LOCAL AND OTHER INTELLIGENCE.

RECEIVED.—We received this week the Annual Catalogue and Prospectus of St. Paul's School for Girls, Walla Walla, W. T., for 1879-80, containing names of scholars of primary department and so on. Among the number of pupils named we find school mates of ours—viz: Eva Laid, Olive Slater, Harriet Ellsworth of La Grande, Others we are acquainted with, but school mates, to-wit:—Mary J. O'Brien, Walla Walla; Nena Overholzer, Heppner. The design of this school is to furnish a thorough and systematic course of instruction for girls. For all the branches of a thorough English and classical education, competent instructors are provided. The discipline of the school aims at the highest mental culture, the course of study being as thorough and extended as that of the best seminary for girls in the Atlantic States. The Fall term will begin September 4, 1879. For catalogue and particulars address, Miss H. B. Garrison, Walla Walla, W. T. See adv. elsewhere.

\$10 REWARD.—We will give \$10 reward for evidence that will convict the person that defaced the posters in front of this office, and \$25 for evidence that will convict the person that defaced the one in the New office. We do this because we are doing job work for a great many people and intend to see all job work that goes out of this office protected.—Grand City News.

Correct, and we will now give notice, that any one caught cutting or defacing any poster printed at this office will be prosecuted to the full extent of the law, under the title of "malicious injury to personal property."

Desertion.—One of "nature's naturally inclined sort," a "genuine fellow" came to this burg under an assumed name, and remained at the Hotel of Pendleton, where he worked like a good fellow, until one evening while lazily whiling the moments away in a conversation, his inclinations were attracted to the attention of one who made it his duty to "come here my friend your my prisoner." The next day he was on his way to the Fort where he will probably wear a set of "saddle to let's keep him at home." Being of a working disposition we don't blame him much for "creeching," but would advise him to keep his post hereafter.

"New-Humors."—The busy tongues of the stronger as well as the weaker sex of La Grande, in this State, have been taxed to their utmost capacity for the past ten days, discussing a most delicious scandal. The persons implicated are the Rev. H. K. Hines, a married lady, who has moved in the best circles, and who has been a leader in all social amusements for many years. The details are developed, promise to be richer and more interesting than those of the "Tibet" case in its published days, and the correspondence already captured makes the Oakes-Laurent letters appear flat and stale.—Standard.

GOVE EAST.—Bridgman, in company with Prof. Arnold, who goes to Salem on special business instead of duties of relatives as he thought, and Julius Stenwald, who only went to Umatilla city for a place to leave, started East to remain about five months. We need not wish him a pleasant time as he is naturally inclined. Prof. will return home about the 10th of next month. We will wish the Prof. a good time as he is somewhat laudible. Effie.

STRIKER'S NOTICE.—Sheriff Sperry has been ordered by the County Court to force all collections of delinquent taxes, now due, from 1872 to 1878, by the 1st Monday in September, 1879. If you all wish to save costs, we advise those who are behind to immediately come forward and settle and save costs, as it will be necessary to allow the sheriff something for hunting you up.

STRUCK BY RAIL.—Jud. Boyakin, a well known printer, and George Dunnigan have discovered a quartz mine on Shaler creek, about a mile from the Harris road, Idaho, that assays \$62 in silver and \$250 in gold per ton.

Good luck to you Jud, may you earn more at this than by "stitching" type.

PARDONED.—His Excellency Gov. W. W. Thayer has pardoned John Harpelle and Edward Behong, who were convicted in the Circuit Court of Marion county, and on June 18th were sentenced to three years imprisonment for the crime of robbery, near Gervina in that county.

HOUSE INSURED.—Uncle Jim Johnson had a fine house that cost him \$3000 badly injured by running against a barbed-wire fence. This is the second house that he has had hurt in this way—the first one died; he is now putting a pole around the wire fence, and it will be a great improvement.

WILL LEAVE.—Mr. Godkin, one of our best citizens, who "came down upon" us some time ago from the Sound, we are sorry to say, will soon take his departure, and whence he came. We dislike the idea of having to part with him, for Pendleton loses a good citizen and will have many a trial before gaining another like him.

