TORTURING DISFIGURING

Skin, Scalp and Blood Humours

From Pimples to Scrofula From Infancy to Age

Speedily Cured by Cuticura When All Else Fails.

The agonizing itching and burning of the skin, as in Eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalled head; the facial disfigurements, as in acne and ringworm; the awful suffering of infants, and anxiety of worn-out parents, as in milk crust, tetter and salt rheum,—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Soap, Ointment and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures, blood purifiers and humour remedies of the civilized world.

Bathe the affected parts with hot water and Cuticura Soap, to cleanse the surface of crusts and scales and soften the thickened cuticle. Dry, without rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent, to cool and cleanse the blood. This complete local and constitutional treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly humours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all else fails.

Sold throughout the world. Cuticura Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), Ointment, 50c., Soap, 25c. Depots: London, 27 Charterhouse Sq.; Paris, 5 Rue de la Paix; Boston, 137 Columbus Ave. Potter Drug & Chem. Corp., Sole Proprietors.

Send for "How to Cure Every Humour."

NOTES FROM ECHO

SCHOOL HOUSE WILL BE ENLARGED THIS SUMMER.

Two Grades Will Be Added to the Public Schools—Election to Vote on a Bond Proposition Will Be Held July 18—Lewiston Parties Here to Invest.

Echo, Or., July 9.—At a meeting held at the schoolhouse yesterday afternoon for the purpose of voting upon the question of building an addition to the house, and adding the ninth and tenth grades to the school, there was considerable enthusiasm shown.

One prominent citizen claimed that such a thing was not needed. This brought a spirited reply from Joseph Cuhna, who stated that in his judgment it was very much needed, and that the addition to the schoolhouse must be built, and would be built if he had to do it unaided. This met the approbation of a large majority of those present, and upon a vote it was decided to build and create the additional grades.

It was also decided to call a meeting next Saturday week to vote upon the question of bonding the district. Too much credit cannot be given Mr. Cuhna. A few more such enterprising citizens will place Echo upon the road to success, where she deserves to be.

J. Hu Wood, of Minneapolis, is doing the town today.

Investment by Lewiston Parties.

L. W. Furnas, S. M. Benard and E. Mouner, of Lewiston, came in on the morning train and drove to the country. This is the party who came here some time ago and looked over the country with the view to an extensive investment.

It is understood that the deal is about closed which involves quite a sum of money and brings a number of enterprising investors.

Adams News Notes.

J. W. Chapman will finish his contract of decorating the city hall this week. He has made a neat looking building out of it. It is now an ornament to the town.

W. P. Wallan is in receipt of the voucher for his claim against the state of Oregon for service in the Indian wars of 1856 and '57. It amounts to $163.67. It has been due a long time, but he says it is welcome even now.

M. C. McIntyre and family went over to the Umatilla river on Friday evening, prepared to stay until Sunday evening, but the rain brought them home on Saturday well "sprinkled."

Mrs. J. F. Adams, together with her children, Misses Pauline and Helen, left Monday evening for McMinnville. They will visit there a short time and then go to the coast, where they will stay during the hot weather. It is the intention to take up their residence in Walla Walla upon their return, where Mrs. Adams lately purchased one of the neatest homes in that city.—Adams Advance.

FORFEITED HIS BOND.

Three Hundred and Fifty Dollars Bail Money Turned Into School Fund.

The circuit court yesterday made an order to the effect that the bond of Ed Haney for the sum of $350 be forfeited, and it will be turned into the school fund.

Haney was under bonds for forging a check on Hartlett & Lang, the men who are running the farm belonging to C. J. Smith, about two months ago. The check was for $20, and was passed at the store on Main street operated by Charles Bond and J. W. Sullivan. He bought a suit of clothes and gave the check in payment, receiving the change, with which he proceeded to get out of the country.

He was to have appeared before the court to plead yesterday, but failed to put in an appearance. By this action he will lose the money and still be liable to the charge if he can be located by the officers.

FUNERAL OF JOSEPH ALLEN.

Norris & Rowe Settle All Bills in Full—Burial in Olney Cemetery.

The funeral of Joseph Allen was held from the undertaking parlors of Baker & Folsom this morning at 8 o'clock, Rev. Brooks of the Christian church, conducting the services. The body was taken to Olney cemetery and placed in a grave there.

This morning a check was received by Judge Hartman for $40 from Norris & Rowe, and Mr. Baker is in receipt of a letter from the same gentlemen, telling him to draw on the firm for any further expenses that might be necessary.

DEATH OF CLIDE SHELL.

Well-Known Resident of Butter Creek Passes Away.

Clide Shell died at his home on the head of Butter creek Thursday at 12 o'clock, after an extended illness of lung trouble. The deceased would have been 21 years of age on the 10th of September. Clide was the son of Mr. and Mrs. A. R. Shell, of Butter creek, and was well-known and loved by a large circle of friends.

Real Estate Transfers.

George Eley has sold to Elmer Searcy and Florence Searcy, his wife, for $2,000, lot 5 in block 9, of the reservation addition to Pendleton.

