FORM A DISTRICT

FARMERS PETITION FOR AN IRRIGATION DISTRICT.

Milton, Freewater and Hudson Bay Company Arrange for Construction of Ditches—List of Petitioners to the County Court.

The project which was detailed at length in the East Oregonian several weeks ago for the organization of an irrigation district at Milton and Freewater, which was to be the first irrigation district in the state under the law of 1895, will probably crystallize.

At the time the plans were first made public, it will be remembered that there was some doubt about the promoters hanging together. Most of those interested had been using water from private ditches for years and many of them were loath to relinquish the privilege they had so long enjoyed in their own way.

A good deal of the credit for the present concert of action belongs to Jonathan Talbert, who has been active and insistent for a long time in the interests of the project.

The petitioners are as follows: Jonathan Talbert, M. H. Wilmet, John Scott, H. L. Cauvel, E. D. Olsen, W. L. Powell, James Shaw, B. S. Brooks, James Andrews, Neils Swanson, Lewis Furness, Fred E. Taylor, D. E. Lyell, August Tanke, H. H. Stewart, W. B. Downs, W. A. Dixon, James Skee, A. A. Wilder, F. E. Laborde, J. A. Clements, Mrs. Nellie Russell, W. F. Kyle, L. B. North, William Lloyd, L. S. Pearson, J. W. Arnold, J. B. Middleton, John Ritter, F. Lombard, Howard Evans, M. W. Fogarty, James Whitman, Mrs. C. C. Davis, S. Holdman, F. M. Evans, G. W. Boyer, G. A. Hobbe, H. Forsythe, G. W. Wharton, J. L. Rae, Charles Richards, D. M. Moberly, W. S. Montgomery, Charles Schward, W. R. Stewart, M. J. W. Hamner, F. Sullivan, A. S. Dunlap, A. T. Bremer, J. A. Rogers, Mrs. Nancy Briggs, G. Long, C. Andrews, A. T. Morse, J. T. Pritchett, A. J. Crigley, W. V. Staley, N. G. Mason, Louise Overturn, Mollie Rogers, O. V. Preston, A. E. West, Charles Lyell, George Lyell, W. F. Webber, Ellen Knight, John S. Vinson, Charles A. Barton, R. J. Manella, A. Hornbeck, C. J. Lawler, Dr. A. W. Hill, G. W. Hansell.

The affairs of this company will be watched with great interest.

IMPROVEMENTS AT AGENCY.

Buildings Constructed by Board Satisfactory—New Laundry and Water-works to be Put in This Summer.

The interior department has asked for the submission of plans and specifications for a new laundry and for the proposed waterworks out at the agency, for which surveys were made some time ago.

No plans have been submitted yet, but the department intends to have both completed and in perfect running order by the middle of the summer. The water will come from a splendid spring which is considerably less than a mile from the agency buildings. The new laundry will be built of brick, and be 30x50 feet in size, one story in height. The floor will be of cement, and the equipment will be thoroughly modern. Every article of machinery from the boilers to the mangles will be of the latest patterns.

There has just been completed at the agency, 1800 feet of board sidewalk, four and six feet in width connecting the agency buildings.

Winter Wheat in Good Condition. H. R. and Henry Lorenzen, of Middle Cold Springs, report their 1800 acres of winter wheat as looking fairly well. A portion of their crop is on the reservation and it looks better than that out on Cold Springs.

Sawmill Men Here. H. H. Thomas, Fred Henley and N. B. Reynolds, all from Geddes, S. D., are in the city. Their intention is to engage in sawmilling if they can find a suitable location in this county. They are highly pleased with this county so far.

BREVITIES.

E. T. Miller has gone to Shoshone Idaho. H. Koppitke has returned from Meacham.

Mrs. C. D. Brumfield has gone to Corvallis. Bishop Morris returned to Portland this morning.

Mrs. D. Kemler returned Saturday from Walla Walla. Choyl Oliver and Eli Spike, of Echo are in the city today.

H. L. Swaggart took the morning train for Walla Walla. The plot of John D. Gish's addition to Weston was recorded today.

Mr. and Mrs. Joe Basler returned from a visit to Sunday morning. Mrs. Plumb left yesterday for Yates Canon, Kan., on a visit.

Marion Van Orsdall has gone to Meacham to take charge of a sawmill. Gulliford Bros., of Vinson, will this spring build a large amount of fencing.

