DR. J. W. HALL, PHYSICIAN AND SURGEON, Pendleton, Oregon.

All calls promptly attended to, day or night. OFFICE—Opposite the Pendleton Hotel.

The Blockade Runner.

PANAMA, April 20.—More active operations have been in progress at sea, where the Peruvian corvette Union, under command of Capt. Villavicencio, gallantly ran the blockade at Arica, in presence of the Chilean vessels. She carried a most valuable and important cargo, including field pieces, mitrailleuses, rifles, ammunition, and money for the troops, all of which was safely landed, although under a heavy fire from the Chilean vessels. After landing the cargo and taking in a supply of coal, the Union again steamed out and ran past the Chilean fleet, without receiving even a shot or running any serious risk of capture. The particulars of this achievement are thus related by a Callao paper, and by witnesses of the affair: "The Union arrived at Arica, successfully running the blockade, early on the morning of March 17. The Matias, Consino, which, with the Huascar, was engaged in blockading the port proceeded at once to acquaint the Cochran of this. Soon after 9 o'clock the same day an attack was made by the Huascar, Cochran and Matias Consino, which was well resisted by the Union, Manco Capac, and the batteries, the Union firing from one side while landing her cargo and taking in coal from the other. The enemy's fire was so hot and the position of the Union so perilous that those on shore, fearing that she should fall into the hands of the foe, suggested that she should run ashore; but her plucky commander replied that the Union would either break the line or he would perish in the attempt. Luckily he effected his purpose, despite the strength of the enemy. Much enthusiasm reigned on board the Union during the engagement. As she was at anchor during the fight she could not bring all her artillery into play. One of the enemy's projectiles struck the deck, breaking three beams, damaging the funnel and endangering the boilers. Another shot carried away the bottom of a gun. The mizzen mast is slightly damaged, and a segment of a shell produced some little damage about the water line on the port side, near the bows. The smoke stack and two steam pipes were also much injured. The Iron clads attempted several times to get nearer the Union, but were driven off by the fort and batteries. The enemy's ships drew near each other at intervals, probably in order to combine some plan of attack, but the batteries seem to have discouraged them. The Chileans were evidently under the impression that the Union would leave the port, steering a northerly course for Callao, but she did exactly the reverse, going southward, skirting Alacran Island, and steering for Pisagua.

Physic, says an old surgeon, is the art of amusing the patient while Nature cures the disease.

St. Louis, May 6.—The anti-third term convention was largely attended. The utterances of the principal speakers were in favor of Grant in particular. The following was one of the resolutions passed: "That as Republicans we cannot be 'hero whippers,' and we demand from a party without a master the nomination of a candidate without a stain."

Third Termers' Convention, St. Louis, May 6.—The anti-third term convention was largely attended. The utterances of the principal speakers were in favor of Grant in particular. The following was one of the resolutions passed: "That as Republicans we cannot be 'hero whippers,' and we demand from a party without a master the nomination of a candidate without a stain."

TELEGRAPHIC. EASTERN STATES.

Riding a Kentucky Buck. Paris, Ky., May 4.—Crackmen took from the National Bank a package containing \$12,500 in bonds. Ten thousand dollars of the bonds are of the Cincinnati Southern and belong to Mrs. C. S. Brent, of this city; \$9,500 are Carle, Kentucky bonds, the property of Mrs. John Marshall, of Lexington, Kentucky. Payment on the latter cannot be stopped, but bank officials say that the Southern bonds can only be repaid by compromise with the burglars. Parties are suspected.

Sanitary Condition of Memphis. Memphis, May 4.—Sewerage is greatly improved. Local authorities declare the belief that health will be unbroken throughout the Summer.

Harbor Appropriations. Washington, May 4.—The following items are in the river and harbor appropriation bill reported to the House to-day: Constructing a canal around Cascade, Columbia river, \$100,000; Upper Columbia and Snake rivers, \$15,000; Upper Willamette river, \$12,000; Lower Willamette and Columbia rivers from Portland, Oregon, to the sea, \$45,000; Oakland Harbor, California, \$90,000; Sacramento river, \$30,000; San Joaquin river, \$15,000; Skagit river, Washington Territory, \$2,500; Puget Sound, Washington Territory, \$2,000; Chehalis river, Washington Territory, \$7,500; Yaquina Bay, Oregon, \$20,000; Coquille river, Oregon, \$10,000.

The Chinese Commission. Minister Angell writes to Commissioner John F. Swift that his Michigan engagements will not admit of his returning to Washington before the middle of May. He has therefore invited Mr. Swift to make him a visit at Ann Arbor for the purpose of exchanging views as to their prospective work together, and Swift will do so en route to California, leaving Washington probably on Tuesday and arriving at San Francisco on or about the 20th inst. Minister Angell and Commissioner and Minister Trecoott expect to reach San Francisco together between the 1st and 5th of June.

Ills Approved. The President has approved the army and fortification bills.

A Fall of Ninety Feet. Chicago, May 5.—Thomas Herman, proprietor of the Star and Crescent Shoring mills, a prominent business man and director of the board of trade of this city, fell down the elevator shaft of his mills from a high story, a distance over 90 feet, this morning, and was instantly killed.

see of doctors have presented a report declaring that Col. Comeroff's assassin is not mad—never was insane, and twenty-two members of the medical council have adopted the report, which has been transmitted to the Court Martial.

A Christian Club-House. LONDON, May 6.—The Young Men's Christian Association has purchased Easter Hall for £25,000; £15,000 more will be spent in adapting the building to the requirements of the Central Association.

Revocation of Mexican Jews. LONDON, May 6.—A dispatch from St. Petersburg says that instead of amelioration of the position of the Jews the police measures against them are enforced more stringently than formerly. Persons in business are required to quit the capital on 24 hours' notice, and Jewish strangers arriving are ordered to depart in the same summary manner.

English Crops and Markets. The Mark Lane Express in its review of the condition of the grain trade and crops in England for the week ending on the 4th of May, says: The temperatures during the past week have been exceedingly low and vegetation received a sudden check which is somewhat threatening to fruit. Country advices as to the real condition satisfactory in regard to growing cereals, except wheat, which is reported as losing color on some heavy lands, and is thin and by no means promising in a few districts. Deliveries of English wheat have again been limited and business confined to best lots, which have gone quickly into consumption, leaving what remains in the hands of the holders in large quantities. Some of the best quality are but little inquired for, and again needed in few quarters. In foreign wheat operations of buyers have been paralyzed by the weight of present and prospective supplies. Business consequently moved with very narrow limits, and although trade was only quiet at 6 1/2 to 7 lower on Monday last, the reaction has been slow. It is singular, considering the light stock held by millers, that the decline of prices consequent on the collapse of the American grain, should not have resulted in a more generally increased demand. The first rush to sell is not over. A pause has occurred, during which it would be well for both sides to consider the situation. It is impossible to say whether the lowest point has been reached, but it is certain that a few weeks of unfavorable weather would give a spur to operations, for which the low prices now current offer opportunities.

Main, in consequence of large shipments from America, declined in five weeks from 22 1/2 to 20 1/2 per quarter.

The decline in wheat prices has been slow.
