TORTURING DISFIGURING

Skin, Scalp and Blood Humours

Speedily Cured by Cuticura Soap, Ointment and Pills

When the Best Physicians and All Else Fail.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurements, as in pimples and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Pills are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy have made them the standard skin cures, blood purifiers and humour remedies of the civilized world.

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales, and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, take the Cuticura Resolvent Pills, to cool and cleanse the blood. This complete treatment, costing but one dollar, affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly humours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all other remedies and the best physicians fail.

WATER COMMISSION

DISCUSS THE SUBJECT OF COLLECTING WATER RATES

Bills Were Audited and Allowed—Petition for Water Main Down Garfield—Railroads Want Water Plugs.

There were present yesterday afternoon at the meeting of the water commission W. H. Jones, the chairman, J. T. Brown, the superintendent, Leon Cohen, F. B. Clopton and City Attorney Carter.

The following bills were audited and allowed: Jack McKeowen, labor, $1; J. D. Brummel, labor, $1; J. T. Brown, cash, $1.25; W. J. Clarke & Co., rapirs and merchandise, $1.85; J. A. Smith, merchandise, $4.50; East Oregonian, printing, $1.50; Nolf Store, merchandise, 98 cents; Ramsey & Sikemeier, of St. Louis, 24 one-half corporation connections, $30.96; 52 pounds sheet lead, $3.38, one plyers, 68 cents; total, $34.32; T. J. Million, salary, $80; J. T. Brown, salary, $80; Thomas Fitz Gerald, salary, $10; freight, $14. Total, $230.80.

The problem of a reasonable policy to pursue in the enforcing of the collection of the water rates was discussed generally, without any formal result being arrived at, but the subject was left with the understanding that the superintendent give the users of water to understand that if the rates were not paid by the 10th of each month he should at once proceed with the enforcement of the penalty.

Collected Every Dollar.

Superintendent Brown made the statement that during his incumbency he had succeeded in collecting every dollar due the city, and that too, without having to enforce the penalty in any instance, but that it takes most of his time to run around and dun and collect. A general discussion of the subject of whether the penalty is exhorbitant ensued. Mr. Cohen made a motion that the penalty be reduced from $1 to 50 cents, but it did not go to a vote, and the subject was dropped at the point stated.

Judge Fitz Gerald made a strong plea in favor of the reduction of the penalty, but the conclusion reached was that as all the rates had finally been paid in the past that they would probably be paid in the future, and that as the rates were no higher at one time in the month than another that they might as well be paid one time as another. During the discussion one point was referred to that is often forgotten by property owners, that water rates are a lien on the property until paid.

A petition was presented from H. S. Bixby, J. S. Stockman, J. S. Kees, George Hamblen, C. H. Bronson, Alex Adams and Joe Rothlin for a water main down Garfield street from block 1 to Jackson street (north side).

The petition goes on to narrate as follows: "We are all using water out of a one-half inch pipe, which is barely enough for ordinary household purposes. We would also like a fire hydrant to use in case of fire." Mr. Jones was appointed as a committee of one to investigate and report in relation to the matter.

Want Fire Plugs.

The following communication was presented and read:

Office Oregon Railroad & Navigation Co., Portland, Or., March 17, 03.

Mr. Chas. H. Carter, Pendleton, Or.

Dear Sir:—I have a letter from Mr. Kennedy in which he says that the railroad buildings at Pendleton are badly exposed to fire on account of the lack of sufficient fire plugs, and that he thinks it would be advisable to locate two plugs, one on Thompson street, on the north side of the railroad, and the other on the north side of Railroad on Cottonwood street. We feel that these plugs should be put in without expense to the railroad company, but in any event we want them put in, and we would like to have you ascertain how the matter can be arranged. Very truly yours,

W. W. COTTON,
General Attorney.

In the discussion of the claim made upon the city in the above letter, it transpired that one year the railroad did not pay to the city as much tax as the cost of one arc light near the depot. Also that as there is now belonging to the city a mile and a half of good hose that it is possible the need of the extension of the mains and hydrants in that direction might be exaggerated. The upshot of the matter was that the commission ordered a hydrant put in at the corner of Thompson and Railroad, the other hydrant asked for not being considered essentially any sense.

It was ordered to vote that the city purchases at once 50 one-half inch meters and six three-fourths inch meters, the same to be kept in stock.

