A Murderous Monster. LONDON, N. H., Feb. 8.—A startling tragedy took place near here yesterday, in which Sarah, wife of E. N. Dillingham, was foully murdered and then murdered by a nephew of her husband, who was confessedly his crime, and upon returning to the place, his victim was found lying upon the floor with a rope tightly drawn about her neck and a bullet hole through her brain. Her death is momentarily expected. The brutal villain says that he went into the woods back of the house and tried to shoot himself with the same revolver, but failed through lack of courage or some other cause, although one ugly bullet hole was made in his forehead, the ball penetrating the skull. This wound is not thought to be fatal.

The soldiers, ten in number, accompanied by ten Indian scouts, made a rally from the fort to meet the band, who had killed one man and wounded another on Mesapih Creek several days since. On receipt of the news of the skirmish, Capt. Snyder, of the 5th infantry, with a company, proceeded at once to the scene of the action and put an end to the affair. The scouts came in in the afternoon displaying the scalps of the two Indians who were killed. The other three were taken prisoners and are now being brought in by Capt. Snyder and his command.

This will give the Democrats another State in case of a tie in the presidential election. Washburn had 2,000 majority. The claim of bribery will be set up. It is manifest that the deep purpose of the Democracy which was revealed in the attempt to steal the State of Maine is again disclosed in this effort to rob the people of Minnesota of their rights. It is proposed to reject 1,500 votes of Washburn's 3,012 majority by throwing out the entire vote of Minnesota.

Mark Lane Report. LONDON, Feb. 12.—The Mark Lane Express review of the British grain trade for the past week says frost has disappeared and the weather has been showery since Saturday. Some little progress has been made with field work, which is still behind hand in some districts. The land, however, is now in good workable condition. Reports relative to winter snow what are favorable in those districts where it has appeared above the surface. The damp weather is unfavorable to threshing. Really dry samples are practically unobtainable. Even fair average lots are rare. Trade both at

Mark Lane and in the country has been exceedingly dull in consequence of this and the bad condition, and millers would scarcely look at English wheat. Last Monday a decline of 1/2d per quarter was quoted over on heavy parcels, the provincial markets following suit.

Business fog also variously interfered with business in London.

Imports of foreign wheat into London have been moderate, but at Liverpool arrivals were more liberal. Last Monday's decline of 1/2d per quarter has not been recovered, as the consumptive demand was very small, but there has been no further reaction. As regards the speculation for a rise in America, taking into consideration the fact that American wheat the surplus is not much, if anything, in excess of European needs, it is quite probable that prices may eventually adjust themselves without a great rise here or a great fall in America, but at present the question seems to be simply who can hold out longest.

Arrivals at ports of call have been considerable, though red winter wheat are very scarce. There was great depression early in the week, but since then, owing to an advance in America and a large quantity of wheat taken from the coast for continental ports, prices have advanced 1/2d to 1s per quarter, with more demand both for the United Kingdom and for the continent.

There was a fair inquiry for maize at an advance of about 6d per quarter. Buyers show no disposition to enter into a forward business, either for wheat or maize.

Sales of English wheat last week were 37,313 qrs. at 44 2/3d per qr., against 63,738 qrs. at 38 1/4d per qr. for the corresponding week last year.

Imports into the U. K. during the week ending Jan. 31st, were 1,009,439 cwt. of wheat and 108,663 cwt. of flour.

A Grant Asked for Public Works. LONDON, Feb. 12.—A deputation, consisting of Wm. Lubbock, a member of parliament, representing constituents in South Ireland, waited upon Hon. Selwyn Selwyn, joint secretary of the treasury, asking a grant for the prosecution of public works in connection with the improvement of some harbors on the south coast. The secretary of the treasury said that he would refer the matter to the Secretary of the Admiralty, and would delay in doing anything that was necessary for the relief of the suffering people of Ireland.

The Canada Horror. LUCAN, Feb. 11.—The inquest in the Donnelly murder case began to-day. The physician who made the post mortem testified that the body was found lying on its back, and could not distinguish male from female, and was unable to say positively what was the cause of death. John Connor, the boy who was in the house at the time of the murder, testified that James Carroll, a constable, called at the house between 11 and 2 o'clock to arrest the man. PACIFIC QUANT. TARIFF RATES ON CHINESE IMPORTS. SAN FRANCISCO, Feb. 9.—A meeting of merchants was held at W. T. Coleman's office this morning to consider the question of the tariff on Chinese rice and starch. Most of the starch manufacturers were represented by agents. It was suggested that Congressman Davis had already introduced a bill to raise the duty on rice, and it was therefore decided to let that part of the question alone. A resolution was adopted asking that the tariff on China rice be raised from 5c to 6c specific, the ad valorem rate to remain unchanged.

State Normal School Burned. SAN JOSE, Cal., Feb. 10.—Soon after 2 o'clock this morning the State normal school was discovered to be in flames. Fire was first noticed in the cupola, which before the engines arrived had become a pyramid of flame rising in the still night air. Within 15 minutes after the flames were first seen pouring from the cupola the whole interior of the central portion of the building was filled with flames, roaring and crackling like an immense furnace. The roof fell in with a tremendous crash, and in a very brief space of time the whole building was in ruins. The building was of wood, and the main portion had a frontage of 68 feet and a depth of 160 feet. On each side of the central portion was an arm 23 feet front by 79 deep. The basement walls were of concrete and brick. The interior was divided into class and recitation rooms, music room, museum, laboratory and apparatus room, society rooms, gymnasium and lecture room, etc. The building cost \$280,000. There was a loss of about \$200,000 on the house. The city market hall has been temporarily secured for the purposes of school.

Desmond of Workington. Some 3,000 unemployed persons assembled at the sand lots this afternoon, and after listening to a number of speakers, about half of the crowd formed a line and marched to the office of the Central Pacific Railroad Co., and a committee, appointed for the purpose, sought an interview with President Stanford and Vice President Crocker. Both were absent, and the committee was received by General Superintendent Towne, to whom they stated that the object of the movement was to ask the company to comply with the provision of the new constitution forbidding corporations to employ Chinese, and give work to unemployed whites, and intimating that if the request was not complied with and distress continued, it would be difficult to forestall the result. Mr. Towne replied that he would refer the matter to the directors and return an answer Monday next. The procession then returned to the sand lots, where the committee was re-elected by General Superintendent Towne, to whom they stated that the object of the movement was to ask the company to comply with the provision of the new constitution forbidding corporations to employ Chinese, and give work to unemployed whites, and intimating that if the request was not complied with and distress continued, it would be difficult to forestall the result.