Charles M. Booher and Mary E. Booher, his wife, have sold to Emery Lahue for $1,200, lots 1, 2, 3, 4, 5, 6, and 7 in block 5, and lots 1, 2, 3, 4, 5, 6, 7, 8, 9 and 10 in block 2, in the railroad addition to Athena.

L. W. Cheney and Zella M. Cheney, his wife, have sold to T. J. Cheney for $3,500, 160 acres of land in sections 4, 5, 8 and 9, in township 2, north of range 32 east, being part of the McKay donation, land claim No. 38, on Birch creek.

Tachella-Belloma.

Miss Maria Tachella was married to Luigi Belloma this morning, at the office of Justice of the Peace Thomas Fitz Gerald. The bride is the niece of Peter Tachella, the well-known farmer at Saxe station, and has been in this country but a few weeks, having come from Italy to make her home in this county. The groom is well known in this city, where he has been for a number of years. Not long ago he bought a little fruit farm near Milton, and will take his bride there to make their future home.

To Visit Mining Property.

G. B. Tardiff and son, Felix, will leave Saturday morning for Granite, where Mr. Tardiff is largely interested in mining property. They will remain during the summer at the Blue Ribbon mine, on Buffalo Hill, superintending development work and enjoying an outing at the same time.

Fifteen Bushels Per Acre.

Cutting is about half completed on the Maxwell ranch near Divide. It is thought the 1,000 acres in wheat will yield 15 bushels per acre, and that 30 days will be occupied in heading, only one header being used.—Walla Walla Union.

ATHENA CORN AND WHEAT.

Clark Walters Has 80 Acres of Fine Corn—Wheat Crop Spotted.

Clark Walters, of Athena, one of the pioneer farmers of Umatilla county, was in the city today and reports the corn and wheat crops of that vicinity in excellent condition.

Mr. Walters has 80 acres of corn that now promises to make from 23 to 26 busels per acre. The past week has been most highly satisfactory for corn, and the wheat crops are also ripening fast.

Mr. Walters says that more and more corn will be raised in this county as the farmers come to understand its value as a feed, and also as a diversity for the soil. Some soils are benefited greatly by the cultivation and fertilizing consequent on a corn crop. In that vicinity, increased wheat yields have been secured by alternating with corn.

One of the greatest values to be derived from a corn crop in this country is from its use as feed. No grain will make better fat or make it quicker than corn. The shredding machine used in the East has been introduced at Athena, and the fodder cut up into a fine grade of feed, which is eaten up clean by stock.

Much of the soil of Umatilla county is especially adapted to a corn crop. The climate is also highly conducive to growth and when farmers learn to rest their soil by changing crops, the output of this cereal will form one of the most profitable crops raised.

Mr. Walters visited Minnesota last year after an absence of 26 years, and was surprised to find such an increased corn area and so many dairies in that state. He thinks the same change will gradually come to the West, although not in so large degree.

Speaking of the wheat crop in the vicinity of Athena, Mr. Walters says it is somewhat spotted. Some fields will yield 45 bushels per acre and some but 15 bushels.

ELOPED WITH STEP-DAUGHTER.

Strange Family History of Former Pendleton People.

Ten years ago, Mrs. G. W. Sams secured a divorce from her husband in this city, and immediately married L. E. Nolan, who was serving time in the Walla Walla penitentiary for forgery at the time of his courtship with Mrs. Sams.

Sams and his wife had a little daughter, Bessie, 7 years old at that time and after the first flush of anger at his wife's action had passed away, the newly married Nolans and Sams all moved into one house and have lived together ever since, at Walla Walla.

Bessie is now a young woman 17 years of age, and Wednesday evening she and L. E. Nolan, the man who eloped with her mother 10 years ago, eloped to parts unknown and her mother is now grief-stricken over the unhappy event at her home in Walla Walla.

The happy couple were seen by people who knew them, yesterday evening at Adams, and they are supposed to be headed toward this city.

G. W. Sams, whose fireside has been invaded twice by the same man, is searching for them, but there is some doubts about the legal action necessary to bring the guilty pair to justice, as Nolan is not a bigamist until he marries the girl and there is no evidence against them until they are caught.

Cattle Thieves at Work.

Reports of depredation of cattle thieves on herds owned by parties in the eastern and central parts of the county keep reaching us, one owner reports a loss of 30. Such work should be investigated and prosecuted to the fullest extent of the law, and will be. The guilty parties are known, and any more such work will surely result in arrests. Needless to say, the marauders are not Crook county cattlemen nor even residents, but belong to an adjoining county and have practiced this business for several seasons. Such work oftentimes results in a well attended and thoroughly enjoyed necktie party.—Prineville Journal.

WILL VOTE JULY 21

AS TO AN IRRIGATION DISTRICT AT MILTON.

Long Mooted Question Will Go to Popular Vote on the Date Above Given—Law Provides for More Systematic and Economical Use of Water—Distribution Will Be Regulated by an Elective Commission.