Miss Flora Folsom has returned from her visit to Portland and Astoria. B. Miller left this morning for Minot, S. D., expecting to be absent a month.

The latest advice from Mrs. E. A. Vaughan was to the effect that she is in danger. A. N. Montgomery, of Moro, is here on a real estate deal for Elrod & Moore, of that place.

R. T. Cox, of Portland, brother of John Cox, of this city, is visiting here for a few days. F. R. Yerger arrived this morning from Hot Lake, to remain here for the remainder of the week.

A. A. Cole, of Vinson, is building a large amount of new fence this spring to enclose his sheep. Frank Boedfeldt has sold his farm, nine miles east of Weston and will leave the country next fall.

Yesterday Judge Fitz Gerald officiated at the marriage of Charles H. Weeks with Miss Mabel Wheeler. Several members of the gun club of Athena are expected to attend the medal shoot at Pendleton next Sunday.

W. F. Earnhart badly sprained his ankle a few days ago in a scuffle with a cayuse and is hardly able to walk since. O. H. Jacobs left for La Grande this morning. He will return to Pendleton, but is undecided whether to take here or not.

J. W. Baker, of Salem, is here and is in the city today. This is his intention if he can find government land to suit him. F. M. Jackson, an O. R. & N. engineer, who has been in the hospital at Portland for two months, has returned to work at La Grande.

Two carloads of fat sheep purchased from Ruzg Bros. by James Wright for the Seattle market, were shipped today over the W. & C. R. John A. Martin has returned from Potts county, where he spent the winter, to his farm four miles out, between McKay and Birch Creek.

O. LaHue of South Cold Springs is in town yesterday. He reports the wheat as healthy and a good stand, but very backward on account of the cold nights. S. B. Elder, of Despain Gulch, 15 miles out in this county, is here. He reports the winter wheat and all spring crops as in fine condition in that neighborhood.

Mrs. H. E. Carpenter has returned from a visit to Milton with her father, B. Stanton. Mr. Stanton has a cancer in his left eye and it is thought that he cannot survive many months. Charles H. Green, the wool buyer, went to The Dalles this morning. He is expected to be in the city Saturday. He reports the winter wheat and all spring crops as in fine condition in that neighborhood.

V. Sittel and family left for Portland this morning via Spokane and the Sound. Mr. Sittel is a tailor and has been employed here for several weeks. It is probable that they will return and remain here permanently. They came here from St. Joseph, Mo. Florence Penland, who died Sunday evening of scarlet fever, was the youngest child and only daughter of Mr. and Mrs. L. E. Penland, being aged 11 years and 5 months. She was a most lovely child and beloved by all who knew her. She was in the school, the First Baptist, she was one of the most regular and attentive scholars and in private conversation with her only a short time ago, the writer recalls that she had given her heart to God and is now safely with Him forever. She was the idol of the family, beloved most tenderly by the whole family and no one can possibly know how they have succeeded in this departure, but there is also firm belief on the part of all that God took all things well to those that love Him. The family desire through me to express their gratitude to all who have so kindly sent flowers and those who in any way have given an act or word of sympathy.

R. W. KING, Pastor of the Family.

Will Be Completed Soon. The contract for the completion of the Ferguson & Maloney business building on the south, will be let next week and the building will be finished some time before it was anticipated it could be when the foundation was laid. The contract is contrary to the expectations of the owners, brick can be obtained by the first of May instead of at some indefinite time later on. The increase in the capacity and force of employees at the Weston brick yards justifies Mr. Nelson in contracting to furnish the brick for the Ferguson & Maloney building at the time mentioned above. The plans of the architect, C. E. Troutman, have been accepted. It is to be a two-story building and one of the most attractive fronts in the city, besides being in every respect modern.

Methodists Buy Lot. The board of trustees of the Methodist Episcopal church has purchased of A. D. Stillman a lot 14x75 feet in size at the northeast corner of Main and Water streets. The property is at present occupied by the sample rooms of the Hotel Pendleton. The Methodists will erect a new church or move the present structure to that place.

May Locate Here. William Taylor and A. Heath and family left for Portland this morning. They have been the guests of Dr. C. J. Smith and the Lincolns, coming here from Yandotte county, Ohio, several weeks ago. It is probable that they will return to Pendleton to locate after completing their tour of the West.

