HORSES IN DEMAND.

One Hundred Head of Stagers Wanted for Yellowstone Park.

THE local horse business is being

stimulated by the arrival of the Walla Walla of George Brecht, agent for the Montida and Yellowstone Stage Company, in quest of 100 horses for use of the company on the northern route through the mountains. Mr. Brecht expects to secure the full number of animals he is after and also expects to pay good prices for them. The Montida and Yellowstone Stage Company is probably one of the best concerns of the kind in the world. In its business of transporting tourists through the Yellowstone Park and adjacent country the company uses 300 coaches and 650 horses, besides employing in the neighborhood of 200 drivers and hostlers. Last year the company transported 600,000 passengers through the park and with an early spring this season it expects to exceed that number 10,000.

Mr. Brecht is an ardent race horse

man and is highly interested in seeing Walla Walla secure a race track and air grounds and enter the Northwest Racing Association. Nothing, he believes, has such a tendency to attract capital and money to a city as a race course run on the business principles and the giving of first-class race meets.

Mr. Brecht's business will probably

benefit Walla Walla and adjacent towns for a month. Horses will be shipped to the park as soon as he secures a carload.

ATHENA'S NEW CHURCH.

Plans and Specifications Have Been

Decided Upon. At a meeting of the officers and members of the Methodist church Tuesday afternoon, Mr. Troutman, the architect, submitted plans and specifications for the new church building, the cost was estimated at \$7,500, or \$1,000 more than was anticipated when subscription was solicited by Mr. Armfield, the pastor.

To cut the building plans down to

conform with a \$6,000 building would interfere to a certain extent with the matter of convenience, and it was at once decided to build the \$7,000 edifice. The plans call for a building 63x83 feet. The lower story or basement will be of stone and the upper story will be constructed of brick. The lower floor will comprise the parlor, Epworth League room, a kindergarten room, the kitchen and heating apparatus.

On the upper floor will be the main

auditorium, lecture room, the pastor's study and the gallery. The capacity of the auditorium, together with the gallery and lecture room, will seat 600 persons. The old church building will be offered for sale at once, and when it is disposed of, the proceeds for the new building will commence.

BEGINS CITY ASSESSMENT.

Mercantile Establishments Will Be

Assessed According to Location.

Assessment of property was begun in the city this morning, and instead of taking the property on an alphabetical basis, they will be divided into districts, according to location, and all property in one assessment district will be considered on one basis of valuation. The location of property, and the advantages enjoyed from surrounding values, will be thoroughly considered in determining the assessed valuation of it.

For instance, mercantile establish-

ments on Main street enjoy equal advantages and will be placed on an equal basis from those in other portions of the city less favorably situated, the idea being to place property having equal advantages on an equal basis. The result of this assessment will be the declarations Mr. Cunningham has made all along, that the clip would be extra this year, and that thoroughbred sheep are the ones to be depended upon.

FARMERS' MEETING

NOTED EDUCATORS ATTEND

INSTITUTE AT LA GRANDE

Mayor Slater Welcomes the Farmers

in an Interesting Address—Dr. Withycombe and Professor Leckenby Present—J. W. Bailey to Address the Institute.

La Grande, March 26.—The Farmers' Institute returned here yesterday morning, with a good attendance of farmers from Union, Elgin, Cove, Alce and Summerville.

The institute was delivered at the address of welcome.

In a few well chosen remarks he reviewed the progress of the agricultural industry in Eastern Oregon, and paid high tribute to the pioneers who laid the lasting foundation of present prosperity.

Mr. Slater to the latter day, he outlined the transformation of the 100-acre wheat fields into the 40-acre best tracts and the innumerable orchards of Eastern Oregon.

He held out the demand for Oregon food stuffs and dairy products in Asia and Alaska, and pointed to the Eastern Oregon farm as the resource from which this supply must be drawn.

Mr. Slater's business will probably benefit Walla Walla and adjacent towns for a month. Horses will be shipped to the park as soon as he secures a carload.
