LOCAL AND OTHER INTELLIGENCE.

The impressive Frank Maddock arrived in town from Heppner on Monday last, with about three tons of the finest coal that ever came over the river. It is a good article for blacksmith use, and is superior to any coal we ever saw for burning in stoves. The coal is coming into general use about Heppner and we have no doubt that it will be a fair trial by our citizens that we would follow suit. The coal is on exhibition at Marshall & Folsom blacksmith shop.

R. Alexander has just returned from San Francisco with a fine and complete stock of goods as ever came to this market. He offers for sale at prices to suit the times. Their stock of new clothing is especially large and magnificent, and of the latest style. We have been in, examined and priced their goods and assure our readers that they can find no better goods anywhere, and the low prices will astonish you. If you want a new suit, a "daisy," go to R. Alexander & Co's and you will find it.

We are in receipt of a private letter from Dr. John A. Pruitt, formerly of this county in which he states that he is not yet properly located, that he is now preparing himself practically for the duties and responsibilities of his profession under the duties of a physician and that when he does locate permanently he thinks it will be in Umatilla county. When John does hang out his shingle he intends to be fully prepared and qualified for business.

On Tuesday night last, a large and enthusiastic meeting of citizens of this town, met at Millard's Hall to organize a fire company. 45 persons put their names down to form a company, and adjourned to meet for permanent organization on Friday evening. This makes it too late to give their proceedings in this issue of the paper. We hope that the good work will go on till we have some little assurance of assistance in case of a fire.

Ladies look under the head of "New Today" and see what Mrs. Hexter has to say about her new stock of goods. You will know how it is yourself. Mrs. Hexter needs no commendation from us, her reputation is established for fair dealing, and she knew just the kind of goods to buy for this market. She has got the goods she wants you all to look at them, knowing full well if you look you must buy.

Mr. J. C. Franklin, of Butter creek, sent us this week a lot of fine strawberries as we ever saw picked from the vine, last Tuesday also a lot of blackberries. He has strawberries just in season, and all stages from that to the best grown ripe berry. What country can beat this? Mr. F. will have berries the year round if not an unusual hard winter.

Sam Anderson, of Happy Canyon, has placed upon our table three potatoes of the early goodrich variety, the combined weight of which was 12 1/2 pounds, another as smooth and perfect a potato as ever we saw weighing 2 1/2 pounds. Who can beat this for weight or who claims a better variety of potatoes? We anxiously wait for an answer.

FALL SOWING.—Sow onion seed in the fall, sow them thick, when winter comes (if there is likely to be cold weather) cover them with straw. In the spring, thin them out, using those pulled up for sets, and you will have a fine crop of onion sets from those left standing, and the others will produce fine sized onions for the early fall market.

And Stevens, an old citizen of this place but now of Heppner, passed through town on Wednesday last from Walla Walla where he had been to procure the entire apparatus for manure turning. He will get to work just in time to revivify the new editor of the new paper about to be established. And you are in luck.

C. O. Fanning, who lives about two miles below town on McKay creek, met with a painful accident last week. While at work at constructing on his house he mislaid his foot and was precipitated about 15 feet, breaking one of his ribs and putting a horrible kink in his neck. We understand he is recovering slowly.

Ben Selling has just imported from California 15 of the finest merino bucks that ever arrived in Umatilla county. The bucks can be seen at the ranch of J. Frazer, Birch creek. Selling is desiring great credit for his energy in bringing such good wools in buying such specimens of blooded sheep.

See ad of J. Jacoby under "New Today." Mr. Jacoby has opened a new variety store opposite Pendleton Hotel where everything usually kept in a first class establishment of that kind can be found. And he sells at reasonable prices. Go see him if you need anything in his line.

G. W. Webb, dealer in stores, tin and hardware, has added to the above stock double barrel shot guns, muzzles and breech loaders, all the latest improved rifles, revolvers, pistols, etc., etc. Come one, come all and examine, he is bound to sell and sell quickly.

Senator Slater paid our office a visit on his return from the Valley where he has been looking after the interests of Western country. He made but a short stay, left Thursday morning for a short stay in La Grande.

The Filander Convention for revising the spelling of the English language has adjourned.

A striking affair—a clock.

County court next Monday.

Snow and mud in Blue Mountains.

Lost—A merchaum pipe. Return to this office and get reward.

40,000 bushel of wheat changed hands at Salem last week, price, \$1.

Arthur Webb has returned after an absence of several months looking healthy.

Bridges at and above Pendleton, across Umatilla, are about completed. Good jobs.

Several communications are crowded out this week. Want of room is what's the matter.

Mrs. J. R. Means has been suffering from sickness for some days. Hopes are entertained that she is convalescing.

Mrs. L. Livermore is visiting her mother at Tacoma. Her numerous friends wish her a pleasant visit and so do we.

Mr. J. Stutler has purchased Mat Taylor's blacksmith shop, and will run the business hereafter on his "own hook."

G. M. Bull, formerly connected with this paper, took his departure for Portland last Tuesday. Success attend you Munsey.

The court house is newly papered and painted inside, looks much better than heretofore and will certainly be more comfortable.

Sheriff Sperry is now in the upper portion of the country serving summons on the jury for next Circuit Court that convenes Oct. 27th.