It was developed that there is enough wood now on hand at the water works to last until the first of next January.

Improvements to be Made.

Estimates are being made of the amount of piping needed to connect as follows: From the corner of Court and Ann streets west four blocks then south one block. From the corner of Washington and Perkins south one block, then west one block, and then south one block. To St. Joseph's hospital from the race on Court street east to Transit, four blocks, this to be a four-inch pipe. The extensions indicated are the improvements which the commission will make in the near future.

Will Import Thoroughbreds.

The J. E. Smith Company will the coming season import 100 registered and thoroughbred Delaine and Spanish Merino bucks for their flocks. This firm is a vigorous partisan of the claims of the two breeds of sheep mentioned, believing that they are the best animal ever introduced into the northwest. Their opinion is that the nearer to a thoroughbred the better—not merely high grade, but thoroughbred if possible. Of their 25,000 sheep in this county, 6,000 are thoroughbreds. They claim for this sheep, moreover, that not only is it the best wool sheep, but that it is as good a mutton animal as has ever been introduced here. The Smith Company will begin shearing May 1.

Wheat Growing Rapidly.

Ed Haney and Mike McCall of Adams, are in the city today. They have in 300 acres of winter wheat which is looking finely, as is nearly all the crops in their portion of the county. Spring plowing and putting in of crops are progressing vigorously, and everything is growing rapidly.

Looking for Land.

A. S., C. and G. C. Wilcox, of Menominee and Ellsworth, Wis., arrived yesterday and will prospect for farming lands. All expect to locate in Umatilla county provided they can find lands to suit them. They want lands suitable for diversified farming.

Lewis McCulley Dead.

Lewis, aged 1 year and 1 month, son of A. E. and Carrie McCulley, of North Cold Springs, died this morning at 7 o'clock at the family home, of cerebro spinal meningitis. Mrs. McCulley is a daughter of D. E. and S. J. Cargill of Pendleton.

ECHO NEWS ITEMS.

One Hundred and Sixty Cars of Cattle Shipped the Past Year.

Echo, Or., April 2.—T. C. Benson, the Portland cattle buyer, bought four more carloads of Butter Creek cattle and is loading them here today.

One hundred and sixty cars of cattle have already been shipped from here this season.

The shearing season is on now and a number of persons are dropping in here for that purpose. The estimated output this year is 30 carloads. The prevailing price so far is a little stronger than last season, ranging about 18 cents per pound; this means that the present clip will bring about $135,000.

Echo shipped last season 100,000 bushels of wheat, 50 cars of hay and 10 tons of honey.

C. A. Fox and wife, R. B. Gilbert, P. S. and H. T. Darlington and A. W. Griggs are among the land hunters today. Mr. Griggs is sent by a party of Latah people. He expressed himself as well pleased with the country and says he will return in a short time.

J. G. Camp, who has been conducting the hydrographical survey for the federal government at this place for the past six weeks, went to Pendleton yesterday to confer with Mr. Whistler.

SHEEP FOR MUTTON.

Umatilla County Raises Very Best Kind, But Not Enough to Supply Demand.

E. Harrington, representing the Taafe Company, of San Francisco, who this spring shipped from this point about 12,000 mutton sheep, stated before leaving here that if they were to be had he would purchase in Umatilla county and ship yearly 36,000 mutton sheep, or an average of 3,000 per month.

He avers that there is not in all the West a finer mutton sheep raised than in Umatilla county, but there are not enough of them. This seems a very peculiar condition to exist in a county having a total of 240,000 sheep. The policy has prevailed for years of developing to the highest extent the wool producing qualities of sheep at the expense of mutton. This tendency Mr. Harrington, who has bought sheep for the mutton market in every state west of the Mississippi, deplores in strong terms. He says those who have the mutton sheep, of the first-class grades he must have, have always made money by the sale of the mutton, and others might just as well.

SATURDAY'S LOCALS.

R. N. Stanfield, of Echo, is a guest of the Hotel St. George today.

George W. Bradley, the Athena grainbuyer, was in the city yesterday.

D. Edmunds, who is section foreman at Wallula, was in the city trading yesterday.

C. P. Platzoeder yesterday purchased a bunch of 20 fat steers from the John Day country.

The Woodmen of the World have the material on the ground for the erection of a new hall at Adams.

