

# CUTICURA OINTMENT

Purest of Emollients and Greatest of Skin Cures.

The Most Wonderful Curative of All Time

For Torturing, Disfiguring Humours.

Cuticura Ointment is beyond question the most successful curative for torturing, disfiguring humours of the skin and scalp, including loss of hair, even compounded, in proof of which a single anointing with it, preceded by a hot bath with Cuticura Soap, and followed in the severer cases by a dose of Cuticura Resolvent Pills, is often sufficient to afford immediate relief in the most distressing forms of itching, burning and scaly humours, permits rest and sleep, and points to a speedy cure when all other remedies fail. It is especially so in the treatment of infants and children, for cleansing, soothing and healing the most distressing of infantile humours, and preserving, purifying and beautifying the skin, scalp and hair.

Cuticura Ointment possesses, at the same time, the charm of satisfying the simple wants of the toilet, in caring for the skin, scalp, hair and hands from infancy to age, far more effectually, agreeably and economically than the most expensive toilet emollients. Its "Instant relief for skin-tortured babies," or "Soothing, antiseptic-cleansing," or "One-night treatment of the hands," or "Single treatment of the hair," or "Use after athletics," cycling, golf, tennis, riding, sparring, or any sport, each in connection with the use of Cuticura Soap, is sufficient evidence of this.

Millions now rely on Cuticura Soap, assisted by Cuticura Ointment, for preserving, purifying and beautifying the skin, for cleansing the scalp, scales and dandruff, and the stopping of falling hair, for softening, whitening and soothing red, rough and sore hands, for baby rashes, itchings and chafings, as well as for all purposes of the toilet, bath and nursery.

The financial affairs of the academy are in excellent condition and it is practically free from debt. All of the accounts that are at the present time unpaid and bear its operator credit owing the institution so that the school can be paid on as a cash basis.

## COLLEGE BOYS ROBBED.

Some Miscreant Left the Boys of the Field Meet Penniless.

Last night's celebration by the boys of Whitman academy over their victory in the field meet, and declaration of independence, was rather expensive, says the Statesman. About \$50 was stolen from the different rooms in Billings hall. There is absolutely no clue to the thief, but it is thought that the money was taken while the boys were out celebrating around the immense bonfire which was built in the campus at the close of the contest. The hall was left open this time. One boy lost \$18, another \$12, and one of the boys visiting with one of the track team was robbed of \$10. Most of the money was taken from desks, etc. But in some cases the thief went through even trouser pockets for small change. The boys are very indignant over the matter and vow that it would be pretty hot for the culprit if he were found out.

"Yes," she said bitterly, "he is a bigamist—a bigamist!"

"A bigamist?" she cried.

"Yes," she said. "Although I didn't know it at the time, he was wedded to his business at the time he married me, and the worst of it is, that he still seems so." said the second magnate, "but I'm quite sure that the congressman who passed the law didn't mean it. I have letters of apology from at least a dozen of them."

## NEWS FROM ECHO

Automobilist En Route From Portland To Helena.

Immigrants From Texas—Prospectors From Portland—All Kinds of Business Active in—Around Echo.

Echo, May 8.—The object of absorbing interest here today is an automobile. Word was phoned in from Butter creek in the early morning that one had been sighted in that vicinity and that it was headed this way. A number of persons were watching for its arrival and it had hardly stopped when a curious crowd gathered to discuss its merits and hear its operator chat about the trip.

It proved to be F. E. Simons and Melvin Lowenfeldt, of Portland, with their 20-horse power Whinton machine on pleasure bent.

They had been in the hills near Portland to the Dalles and then launched boldly forth through the desert. They report having encountered rough roads, high hills, and a slight mist of dust.

They left the Dalles Wednesday, missed their car during several times, broke a brake coming down the John Day hill and arrived here about 1 o'clock this afternoon with everything jangling along all right. But they are about as dusty and greasy as one can imagine. They pulled into the Smith shop for repairs to their damaged brake and departed on their way to Helena, Mont.

H. B. Cotton and J. P. Cronin, of Portland, are doing the town today. H. C. Willis, the enterprising butcher, is getting ready to start his meat wagon on the road, where he expects to keep it all summer.

Echo, May 10.—E. Graves, of St. Joe, Mo., and D. Whitaker and C. E. Baker, of Omaha, Neb., in company with L. W. Furnas, of Lewiston, Idaho, have been spending several days in looking over this part of the country with the view to investing in land that can be irrigated. They drove today from Butter creek and down the Umatilla to its mouth. They each express themselves as well pleased with the outlook here.

Malcolm Corryall and S. W. Looney came in last night.

L. Stubblefield, the Seattle hog buyer, came in this morning.

Z. Houser came in from Portland this morning, where he had been in the interest of the Standard mine.

A delightful shower of rain fell here last night.

Complete arrangements are made for the banquet and social to be given by the Arlington hotel here, on next Friday, the 15th, in the interest of the American Hare Packing and Cold Storage Company. It will be followed in the evening by a grand ball at the Odd Fellows hall. The orchestra for the ball will be furnished by Kirkman's orchestra.

James H. Koontz has not been able to get his gasoline engine started. It started nicely at first, but it seems that for some reason the pump does not supply sufficient oil.

## GOLF TOURNAMENT.

Eleven Contestants Qualify for an Interesting Event.

The first annual tournament of the Pendleton Golf Club will open tomorrow morning at 9:30 o'clock. The entries are slow in coming in, but by the time the time limit is reached it is expected that at least 16 gentlemen will have qualified and had their bags and clubs arranged them. Several ladies will also enter in the ladies' matches.

Right at this time it is hard for the business men of the city to find time for their game of golf and it is from this condition of things that the entry of scores and the apportioning of handicaps is retarded. The same condition also holds among the lady members, many of whom are employed in the various stores and offices of the city.

The ladies will tee off tomorrow morning from 9:30 to 10:30, and will cover the course once over. In the afternoon the gentlemen will have from 2:30 to 4:30 in which to start their drives. They will also make the course once, and from their scores the further matches will be arranged.

Those so far qualifying for the tournament are: E. P. Dodd, E. E. Yudd, William Rinehart, C. E. Pruitt, A. H. Hartman, J. W. Keller, Mark Moorhouse, J. R. Dickson, R. Berkley, L. G. Frazier and J. T. Lambirth.

## NEW STEEL CELLS IN PLACE.

Two Hobes Help Put Them Up and Appear Anxious for a Job.

The new steel cells for the city jail have been put up in the corridor and will be placed temporarily in the north end of the structure. The cells consist of a large cage, made of steel bars riveted into lattice work form. They will be secured and at the same time will give the inmates good ventilation.

There are two hobes in the jail at the present time and they are much interested in the construction of the cells. They have lent valuable assistance in their building and are so anxious to have something to do that they will not take advantage of an opportunity to escape. The doors have been left open all noon today, but after their dinner the men returned to the jail and are seemingly content to remain there.

## How Moody Missed a Tip.

When the Moody was at San Juan, Porto Rico, with Secretary May and his friends aboard, many of the ship's went on board to see the ship. One of them wanted a drink of water, they turned to a man in a white cap who was standing by the rail and told him to get him one. This was done, and a member of the party who saw the incident turned to the Porto Rican and told him that it was the American custom to tip a man when he did anything.

"It would have been much more if you had given him a tip," said especially as the man who got you the water was the secretary of the navy."

The Porto Rican spent the next two days in apologizing to Mr. Moody, who had thoroughly enjoyed the joke.