To Begin May 1. Wm. Roesch now expects to begin work on the walls of the new brewery on or about May 1. The completed plans for the same, prepared by T. F. Howard, have been accepted and all other preliminaries, except hauling the brick down from Athena, have been completed.

Suit to Recover \$500. Jacob Betz has begun suit on a promissory note and mortgage against Annie M. Key, Mahudah E. Key and Henry Key for the recovery of \$500. Carter & Raley represent the plaintiff.

STOCK IN UMATILLA

INSPECTOR BEAN REPORTS ALL IN FINE CONDITION.

Cattle Healthy and in Good Flesh in Northern Part of County—Thinks New Methods Necessary in Sheep Raising.

Stock Inspector Bean has just returned from a 10-days' tour of the northern part of the county. In that part of the county as well as in other districts, he reports the stock in fine condition except in the foothills. The snow stayed on so long and the continued cold weather and long feeding also made the animals as a rule pretty thin, sheep, cattle and horses alike. But in two-thirds of the area of the county, the stock of all kinds finished the winter in good condition, being healthy as well as in good flesh.

There was, except in the hay producing districts, a scarcity of forage and hay. In only a portion of the hay districts there is any surplus of hay.

More Intensive System. Mr. Bean believes the time is here for the commencement of somewhat new methods in the sheep industry in this county. The tendency being decided in favor of more intensive system. From now on more and more alfalfa, grain and root crops will be fed, and many of the sheep raisers are abandoning the policy of hunting summer range in the mountains, as being expensive and financially risky compared with lot-feeding products raised on the ranch.

Mr. Bean believes that after the readjustment of conditions, some of which have been mentioned above, there will be as many sheep in Umatilla county as ever while the production of hay, grain and root crops will be enormously increased. Also that there will be just as much money made, while fewer risks will be taken, the new methods eliminating most of the risks the sheepmen now have to contend with.

Irrigation Correlated. He considers that the irrigation question must be correlated with the readjustment of factors controlling the sheep industry. The improvement of the forest ranges will be one factor of great influence in hastening these changes. One result will be the production of a much greater percentage of mutton sheep than now. Many breeders are already recognizing the error of exclusive woolgrowing and that there is money especially in the raising of yearling muttons.

Mr. Bean reports that there is scab in but one flock in this county, and only two flocks have had any trace of the disease this spring. The first flock infected is now entirely free from the complaint, and in the one mentioned, it is being rapidly got rid of. There has been no occasion for the state veterinary being in the county since last fall.

Little Loss of Sheep. From all causes the loss of sheep in this county during the year will not exceed five per cent; from disease, exposure, wolves and accident. The clip this year will have good weight and quality, owing to the season. Lambing is progressing finely, with an unusually small proportion of losses of either ewes or lambs.

GRAND MISSION. Begins at St. Mary's Church on Easter Sunday and Continues One Week.

The series of religious observances known as the grand mission, begins at St. Mary's church at 10:30 a. m. Eastern Sunday and continues throughout the week following, with services every night. The guest sermon will be preached the morning of Easter Sunday by Rev. M. J. O'Connor, who was formerly rector of St. Francis Xavier College, Cincinnati. He is a rare orator and a gentleman of most attractive personality. Rev. P. J. Mulconry, who accompanies him and will assist in the services of the week, was formerly a professor in St. Mary's College, Kansas. He is also a very fine public speaker—talented and highly educated.

A Beautiful Crystal. W. C. McComas about three weeks ago picked up on the shores of Switzer's Island, in the Columbia, a huge stone resembling crystal, that had been in the window of Dr. Garretson's store. It is light green in color, and of the peculiar shade which belongs to the emerald. There is very little or no likelihood of it being an emerald, as it weighs nearly two troy pounds. From every point of view it is almost perfectly transparent, although by some to belong in the same class with the Brazilian crystal. It is certainly a beautiful stone. It will be submitted to a competent judgment of Sherwood, the well-known traveling representative of several of the largest wholesale jewelers in the country, who will be in Pendleton in a short time.

