ATONETA, Feb. 25.—Hale's Investigating committee to-day continued the examination of election returns. Several important irregularities were discovered, and particularly in the case of the towns of Bangfield and Brownfield, where the names of towns and counties were omitted in filling up blanks, thus rendering said returns fatally defective. Some unauthorized parties, however, after the discovery of such errors, filed in the blanks and returned false county officers as elected. Income of the Government.
WASHINGTON, Feb. 25.—It is thought at the treasury department that the total receipts from customs this month will be nearly \$15,000,000, and from internal revenue about \$9,000,000. Taking this as a basis, it is estimated that the total customs receipts of the government for the fiscal year ending June 30th next, will be about \$153,000,000, and from internal revenue, \$117,000,000, thus making a total income to the government, including receipts from miscellaneous sources, of about \$300,000,000. It is calculated at the department that the total expenditures, including the sinking fund and interest on the public debt, will last up between \$275,000,000 and \$278,000,000. This would leave a profit to the government of about \$25,000,000.

This proposition meets a sensation. Prominent Republicans are said to have repudiated the terms of the bill. The movement is regarded as a defection of the Democratic party from the ranks of the readjusters.

Telegraph War Rages.
DENVER, Feb. 25.—The contest between the Western Union Telegraph Company and Mr. Gould's new telegraph company commenced here to-day. It has been announced that the American Union would support the Western Union, on the U. S. R. R. but it had not transpired just how this was to be effected in view of existing contracts. It seems that the Western Union discovered that telegraph batteries were being secretly erected in the city of Kansas City and that a new line of telegraph was covertly constructed from these batteries to a point in the central part of the city, and that by a coup d'état the whole telegraph line from here to Kansas City could be seized and controlled by the Western Union.

Prevention of the Consumption of any such act, the Western Union Company last night filed its bill in the district court of Arapahoe county against the American Union Telegraph Company, and the Kansas Pacific Railroad Company, applying for an injunction, which was granted this afternoon by Judge Elliott.

The injunction restrains the American Union telegraph company from operating any of the wires connected along the Kansas Pacific from Denver, and prohibiting both defendants from disconnecting any of the wires from the batteries of the Western Union Telegraph Company, or exchanging such.

A Famine Picture.
LONDON, Feb. 26.—A correspondent writes from near Galway: "It is a terrible state of affairs. Fifty families here eat a miserable existence. Their houses are small heaps of dirty stones, their land is rock and soil bog, and hunger and want are everywhere apparent. The people go naked and without food. Many are slowly starving to death. Such scenes of appalling destitution I never before witnessed. Every step we took brought before us a view of a new and more fearful picture of destitution and suffering. The more we saw the more certain did death from starvation appear inevitably the fate of every man, woman and child on the island. Gains, this and pain were the faces of men who were naturally of herculean build, and the features of the women and children were overtopped by the ghastly pallor of hunger. In many cabins children crouched shivering and almost naked around the fire, and when I entered they sprang behind their mother, whose single garment, a thin dress, was but the slightest protection against the wind which blew through the broken roof. On the fire was the dinner, a pot of brown-green sea weed. It is certain that unless they are well cared for dozens will die of starvation."

DENONSTRATIONS OF THE UNEMPLOYED.
SAN FRANCISCO, Feb. 25.—Unemployed men yesterday walked upon the grounds of the Palace Hotel, who declined to allow their interference with his business. Leaders of the movement informed the crowd of the result and added that in their opinion it was no harm to kill such a man. Mrs. Smith, who has been prominent in the movement lately, suggested dynamite as the means of removing Chinatown nuisance. The parade will be continued during the day, unemployed women joining the ranks.

Preparing for Defeat.
SAN FRANCISCO, Feb. 25.—The call this morning says that a severe meeting of citizens for the purpose of organizing a vigilance committee, was held last night in the Palace Hotel. The avowed object of the organization is the suppression of any possible riot which might occur in connection with the labor agitation movement.

Seaman Lot Oratory.
There was no parade of the workmen to-day, and the meeting of the sand lot was comparatively tame. Gannon, chairman of the committee, reported that after this work the committee would come calling on the employers of Chinese, and that week day meetings at the sand lot would be discontinued. (Cries of "Agitate.") "We will agitate in a different way," said Gannon. His speech was principally devoted to the recent meeting of merchants with the view of organizing subscriptions for the benefit of the unemployed, several of whom he abused roundly.
