A Curious Plant

The Appleton (Wir.) Post reports the discovery in Wisomsin of a curious plant, which produces a kind of cutton and flax from one same stalk. It has already been woven into fabrics, and as any article that will make as good chath as can be made from this plant will make good proper, it has been called the paper plant It can be planted in the Spring and cut in the Fall and Winter. It bleaches itself white as it stands, and will yield at least three or four tons to the acre. From a single root that was transplanted last Spring grew twenty large stalks, with 305 pods (containing the cotton), with at least sixty seeds in each. From this root were obtained seven ounces of pure cotton and over a half pound of flax It is a very heavy See that the Private Propries plant, and grows from six to seven feet

The Ute Drama Continued. DENVER, Col., Dec. 8 .- Specials to the Denver Tribune from Los Pinos, dated the Gth, represent that Saturday witnessed some decidedly animated occurrences at the commissioners' meeting. After Jack had declined to inform the commissioners what Indians had been concerned in the White river massacre, the Indians retired to Corny's house to debate what course to pursue. A man was next from the agency to Ouray's with feed for the burses of Indians, and discovered from the noise on the imida that the Indians were greatly excited, and what he saw of them were bedecked in feathers and war pain, and he was so frightened that he turned back, and did not diliver the hay, Saturday, at 12 o'clock, the Utes came into the agency and took seats inside of the agency building. Jack Colorow and 12 other Whiteriver Utes, and of course Carsy, having been among the Indiana were pres-ent. When the Indiana and commissioners had talen seals, General Hatch addressed the Indiane, setting forth the full demands of the commission, its might to make the de-mands and the patience exercised with the Utes. "To-day," he said, "Is our last chance. We will wait no looper. We want our final answer, and want me exasions."
The list of Indians charged by the agency women in taking part in the massacre was then read and the question put by listch: "Will you surrender the men whose names are on this paper to be tried, and the guilty punished and the innocent acquitted?" The question was put'twice, and after consultation crasive answers were returned both times. When the question was repeated the third time, Oarsy replied without outaulting the other Utoe:

"How do we know that these Indians you name were at White river at the time of the messacre, or, even if they were, then we do not know they were concerned in it. These women mentioned the names which came drst to their lips whether they knew them to he these or not. We cannot depend on

"That is what we depend on," said Hatch.
Adams then addressed the Indians, making a speech of over an hi tr's duration, sa ving among other things that the commission we did not want to punish Corlows.

Jack and others that took part in Thorn-burg's f. bt, but the comard's dogs who participated in the massers of marmed men at the agency. Closing by saying, we want those Utes, and will have them.

The ludians hold a consultation in a low tope of voice amon, themselves, but did not seem inclined to reply at all, when Hetch again roce and asked if the guilty Indiana were to be surrendered, saying he had made the last appeal. No one moved or spoke for a few momenta when Colorow lighted a kin pipe-the pipe of peace. Each Indian present drew his knife and haid it on his knoes. The question of punce or war being the one man without smoking, and it went round. When the circle was finished he jumped to his feet, straightsund up to his full bright, pulled his belt around until his knife sheath was in front, pulled his knife out, threw it with force on the floor quivering and ringing. Instantly every Indian present dropped his hand to his belt and laid his hand on his kn, le or pistol. The whites did the same and the two parties stood fronting and defywaiting for the other to make a forward move. The e were but six white men while there were 25 Indians in the room, and 15

coldiers in an adjoining room, Finally Outsy spoke: We cannot deliver an to you these Indists unless they are tried in Washington. They trust not be tried in Colorado. The Colorado. do people are all our enemies, and to give them up to be tried in this State would be to surrender them to be hanged. We will bring these twelve men here for you to see, and then whom you decide guilty shall be taken to Washington and the President shall determine their guilt or innocence. Douglass will have to go we know. He was in the White River troubles and you shall decide who else. Upon this condition and

no other will we surrender the guilty This being delivered with great arr and boldness, Oursy sand it would take

about a week to bring the men in. Hatch told him he would accept the prop seition so far as bringing the massacre usen in, but se far as taking them to Washington he had to telegraph for permission to Schurz.

Colorow and Jack were fumediately dispatched to bring in the 12 named, including Douglass and Persone, saving they would be back in five days. After they had taken their departure, Ouray again spoke reitarating his statement that the Uses could not get justice in Cutorado, and could only get it in Washington, You there (meaning Hatch, Adams and legal adviser Valor), are all my enemies; I am one against three. You are all Colorado or New Muxico man and a French devil. I have not one friend among you. You will not give me justice, and that is why I want to go to Washington, where I can have at least one friend.

Senate Republicana

WASHINGTON, Dec. 10 .- The advisory committee of the cancus of Republican Senators consisting of Senators Morrill, Conking. Hamlin, McMillan, Booth, Garwood, Logan and Carpenter, have decided to recommend that the party in the Senate commit itself to a policy of non-action in regard to any and all legislation affecting the currency, whether gold, greenbacks or silver during the present session. The committee are unanimous, with the exception of Merrill, who will recommend that greenbacks be divested of their legal tender power, and that some provision be made for their retirement.

The dwelling of Nous Burkhead was torn to pieces, and Mrs. Burk-head was seriously wounded.

To Move the World.

New York, Dec. 10.—The Commercial Bulletin says that the engineers of the marine underwriters and others, to whom the knowledge of the fact has come, are deeply exercised by the recent successes in the application of the giant motor obtained from bisulphide of carbon mixed with petroleum, for which a patent was taken out by a Pittsburg firm last April. The method consists in the transmission of the above chemical agents from the chamber of a condenser to the beller of an ordinary non-condensing steam engine, the boiler being filled with water heated to about 200 degs. pressage.

Democratle Policy. morow, Dec. 11 .- Senator Bayard's Washisoton, Dec. 11.—Sensior Bayard's resolution for the abrogation of legal tender quality of Greenbacks, is quietly but very certainly gaining supporters among his Democratic colleagues, and it now begins to look as if it may pass the Senate. Its growing strength is mainly due to considerations of party policy, which centers upon the evident destrability—of doing everything possible to secure the electoral votes of New York.

The pres ut indications concerning the Spofford-Kellogg contest are that the Democratic majority of the Serate committee on of declaring the seat vacant on the ground that neither Kellogg nor Spofford was elected by a lawfil Logislature.