The Tocsin Sounded. There is barely sufficient range in Grant county for the stock owned by the citizens of the county, and any attempt made to range 50,000 sheep from other counties in this county this summer should be resisted, and if possible prevented by our people. Our own sheepmen, who have had to reduce their flocks greatly in number during recent years on account of the shortage of range, and to have to go out of business. Contrary to the expectations of the owners, brick can be obtained by the first of May instead of at some indefinite time later on. The increase in the capacity and force of employees at the Weston brick yards justifies Mr. Nelson in contracting to furnish the brick for the Ferguson & Maloney building at the time mentioned above. The plans of the architect, C. E. Troutman, have been accepted. It is to be a two-story building and one of the most attractive fronts in the city, besides being in every respect modern.

Concrete Brick Plant. Frank Duprat has begun the erection of a high and strong board fence which will surround the lots at the northeast corner of College and Court streets, which he has leased for the erection of a plant for the manufacture of hollow concrete brick. Later on, during the early summer, Mr. Duprat will erect a plant for the manufacturing of brick. The hollow concrete brick is used in pavements, and in the walls of all kind of structure where ordinary brick is used, and is said to be much superior.

Broke Pendleton Record. H. J. Stillman yesterday broke the Pendleton records with his new Remington shotgun, at the range. All the conditions of targets and distance were regular. Out of a possible 100 he got 97 birds and scored 71 straight. The next record to this was made by Charles Hamilton, who shot 59 straight under the same conditions.

Turning Cattle on Range. A. H. Todd started in the morning with his herd of cattle. The snow is sufficiently melted to permit the stock to live and other herds will be driven to Meacham Creek and Huron soon. Mr. Todd expects to remain at Meacham most of the season.

Suit to Recover \$500. Jacob Betz has begun suit on a promissory note and mortgage against Annie M. Key, Mahudah E. Key and Henry Key for the recovery of \$500. Carter & Raley represent the plaintiff.

ATE DISEASED BEEF.

Baker City Butchers Sell Lumpy Jaw Meat to Customers. Baker City, April 6.—A number of cases of lumpy jaw have developed in this city and county recently. It is not often that men and women are afflicted with this dread disease, which can only be contracted by eating diseased beef, but it is a fact that several people have died from lumpy jaw in the past few months.

There are two cases which have been diagnosed as lumpy jaw at the hospital in this city at the present time. There is no known cure for the malady, once it is thoroughly developed. The patient always dies as a result of the disease.

It is certain that with a little effort the source of the disease can be traced in each case. Lumpy jawed cattle cannot be mistaken. It is claimed that diseased animals have been killed and the meat disposed of. The authorities will institute a rigid examination in every case. It is alleged that diseased animals have been slaughtered, and the guilty parties will doubtless have a chance to explain.

MORMON CELEBRATION. Anniversary of the Founding of the Church Remembered. La Grande, April 6.—"Union Stake" as the division of the Mormon church, comprising the membership in Union Stake, is celebrating the anniversary of the founding of the church of Latter Day Saints Friday, Saturday and Sunday with appropriate services.

The program consisted of musical and commemorative exercises, papers, sermons and a dance Saturday night. The celebration of the anniversary of the founding of the church of Latter Day Saints Friday, Saturday and Sunday with appropriate services.

WESTON REGENTS

W. M. BLAKLEY, OF PENDLETON SUCCEEDS WORTHINGTON

P. M. Saxton, of Baker City, Takes Place of C. W. James, Who is Now Superintendent of the Penitentiary.

Portland, April 6.—Governor Chamberlain today appointed P. M. Saxton, of Baker City, and W. M. Blakley, of Pendleton, regents of the Weston State Normal School, to succeed C. W. James, of Baker City, and P. A. Worthington, of Portland, the present regents of the board.

The board is now composed of the following gentlemen: R. Alexander, Pendleton, president; Colonel J. H. Raley, Pendleton, J. W. Scriber, cashier; Farmers' and Traders' National Bank, La Grande; J. W. Morrow, state land agent, formerly of Heppner; ex-State Senator G. W. Probstel, of Weston; W. M. Blakley, Pendleton, and P. M. Saxton, Baker City.

A meeting of the board will be called at once for the purpose of reorganizing and electing officers for the ensuing year.

Regents of the State University were appointed as follows: Frederick V. Holman, of Portland, succeeds C. C. Beekman; Cyrus A. Adolph, of Portland, and William Smith, of Baker, respectively.

For health officer at Yaquina Bay, Dr. J. D. Wetmore, of Toledo, succeeds Dr. F. M. Carter.
