| 5.             | Of the many touching tributes paid to  |
|                | flowers, there is one associated with the<br>closing hours of Henry Heine, the poct, |
| -6710          | which appears to be very beautiful. He   |
| osiv-          | was dying in Paris The doctor was pay-<br>ing his usual visit, when Heine pressed    |
|                | his hand and said: "Doctor. you are my   |
| -based         | friend; I ask a favor. Tell me the truth<br>the end is approaching, is it not?       |
|                | The doctor was silent.   |
|                | "Thank you," said Heine calmly.<br>"Have you any request to make?"                   |
| ist.           | asked the doctor, moved to tearn.<br>"Yes," replied the poet; "my wife               |
|                | and the proce, my will   |

wife her. Take from lowers she brought flowers so dearly. upon my breast." ed their perfume. nd he murmured : ow beautiful is

eed that their ap-

ginning to end. Gen. Adams then put the question, "Was I ever in your house on the Grand river?" He answered "No," Souerwick was then discharged and Adams made the following speech to Garay. The last answer is not true; I did sleep in

statungs at \$1e 110015

Sowerwick's tent, and there we held a council from 11 o'clock until 6 o'clock in the morning. Sowerwick was present, and with the others was fully cognizant of what was done, and to-day he comes here and says he does not know anything. For that reason I believe he has not spoken the struth, nor does he wish to speak the truth. I believe also that none of them wish to speak the trath, and therefore it is almost unnecessary to go any further. They have refused to

mention the name of a single Indian, while they well know the names of all of them, and 1 now present the situation to you so that you can recommend some other course whereby we may execute the orders of the government. The government wants us to ascertain who were engaged in the dificul-ties at White river. We want the names of the guilty parties, and if you think no cannot find out who they were we had better go home.

#### Not Guiliy. Currison, Nov. 17 .- Mrs. Adelaide Robert who for two weeks past has been on trial for the murder of Theodore Weber, was this termoon found not guilty of the murder, by

o jury, since at the time she killed him e was insano. They also found that she a not yet recovered permanently. She il be removed to the Eigin insane asylum. Still in Trouble.

Urica Nov. 17 .- Gov. Seymour says he is not aware of a movement being on foot to settle differences in the Democratic party of this State. In his judgment the only body to arbitrate in such affairs is the State Committee, who without doubt at its next meeting will act wisely and judiciously in view of the facts and results of the late election.

# Ntorm on the Lakes.

Oswgoo, N. Y., Nov. 18 .- The tug Seymour of Odensburg left Cape Vincent yesterday with four tugs, three dredges and eight scows in tow for Buffalo. During the night a gale on Lake Ontario was encountered, and all the small dredges and shows were lost. One tag was picked up to-day and the Seymour has arrived at Sackett's Harbor. Of the stews only six persons were saved and twenty-two lost.

Catcaoo, Nov. 18 .- The editor of the Naws has verified the correctness of the dispatch received from Gen. Robert Toombs of Atlanta, Georgia, on the 12th inst. The dispatch as received has been compared with the one named, and found to be correct in every word. Hence there was no garbling in the transmission. The closing sentences Wate:

"He (Grant) fought for his country honorably and won. I fought for mine and lost. I am ready to try it over again. Death to the Union.

# National Finances,

WASHINGTON, Nov. 18 .- The annual report of U. S. Treasurer Gilfillian says that the aggregate of gold coin and bullion, including the standard silver dollars, being coined under the act of Jan 28, 1878, which do not appear in statements prior to that year, is shown to have increased from \$51,452,247 in 1876, to \$114,464,982 in 1877, to \$163,969. 444 in 1878, and to \$222,807,368 in 1879. The note assets are ranged as follows on the above dates: In 1876, \$98,419,685, in 1877, \$109,66s,287; in 1878, \$88,872,890, and in

1879, \$59,699,080. The annual receipts from all sources are \$294,090,000. Of this amount at least \$34,-000,000 is in silver dollars or silver certificates, that being the minimum paid annually for silver bullion for coinage, which amount sppedily finds its way into the treasury. The more certainly because the payments for bullion are made either at New York or San his last words as Francisco which are both centres of large receipts by the government. The maximum net note receipts are then \$250,000,000 against which are payments of \$267,000,000
