the branches of study required by law to be taught in the common schools of Oregon, and pupil pursuing a branch of study not so included, will be deemed in the Higher Course.

Time will be devoted by the quarter term, half term, three quarter term and full term, according as pupils may enter the school.

Protracted sessions of two or more consecutive weeks' duration will be credited on the succeeding term. For further particulars, address JNO. C. ARNOLD, Principal.

Will be made and costs added. August 4, 1877. J. H. TEENER.

THE EAST OREGONIAN.

PENDLETON, UMATILLA CO., OREGON

This paper is published in really one of the best counties of the State, and which yet contains much valuable public land. The paper can be made a valuable auxiliary to the more speedy growth and settlement of the county, provided a generous support is accorded it by those who have positive interest in the welfare of this portion of the State.

The very hard times and great scarcity of money will deter many from subscribing for the paper, who under ordinary circumstances, would willingly assist in maintaining the enterprise, by buying their MONEY'S WORTH OF NEWS, both home and foreign.

The duty of all is to subscribe, first, for a copy for home reading, and then to send at least one copy to a friend in the States, that it may then be circulated among those who desire to better their condition by immigrating to a better country. It is a notorious fact that Oregon papers sent East have brought hundreds of families to our State. Besides those friends left behind prefer a paper sent to them every week rather than a letter semi-yearly. Really it is in the power of all to subscribe, as we stand ready to receive from those who cannot pay money, ALL KINDS OF PRODUCE of the farm from a load of hay down to a turnip. It is not begging that we are, but simply reminding people of their duty, to themselves, their friends and the public.

ADVERTISING.

To those doing business in the country the necessity, or rather benefit of advertising, ought to be apparent. Let our country paper make a good showing of business men; let it reflect the business of the country, and then those abroad can form a correct idea of what we are and what we are doing; besides the advertiser will get HIS MONEY BACK indirectly four-fold.

JOB PRINTING.

The EAST OREGONIAN job office can turn out as good plain business and social cards as any office in the State; having a fast Ruggles' card press in good order and condition, card printing is made a SPECIALTY. The large assortment of wood and other type renders the office complete for poster printing, which we are always ready to do with celerity and certainty, and at very low prices. Any business man in the country desiring any kind of job work done, will please address us and get terms—and we pledge ourselves he will have no occasion to send to Walla Walla or Portland. Years of experience, and an acknowledged skill in job printing prepares us to assert that we can give entire satisfaction.

LOCAL ITEMS.

The settlements and towns of Umatilla county are so distant from the county-seat, and from one another, that the expenses of employing a reporter in each would be too great for the small business we expect to do for a year; therefore we would deem it an especial favor if persons in each town and settlement would send us each week all local items and occurrences in their town or settlement. Items which are sometimes considered trivial read well when in print. Young men and women who desire to cultivate their powers of composition, and learn to write in a terse, brief and plain manner can avail themselves of this invitation, and benefit themselves, the public, and render us a great favor. In these columns we hope to bring the people of all parts of the county closer together, to let the people of each section know what the people of other sections are doing—and this we cannot accomplish without assistance from one or more persons from every town and settlement in the county. Therefore we say,