Mrs. R. A. Lent has returned from Enterprise, Or., where she was called by the severe illness of her cousin, Miss Cecil Chauvet, who is now recovering.

E. B. Shaver, who lives 10 miles northeast of the city, bought an incubator yesterday and it is expected will go rather extensively into poultry raising.

J. T. Grimes yesterday had several fingers of his right had mutilated by a buzzsaw at Bailey's wood yard. He will be off duty indefinitely on account of the accident.

The health of Miss Adnah Raley is improving steadily since her return home and her recovery is confidently expected, and without any impairment of her hearing.

MONEY, NOTES AND ACCOUNTS.

Taxpayers in Pendleton Who Have Turned in Cash on Assessment Rolls.

The following taxpayers of Pendleton have turned in the amounts of money, notes and accounts opposite their names. The assessment of the city is not yet near completed:

	Notes.	Money
Umatilla Implement Co.	$4,000	
James Crawford	2,400	$1,800
Temple & Wilcox	3,000	
A. Kunkel & Co.		1,800
Geo. R. O'Daniel	1,950	
Jesse Failing	3,000	600
Carl Weissert	300	
Maple Bros.	200	
T. C. Taylor	4,000	
H. H. Wessel		525
Geo. R. Demott & Co.	2,400	
L. Cohen	600	2,000
R. Alexander	2,100	
Frederick Nolf	90	75
Thompson Hardware Co.	1,500	
Chas. Lane	210	
J. H. Clark		300
Thomas Hampton		333
Chris Bruding		500
Hans Struve		2,000
Alex Melon	107	450
Jurgen Mum	1,000	533
John Hagan	833	
John Nelson	333	
Gideon Brown	1,333	

MERCANTILE ASSESSMENTS.

Assessor Strain Completes Work of Assessing Business Houses.

The assessment of the mercantile houses of the city has been completed. The total valuation is $362,525 on the following lines: Clothing, dry goods, hardware, tobacco and cigars, confectionery, implements, harness, groceries, drugs, shoes, jewelry, paints and furniture. The assessment in Milton on the same lines is $54,000.

Little Loss of Sheep.

Gus La Fontaine has returned from a trip out to the LaFontaine-Garrison sheep ranch, which lies about 20 miles west, between the Columbia and the Umatilla. Mr. La Fontaine states that there has been very little loss of ewes and lambs this spring—much less than usual, and that the lambs are well developed and fat. Grass and wheat are both fine in that neighborhood. He thinks it will be advisable for sheepraisers in the future to pay more attention than they have in the past to raising mutton sheep.

Wheat Was Killed.

Louis O'Dette had between 140 and 180 acres of winter wheat winter kill, or more properly speaking early spring kill in the foothills near Cayuse. The crop had just reached that stage in its fall growth that it could not stand the alternating snows, thaws and freezes of six weeks ago and earlier.

Single Tax Literature.

Do you want to understand the aims and objects of the Single Tax? If you do, you can obtain literature on the subject free of cost by writing to The Brooklyn Single Tax League, 1467 Bedford avenue, Brooklyn, N. Y.

Filed on Timber.

F. H. Welton and E. F. Stewart, of Spokane, are in the city today en route home from the southern edge of the county, where they have filed on timber claims.

TOWN OF ECHO TO BE MOVED ACROSS THE RIVER.

Many People Looking for Claims—Settlers to Go Into the Bee Business—Petition Circulated for Re-appointment of Postmaster Dorn.

Echo, April 3.—A team belonging to Joe Vey became frightened at the depot here and as a result his hack is badly demolished. A span of mules belonging to O. G. Allen, also took a dash against time down Main street, breaking the pole to his hack. Fortunately, no serious damage was don in either case.

Gay Haden and C. E. McCumber, of Pendleton; George W. Nowles and N. R. Hill, of Lewiston, are among the visitors today.

Asle Thompson, of Butter Creek, was in this morning. He will leave for La Grande tomorrow to assume his duties in the United States land office.

The Butter Creek Telephone Company has started a force of men to work on their line. They will make extensive improvements and open up many new lines during the summer.

A petition is being circulated for the reappointment of Postmaster Dorn upon the expiration of his present term of office. It is being signed regardless of politics, as Mr. Dorn has given good satisfaction.

