else is the same as it was last week The dry weather has not made any change in the wheat quotations. Any way, the failure or the prospering of the local crop would not affect the market of the world to any great extent. There will be good crops around us, in the Palouse country and in the neighboring states, and Umatilla county will not be cropless Anyway, there is no change in any thing and the market is dull and

The Wheat Trade,

Portland, June 11.-There is plen ty of wheat at tide water warehouses for a number of more ships, but this badly just now. Between Adams and Creek will no doubt go over into the new Pendleton, along the Wild Horse year. Quotations rule for club 75c, blue stem 77c, valley 76c per bushel. Sellers have no difficulty in obtaining these figures, but stocks in sellers' hands are very small, as nearly all the wheat remaining in the country belongs to exporters and millers. Millstuffs-The demand continues good from all sources and there is no let up for all kinds of millfeed. At the present time there is no change in quotations that rule steady for bran and shorts at \$22.50 per ton. Barley-Market dull and nothing doing. Sales are very small and dealers say the demand is very light. Prices are without change, \$20 per ton being the ruling figure for feed.

San Francisco Markets. San Francisco, June 11.-There is nothing doing in this wheat market. Crop reports show no change in the situation as to the growing crops, and conservative dealers in the trade do not look for as large a crop as the former one. Quotations remain at \$1.32 to \$1.37 per cental for shipping grades and 5 to 7 cents more for milling grades per cental.

ATHENA

LTHOUGH the Plano Binder is remarkably simple in construction and therefore easily operated. it shows many valuable devices not to be found in any other harvester. Among these special Plano features are the self-regulating Fly-Wheel, simple Lever-Driven Binder, Reel with safety Friction-Clutch, recordbreaking Plano Knotter, etc.; inventions that have proved their great value to the binder by years of service in the harvest fields of both hemispheres. From start to finish, Plano Machines are built on the idea that "the best is cheapest," and that true economy in the harvest field consists in using the best and most reliable machines obtainable. There is nothing "cheap" in its construction—nothing lacking in perfection of details. It is a machine that will harvest your crops easily, economically and well under even the most trying conditions; a machine that requires few repairs; one that you can depend on year after year. In addition to the Plano Binder we carry the Plano Headers, Mowers, and Rakes.