J. F. Chambers, for disturbing the peace and for being drunk in the county jail twelve and one half days. This makes four prisoners in jail.

Mrs. Logan Robinson, the magnetic healer, has left our midst and gone to California. Many remarkable cures are said to have been performed by her while here.

Jim Carden is in the cigar and tobacco business, he visits all public places with his carriage and is worthy of patronage being a crisp and manly worker. Furnishes the choicest of cigars.

The canneries in and around Astoria are all busy packing beef. We have the cattle on this side the mountains, and we hope that this enterprise will give the farmers and stock raisers a good market.

Rothchild & Bean are in receipt of their full stock of goods which is immense. Mr. R. visited San Francisco and selected the stock and by close buying they are able to sell goods lower than ever sold before in this market.

As mechanics it is no more than right to notice Bradley & Ham, who have just completed the bridge at Pendleton. For good substantial work, done with the very best of timber, no bridge in the county is its superior. The sills are laid on and bolted fast to bedrock, the joints fit closely and taking it all in all it can't be beat. Hurrah for the honest job.

Washington Legislature met and organized Oct. 6th 1879. On the 9th adjourned to go to Portland to see General Grant and on the 10th adjourned to go to Astoria. Mr. Hexter was paid for by the deer peoples money, and next year they will stamp the territory with the cry of retrenchment and reform.

O. S. N. Co. are now taking from different shipping points on the Upper Columbia and delivering in Portland and Astoria 2000 tons per week, mostly wheat. For all this wheat will have to be kept over the winter in this country. A railroad is what is needed.

Oct 9th a warrant of arrest was received by Sheriff Sperry, from the Sheriff of Lane county, Oregon, for the apprehension of J. P. Johnson, who was charged with the crime of uttering a forged note. He was immediately arrested, and now languishes in the county jail, waiting for the arrival of the Sheriff of Lane.

It is reported in valley papers, that some White Russia wheat has been sown in the Willamette, with the best result. No frost ever attacks it and it yields from 15 to 20 bushels more per acre than the common wheat. The wheat can be obtained of C. L. McCracken, Portland, and is sold at \$3 per bushel. Would it not be well for some of the enterprising farmers of Umatilla county to test the matter.

Deputy Sheriff Coffey was arrested and taken before Judge Ritchie, last Friday morning, charged with the crime of kidnapping a child. It appears that the child was taken by virtue of a warrant issued out of the county court. The judge after seeing the warrant, ordered the prisoner released. After much talking by the lawyer for the prosecution, he was placed under \$500 bond, for his appearance before the grand jury. And of such is the city of Centerville.

The Crack Proof Rubber Boot.

We would call the attention of our readers to the notice of the Crack Proof Rubber Boot, which appears elsewhere. For durability they have not their equal, and in their make great care has been taken to give the public an article that will answer the purpose in that line of goods.

The material from which they are made is the best, composed of pure gum and rubber, which, together with the rubber springs as shown in the cut makes them absolutely crack proof. The manufacturers, The Union Rubber Company, are too well known to need any special comments at our hands, and all goods placed in the market by them are guaranteed as represented. To insure these boots are indispensable. All orders addressed to the well known firm of Kaufman, Hecht & Aiken will meet with prompt attention. This firm are the agents for and prices and catalogue address them.

Lieut Farrow has done more execution in whipping and capturing those Indian murderers, who have infested the Weiser, Pyate and Salmon river mountains, than the combined efforts of Col. Bernard and three companies of U. S. soldiers who have chased those Indians all summer with no result except the defeat of one part of his force, and the capture of their pack-train. Farrow and his Indian scouts, not only retook the pack-train but is now on his way to Vancouver with about 50 of the best and bravest Indians all summer with no result except the defeat of one part of his force, and the capture of their pack-train. Farrow and his Indian scouts, not only retook the pack-train but is now on his way to Vancouver with about 50 of the best and bravest Indians all summer with no result except the defeat of one part of his force, and the capture of their pack-train.

The Filander Convention for revising the spelling of the English language has adjourned.

A striking affair—a clock.

ADVERTISEMENTS.

To lovers of the turf we print for their edification that the American horse Parole, who was supposed to be king of the turf was badly beaten running for one of the different cups. But this should not create the impression that American horses are deteriorating, as he was not in good condition at the time of the race. We also have to chronicle the great feat of the Kentucky mare Janet, the mare is owned by James Grinstead, and made the remarkable time of a four mile race of 7:25, the best time on record.

MARRIED.

NEILON—PICKERIN—Near Weston, at the residence of the bride's father, Oct. 5th, 1879, by Rev. W. H. Pruitt, Mr. James Neilon and Miss Alice Pickerton. Both of Umatilla county.

DIED.

TOWNSEND—At his residence in this city on the 5th inst., Danville L. Townsend, aged 50 years, 3 months and 10 days. The above deceased was a son of our much respected, Grandpa Townsend of Wad Horse creek. Deceased was born near Augusta Maine. In 1854 he became a settler in Dodge county, Wis. In 1858 he was elected sheriff and served two years, was U. S. Marshal for two years, from 1860 an active politician till 1862, when he went largely into the lumber business. He was a mason, and was buried in Oakland with the ceremonies of that fraternity. He was a good honest exemplary man and citizen.—Buried Dan Argus.