ANOTHER SCHEME.—Near Lake Union the body of Theodore Newman, formerly local editor of the San Francisco Democrat, was found in a state of decomposition, having been found in a boat, committed suicide. It seems that he had become disenchanted and was tired of life.

NEW AGENT.—A new Indian agent has been appointed for the Siletz Reservation. His name is Swan, and he hails from Buffalo, N. Y. He arrived at Portland Thursday last week and on the following day came on up the valley on the hunt of his new location.

STRANGE.—How in thunder did Gen. Howard get the news that an Indian had been killed here by a white man. Where, and when was he killed, and by whom? We would be pleased to know and would not like to lose this important local.

PAINTING.—Robert Lane, our painter, has just received a complete set of Artists' tools costing a good round sum. Bob will most likely commence the painting of some of the Willow Spring scenes.

JUST SO.—Sheep of the Bedrock Democrat is very quiet now, we presume. He has not made an apology for those items he accidently did not give us credit for in two of his issues.

Rumor. has it that Snakes are in the mountains, but they are not "come at-able."

Croquet is all the rage. Many ladies think soda water soda licious. The local of blackberries came to town this week. Calla lily by any other name and it will smell just as sweet. The branch railroad to Weston is vigorously pushing ahead. Hon. Lucian Everts has gone to the Dallas on professional business.

Mrs. and Miss Webb have returned home from a visit to Grand Ronde. Millard White of it will compete with any one as far as making is concerned. Nothing was the matter, but a group of people or two afforded him a short time for sport. Ja. Lennox is down from Weston on a visit. We like to meet you occasionally Jo. Sheriff Sperry says there's many a thing on the reservation Millard White can't see into.

Richard Gorgon, who accidentally shot himself a short time since, died Thursday morning at 3 o'clock.

From a correspondent we learn that Fairview Milling Company C, enlisted ten new men at their last meeting. Deputy U. S. Marshal S. L. Morse has arrived from Portland, where he has been to deliver J. Garrety—insane.

Weston is rather dull. Most everybody have returned from the Warm Springs estate with having a good time. Croquet parties are fashionable on the lawn in this city after sundown and until midnight when the game is finished on the front gate.

There are now 62 men in the Siletz mines. No considerable amount of gold has been taken out, and the mines are very difficult of access.

His excellency Gov. Thayer has appointed David E. Durie, of Pilot Rock, Umatilla county, and Harvey E. Cross, of Oregon city as notaries public.

\$80,000,000 is the largest amount ever borrowed by an Oregon corporation. The mortgage is executed by the Oregon railway and navigation company.

Mrs. Haley, during her stay in San Francisco, met an old acquaintance by the name of Miles, and we understand from a responsible party, was married to him.

A colored man, under arrest for attempted outrage on a young woman, was hanged by the neck in the jail here, this morning. This is what ought to be done by the law.

Mrs. Durie, of the New Northwest, was burned in effigy in Jacksonville recently, on account of an article on some of Jacksonville's citizens. She also got a dose of rotten eggs.

A young man may do a great many foolish things, but he will never forget to button his coat as low down as possible the next time he goes bawling riding on Sunday. He will not forget the large amount of fun he didn't have.

It is reported that it is the intention of Jay Gould to start a Republican newspaper in this city, under the name of "The New York Tribune and wishes to have another at the western terminus on a similar scale to that of the Tribune.

A certain young couple promenade the other evening, should be more careful and not include those near by in their conversation. It makes a person feel as mean. But we excuse them this time under the circumstances, as they were lovers and of course "love is blind" to any other object in view.

REMEMBER.—Preaching at Pilot Rock to-morrow by Rev. Kirkman.

PREACHING.—Rev. P. C. Hetzler, State Bible Agent, will preach to-morrow at the M. E. Church, in this morning.

NEW BUILDING.—Judge Bailey has let the contract to Bentley & Hawn, who will commence the erection in a few days.

NOTARIES PUBLIC.—His excellency the governor has appointed Alex. Meacham, of Weston, and H. Linville, of Buena Vista, notaries public for the ensuing two years.

SEWELL.—Byers & Co., in addition to the new granary added to their mill, have added a steam thrasher, running up very high. We give them credit for so displaying their taste.

BRIDGE.—Work on the county bridge, under the management of the contractors, Mays & Zeigler, has been commenced. The bridge, as the contractor, will be superior to any ever built in this county.

