Purity Our Drugs

That's the point we are trying to impress on the public mind When a clean, pure drug stock is spoken of we want that to refer to our store. We're doing all we can to merit that title. It's the main point of our business. We think about it and talk about it all the time. Bye and bye you'll bear this in mind if you haven't already. There is no extra charge for this purity. Together with accuracy it's our inducement for your pre-scription trade. We are careful and prompt with mail orders