Robert Tohm, who is engaged extensively in the bee industry, says that his last year's supply is exhausted and that the demand is much greater than the supply. The output per hive is about $7 per annum. This would seem to be good returns, when one takes into consideration the fact that a hive does not cost to exceed $6, besides one gets from one to three hives from each colony during a season.

Some of the settlers who have filed homesteads under the supposed government ditch when asked what they would do to make a living while waiting for water, say they will go into the bee industry and harvest a crop thereby from their neighbors' alfalfa fields. James McCarty is demonstrating that this can be done very successfully.

L. E. Dyer, of Spokane, is here today in the interest of the Twice-a-Week Review.

A company is being formed here for the purpose of securing a tract of land across the bridge with the view to platting it as a town site. It is claimed that property in the present site is held too high and as there is considerable inquiry for town property a number of persons would invest in lots across the river. The deal is said to be consummated and the lots will be laid out as soon as the county surveyor can establish a definite corner to work from.

THE PROGRESS CLUB.

Adopted Constitution and By-laws—Club Declares Itself Non-partisan Non-political and Non-Sectarian—Monthly Dues Fixed at $1.

The retailers of the city last night named their new association the Pendleton Progress Club, adopted their constitution and by-laws, and definitely decided to celebrate May Day, on or very close to the first prox.

This May Day celebration will be almost an innovation in the way of a public diversion in this city. Properly arranged for it is one of the most attractive festivities ever engaged in. It can be made such a success that the occasion will be never passed over in the future. The board of control of the Progress Club is to consist of President Alexander, Vice-President Murphy, Secretary Teutsch and Treasurer Cohen, and nine additional members to be elected by the club.

The annual meeting of the club is to take place on the first Wednesday in January, and the regular meetings will take place the first Wednesday evening of each month. The club adjourned last night to meet next Thursday evening, when the May Day celebration will come in for a full share of attention. The initiation fee into the club is fixed at $1 and the monthly dues at $1 per member.

The club expressly and specifically declares itself to be and to remain non-partisan and also non-political in every sense, and non-sectarian as well. Loyalty to the purposes and decisions of the club within its legitimate field of operations is to be enforced by expulsion in the event a member is not satisfied with making his fight inside of the organization and bushwhacks on the outside.

The committee appointed to take the preliminaries in hand for the observance of May Day is as follows: Alexander, Teutsch, Cohen, Roosevelt, Lyons, Boettcher, Sharp, Clarke, Hoch and Nolf.

PRICES OF LAND HIGHER.

Semi-Arid Lands Below Freewater Are in Great Demand.

J. T. Hinkle has returned from a trip to Milton and Freewater and adjacent country. He reports that all the semi-arid lands below Freewater are rising in price steadily on account of the increasing demand. One thing that is responsible for the increase largely is the example and success of such men as W. C. Gallaher, who has under ditch 160 acres of land, mostly alfalfa, though he has in considerable orchard. The record of Mr. Gallager's experiences during the 13 years he has been on his present farm is the old story of early doubts, fears, experiments and mistakes, crowned at last with a continuous record of immense crops.

Shearing in Morrow County.

A number of shearers have come in and are preparing for the season's clip. Sheepmen are getting everything in readiness for the work. If the weather is favorable shearing will be commenced next week, and by the 15th of May will be completed. No more severe weather is anticipated, and the sheepmen are anxious to get their flocks sheared and off to the range. Down in the sand region shearing is already in progress, but the final wind-up will come in northern Grant county sometime in May.—Heppner Times.

Portland's Hotel Capacity.

Portland has six leading hotels, the names and capacity of which are as follows:

	Rooms.	People.
The Portland	250	400
Perkins	150	250
Imperial	125	200
Belvedere	75	125
St. Charles	120	200
Esmond	90	175
Totals	810	1350

Asks for Divorce.

Nelson Pierce, by his attorney, S. A. Newberry, this morning filed a suit for a divorce from Laura Pierce, alleging cruel and inhuman treatment, and asking for the care and custody of the minor child. The Pierces are half-breeds.

Valuable Coal Land.

The friends here of L. G. Barron, of Walla Walla, will be pleased to learn that he is the owner of 640 acres of valuable coal land in British Columbia, 12 miles from the interstate line, and joining the town site of Princeton.