WARM.—The weather is a subject of more or less duration, but still that does not prevent us speaking of it once in a while, especially when the thermometer stands 90 degrees in the shade.

GONE.—Tustin and his family have gone to the Warm Springs for a visit, but we are sorry to say he will not return. Ben Hawn, in that direction also, but will return to our gladness. Good time to you all.

FROM JIM.—We received a private letter from our Senior in which he states he arrived in Umatilla about 2 A. M. on Sunday, and says he never had a rough a ride in his life before, the roads being nearly—h—l all rough.

IN MEMORIAM.

THEO. TALLAFERRO.

In San Francisco, May 24, Theophilus W., second son of Judge T. W. Tallafarro, aged 18 years, 5 months and 8 days.

For some time past we have been asked whether Theo. Tallafarro was dead or not, but at last the sad news of his death has reached us, which was accidentally over-looked in planning our San Francisco exchange. Theo. was a young man of great vitality and strength, and when stricken down with disease he had to succumb. The acquaintances of Theo. can testify that he was of kind heart and gentle disposition, and always leaned to the bright instead of the dark side of life, but at last he passed off calmly and quietly as the infant goes to sleep. An indulgent father, loving brother, and a host of relatives and friends live to mourn his loss and keep green the memory of his goodness. Good-bye Theo, until all of us meet "where there is no death nor device."

MARRIED.
TROOP—STEP—In Portland, July 17th, at the residence of Marcus Truman, Esq., Capt. James W. Trompe, of Upper Columbia, to Miss Frances J. Stump, of Portland, Oregon.

Business Locals.
Call on Dan Moore at Centennial Hotel, Union, when in Grand Ronde valley. This is a first class house and hard finished.

PAID WARNING.—The first of July is past, and my books are closed for 1879. Thinking my friends for their liberal patronage, and in order that they all may have ample time and fair warning, I deem it my duty to notify all whom it may concern that I shall request prompt settlement in payment of all amounts due me by the first of August. Both for accounts and notes in my hands. This notice is to save costs. "In the mean time I shall continue to keep a full and complete stock of goods which I will sell at the very lowest price FOR CASH. Hereafter I shall sell goods on thirty days time, and interest will be charged after that time. The old maxim is a good one "what a bird in hand is worth two in the bush." G. W. Wynn, Pendleton.

P. S.—This does not mean Jones but Smith.

LOST.—In Pendleton: a Charm Locket, Canadian stone on one side and blood stone on the other; three dollars of gold chain attached to it. A suitable reward will be paid the finder by leaving it at this office. J. M. BENTLEY.

RANCH FOR SALE.—I offer my ranch, known as the J. R. Means ranch, on the Umatilla river, 18 miles below Pendleton, for sale at a bargain and on easy terms. 160 acres; plenty of wood and water, and two good orchards on the place. Enquire of me or at this office. J. M. BENTLEY.

Important to Wool-Growers.
Sheepmen, (Paw & Co., Builders.)
Cheyenne, Wyoming Ter., April 20, 1879. I believe from experience that S. H. Kennedy, for over three years, I have also tested the Sheep Dip manufactured by him during that time, and I know from experience that it cures Scab, as I have eradicated the disease from my own flock by the use of the Dip, which all other Dips tried had failed. I confidently recommend his "Non-Poisonous" Sheep Dip as the safest, best and cheapest Dip in use. Yours respectfully, M. E. POSE.

In addition to the above endorsement of the value of the Sheep Dips manufactured by S. H. Kennedy, of Omaha, Nebraska, we have the highest approval from Mr. J. F. Johnson, of Walla Walla, who used the dip last year, and he writes to J. McCracken & Co., of Portland, under date of March 24th, 1879, in which he says:

"I believe from experience that S. H. Kennedy is correct as to the disease commonly called Scab in sheep, and the time, made and remedy to eradicate the disease. His Sheep Dip is the best remedy for scab and the cheapest and safest."
Yours, J. F. JOHNSON.

Order either of the three Sheep Dips, viz: Concentrated extract of Tobacco, Hemlock Dip (Poisonous), also the Non-Poisonous Dip. For sale by J. M. BENTLEY & Co., May 24th. Umatilla City, Oregon.
