Children's Last Words. "Last words" of great men are usually asked I believe Tom Ochiltree was one of the greatest men that ever lived—the greatest in managing to get along on nothing. When the old fellow was on his last legs a Catholic priest was called in to administer extreme unction. At the conclusion of the rite he said: "Now, colonel, you are absolved. You may rest quite easy. Everything is wiped out. You will have a white robe and a pure spirit which enter the heavenly gates."

Chinese For Yucatan. Army of Asiatic Labor Headed for Central America. The advance guard of an army of Chinese coolie laborers, who will be employed in the hemp fields of Mexico, have arrived in San Francisco from the Orient on the steamer Doric. They number 312 Fokienese, but 125 families are soon to follow and to join their countrymen in the plantations of the Mexican province of Yucatan. The colony is under the immediate charge of John G. Myers, a wealthy grower of Mariana. In telling his purpose in bringing the Chinese to Mexico Mr. Myers said:

"The hemp planters of Yucatan have found the labor in Mexico to be inadequate for the proper cultivation of their plantations, as the Porto Rican employed at present are unsuitable for the work. I was sent by the Hemp Planters' Association to China to arrange for the employment of laborers who would settle in the country. The Fokienese do not immigrate in large numbers to this country, but I found them best suited for the work in the hemp fields. I contracted for 300 men, with a similar number, from the steamer Doric, which is now on her way to Salina Cruz with 1,500 families of Fokienese and another steamer will follow with a similar number. We intend to plant 25,000 families in Yucatan, so that the colony will be permanent. A large number of the laborers will be secured from Formosa."

A PROMINENT COLLEGE MAN.

One of Indiana's Useful Educators Says: "I Feel Like a New Man."

MR. JOHN W. MENG.

Mr. John W. Meng, 64 Jefferson Ave., Indianapolis, Ind., State Representative of Indianapolis Business College, writes:

"I firmly believe that I owe my fine health to Peruna. Constant travel and change of food and water wrought havoc with my stomach, and for months I suffered with indigestion and catarrh of the stomach. I felt that the only thing to do was to give up my occupation which I felt very reluctant to do. Seeing an ad. of Peruna as a specific for catarrh I decided to give it a trial, and used it faithfully for six weeks, when I found that my troubles had all disappeared and I seemed like a new man. I have a bottle of Peruna in my grip all the time, and occasionally take a few doses which keeps me in excellent health."

Peruna is a specific for summer catarrh. A tonic it is excellent. In the short time I have used it it has done me a great deal of good.—Willis Brewer.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis. Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

STRAIN TOO GREAT. Hundreds of Pendleton Readers Find it so. The bustle and worry of business men. The hard work and stooping of workmen. The woman's household cares. Too great a strain on the kidneys. Backache, headache, sideache. Kidney troubles, urinary troubles follow.

A Pendleton citizen tells you how to cure them all. P. A. Morris, retired, who lives on Park avenue, and is well known to Pendleton people, says: "I was troubled with my kidneys off and on for three years. In early days, I had a pain in my back, and later on, I became a motorman on an electric car. That, too, kept me on my feet all day and aggravated my complaint. It did not start it. It annoyed me through the day more than at any other time. I finally got a box of Foster's Kidney Pills at the Brock & McComas Co. drug store and used them. They cured me. I have not had even the slightest attack of backache for five years, nor have I used any pills since I stopped the treatment last October."

Remember the name—DOAN'S—and take no other. It was a Japanese scientist, Prof. Kiyotaka, famous as a microscopist, who discovered that the long, narrow, lockjaw germ lives in the earth and can only work at its dangerous trade when buried deep in a wound where no air can reach it.