Our Superior Climate.

C. A. Fowler of Hoskins, Benton county, is here and thinks of locating on account of the superior climate of this district.

AT THE RACE TRACK

FINE LIST OF HORSES NOW IN TRAINING.

Brief Description of Animals Now Being Prepared for the Track With List of the Old Celebrities Trained Here.

The superiority of the Eastern Oregon horse is too well established to require any further proof. There seems to be something in our climate and feed that gives hardihood and bottom to the horses bred here. Not only do they develop wonderful hardiness, but they develop speed as well. The celebrated Chehalis is sufficient proof of this assertion.

In company with C. A. Chapman an East Oregonian representative drove out to the half-mile race course east of town to look over the string of horses being trained there.

It is a regulation half mile track and is said to be one of the fastest in Eastern Oregon. It is owned by G. E. Peringer.

The weather conditions of the past few days have put it in splendid condition.

The Stock in Training.

Just as we drove up we saw a good finish between Nancy Cole and Ollie M. Nancy Cole is a 6-year-old, a green trotter, but one with excellent prospects. She is a Westfield mare and will give a good account of herself. Ollie M is not only a good looker, but a good goer as well.

She is a pacer, and has a 2-year-old record of 2:19¼, which she made at the state fair at North Yakima. She is one of the speediest of her class brought out in Eastern Oregon. Last year in a race with older horses she stepped off her half mile in 1:03. Her 3-year-old track record is 2:11½. She is to prove of what metal she is made at the next state fair when she will contest for the "Greater Salem" stake for $2000 in the 2:17 class.

While we were there A. E. Heller, one of the trainers held the stopwatch on Nancy Cole and Ollie M. on a mile heat. One of the eighths they made in 19 seconds and the quarter in 39¼. This is better than a 2:40 gait and they were not being urged, in fact they had lots of speed in reserve and when they came in did not seem very warm.

Ollie M. is owned by Jim Erwin, and Nancy Cole by G. E. Peringer.

Another promising youngster being trained there is Eddie B. who will go in the 2-year-old class at the coming state fair. He is sired by Bonner N. B. and is the property of Mr. Erwin.

Medium Caution, a 3-year-old of unknown posibilities, having considerable promise, however, is being developed. Sam Purdy, of Athena, is its owner. Another of the youngsters that is being brought into shape is a little 2-year-old Westfield mare, the property of James Furnish.

Oveta is one that is expected to watch the others come in over shoulder. Her track record is 2:15½, but her trainer will be disappointed if she doesn't clip 5 seconds off of that record this season. She is of the Caution stock. Kitty Clover, out of Kitty Caution, by Pricemont, is showing up well. She is owned and worked by Mark Lynch, of Walla Walla.

A Fast Pacer.

One of the fastest pacers on the track for the amount of work he has had, is a 3-year-old owned by Louis Audit, of Adams. He gives promise of developing considerable speed. He traces his ancestry back to Hamiltonion 10. George McDonald has a son of Westfield, a 4-year-old green trotter named Duke Ravell that is being worked. It is too soon to make any predictions concerning him as he has not been worked much yet. He comes of good stock and should develop speed.

Two of the handsomest animals at the track are Uno and Ino. They are the property of C. A. Chapman. Uno is a grandson of Chehalis. His dam by Blackberry and he by Whipleton. He is a 4-year-old, 16½ hands high, weighing 1212 pounds. Black and glossy, with a beautifully arched neck, he is a very handsome animal. Uno has just been clipped and has a sheen and luster to his coat like a gray-blue changeable silk. In addition to his satiny coat he has the lines of his racing ancestry. Like Uno, he is a grandson of the world-beating Chehalis.

Celebrities of the Past.

Some celebrated horses have received their training on this track. Among the number is Pathmark, a brown stallion foaled in 1896; sired by Pathmont, 2:09¼, son of Altamont. His dam, Juliet 2:22, is by Tybalt, a son of Altamont. Pathmark's track record is 2:11½.

Mack Mack, whose record is 2:15¼ is a another animal that received his training on this track. Mack Mack is a half brother of Bonner N. B. 2:17, Nancy being their mother.

Mt. Hood 2:19, Alta Norte 2:16½, Phil N. 2:19, Oveta 2:15, Boner N. B. John Edison 2:16, Starkey 2:15½, Francisco 2:18, Oregon Sunshine who took the Northwest record for 3-year-olds, Saltesse, Santiam and many other celebrated horses have been developed on this track. It is astonishing how many speedy horses have come from Umatilla county.

South of town is located the Frazier track. The king of this track is Westfield. Here Frank Frazier has developed such noted horses as Hassalo 2:15¼, and Umahalls the daughter of Chehalis. Here was trained that king of the turf, Chehalis, with a mile record of 2:04¼ and a world-breaking 2-mile record of 4:19¼.

Eastern Oregon is certainly the home of the horse, for where will you find hardier or speedier horses than in this particular section of the Inland Empire.

Germany has appropriated $750,000 to defray the expense of preparing an extensive exhibit for the World's fair, St. Louis, and a like sum will be allowed next year to carry the work to completion, making $1,500,000 in all.

JACK JOHNNIE

I will stand my Jack for the season of 1903 at the following places on the following dates:

At Henry Lorenzen's place on Middle Cold Springs—March 1st to March 9th, April 1st to April 8th, May 1st to May 9th, June 1st to June 8th.

At the Helix Livery Barn, Helix, Ore.—March 9th to March 20th April 8th to April 19th, May 9th to May 20th, June 8th to June 19th.

At the Adams Livery Barn, Adams, Ore.—March 20th to March 31st, April 19th to April 30th, May 20th to May 31st, June 19th to June 28th.

At Henry Rosenburg's place at Fulton Station—First and last day of each month.

TERMS—$12 to insure with foal; to insure live colt, $15.

GROVE CHIEF NO. 7315

Is a bay, foaled 1889, weight 1800. Sire, Lincoln Chief, No. 8809. Dam, Flower, by Lincolnshire Lad, 1765, Etc.

Stands will be made at the same places on the same dates as above Jack, with addit onal stands of the first two days of each month at J. Mumm's place, four miles north of Pendleton.

TERMS—$12 insurance of live colt. Parties removing or disposing of mares will be held responsible for insurance money.

HOLT Combined HARVESTER

The only successful Harvester ever used in Umatilla County.

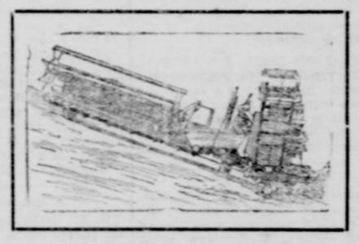
THE HOLT does satisfactory work on any kind of land. It is not an experiment, but practical, as time has proven, and the best advertising the machine gets is from those who have used it. Over 75 machines in use in Umatilla County. Lightest draught and longest lifed harvester made. Sold by

E. L. SMITH 311 Court Street Pendleton, Oregon

THE BEST MANUFACTURING COMPANY

STEAM AND HORSE POWER

COMBINED HARVESTERS



As McCormick was the original inventor of the reaper and header, so was "Best" the original inventor of the first successful Combined Harvester.

We wish to call the attention of our friends who contemplate purchasing a Side-Hill Combined Harvester the coming season, that we are still in the lead in the way of improvements, in harvesting machinery, and which our farmer friends have rightfully named the "KING OF THE FIELD." After watching its work in the field the past sixteen years, and for the season of 1903 it will be still better, as we have made a number of valuable improvements.

The MACHINE is the stronest and most durable made.

IMPROVED DRIVE WHEELS—5 feet 4 inches high, 22 inch tire.

RUNAWAYS—are a rare thing with us. There is a brake on main drive wheel, which is controlled by the driver.

HEADER—is driven independently from the grain wheel of separator, and is arranged with a clutch for throwing in and out of gear when turning corners.

THE SEPARATOR—We wish to call your attention particularly to the separating qualities of our machine. We claim that no other combined harvester on the market can in any way compare with it forspeed and thoroughness of work, in all kinds and conditions of grain, and will require less team to operate it.

AUTOMATIC GOVERNOR—Our patent wind governor on the fans governs the blast so that at any speed at which the harvester may be traveling, the wind is automatically regulated and prevents cloging the shoe and carrying the grain over in hte straw.

We take pleasure in inviting you to call on Temple & Wilcox, Pendleton, and make a personal inspection of each and every part of our machines before placing your orders. Every machine warranted to do all we claim for it and to be first-class nl evry respect.