The county court has adjourned to meet again the 27th of this month, and at that time it will canvass the votes on the establishment of an irrigation district near Milton. Some time ago the residents of that section prepared a petition and submitted it to the court asking for the establishment of the district, and the court appointed the 21st of this month as the time when the people should vote on the matter.

On that day the residents of the section will vote yes or no as to whether or not the district shall be formed, and at the same time will vote for a set of officers to manage the affairs of the district, should it be formed. If three-fifths of the people of the section are in favor of the scheme it will carry, and if not it will fail, and the present system in vogue there will prevail.

The officers who shall be elected will have charge of the apportioning of the water to various users along the river, telling them on what days they may use the stream and for how long. It will be their duty to inquire into the conditions of each place, and to distribute the water in a manner fair to all, showing no partiality to anyone, and dispensing no favors. It is expected that there will be quite an exciting time on the day of the election, as there are a number of those who have their ditches already made to suit themselves, and the water supply regulated for their own convenience, who are opposed to the innovation and would like to see it fail.

Work at Coal Mines.

Williard Herren, who came down from the coal mines the first of the week, reports that work has been commenced on a second permanent tunnel. This tunnel was started at the entrance to No. 5, which is being widened, leveled and put in good shape for mining. The opening of another tunnel gives employment to an additional force of miners also.

The work of constructing coal bunkers was begun this week, and in about three weeks mining coal for the market will be under way.—Heppner Times.

Now on Vacation.

Ira Julian, the well-known and popular agent of the W. & C. R. railroad at Helix, is in the city today. Mr. Julian will take a six-weeks' vacation from his duties and will visit the Sound, Portland and California while resting. Will Lyons, of this city, is agent at Helix during Mr. Julian's absence.

OLD AND NEW WHEAT

PRICES WILL START AT AN ADVANCE OVER LAST YEAR.

The Quality of This Year's Crop Will Be Good, But the Yield Will Be About Two-Thirds That of Last Year—Money in Wheat Raising at 50 Cents.

The harvest in this county is now fairly on, for the farmers have begun to cut their wheat. The barley cutting is well under way, and will be out of the road before the wheat becomes so ripe that its harvesting will have to be rushed.

According to E. W. McComas, of the Northwest Warehouse Company, the quality of this year's crop will be very good, though the yield will be light. The estimate of two-thirds will be about the right figure, but this may be exceeded in some parts of the county. The usual average of the county is 4,000,000 bushels, so that if the predictions come true the county will produce in the neighborhood of 2,666,666 bushels of the grain.

The yield around Milton is light, and Athena has not grown as much of the staple as it should, but both of these belts are small in area and will not make a great difference in the total result. Other parts of the county are worse off, and in some of the sections the yield will not be more than one-half of the average. These spots are just here and there, however, and while they are each considered separatly not of much moment, the total of them all will make some difference in the whole result.

The mills are quoting wheat at 65 cents at this time, and the exporters are not in the field to any great extent, though they will give from 57½ to 58 cents for the new crop. When the new wheat comes in the prices will fall from the figures now offered for the old grain, and the exporters will give from 55 to 60 cents. This is an added price over the figures quoted at the beginning of the season last year, and the farmers can make a profit by selling at the price offered.

It is safe to say that if the men of the county who raise wheat could be guaranteed 50 cents for their grain for the next 10 years that they could afford to put in large farms and go into the business on a much larger scale than at the present time, and make money by the venture. Anything over 50 cents in the wheat market is a gain to the raiser under the present conditions prevailing in the county, and while the higher the price the more there is in it, the farmers will not lose if they can get 50 cents as a minimum price for their grain.

SATURDAY'S LOCALS.

G. C. Osburn, of Athena, is in the city today on a business trip.

S. C. Masterson, of Walla Walla, is in the city on a brief business trip.

E. A. Rugg, the sheepman of Vinson, is in the city for a short time on business.

Professor George Peebles, of Weston, is in the city today on a short business visit.

James Owens, a Bear Creek stockman, is in the city on a business visit of a few days.

Mr. and Mrs. M. H. Gillette, of Moscow, Idaho, are in the city on a visit with friends here.

W. D. Wallan returned to his home at Grass valley this morning, after a visit with friends here.

James Oatley, one of the prominent stockmen of the Camas prairie country, is in the city today on business.

Mrs. A. W. Hill, of Freewater, has returned to her home after a week's visit at the home of Mrs. May Stanton, of this city.

Frank Ingdall, the mail carrier between Vinson and Nye, is in the city today. Mr. Ingdall is also engaged in the farming business near Nye.

Frank Ellis, one of the stockmen and farmers of the Camas Prairie country, is in the city today buying supplies for his men, and arranging for the harvest.

Miss Grace Crockett has returned to her home at Freewater, after a visit in the city with friends. Miss Crockett is one of the members of the Academy graduating class of this year.

Mr. and Mrs. Frank Stanton, of Helix, are in the city for a short time. Mr. Stanton is one of the farming men of that part of the country and is in the city to prepare for the harvest.

William Folsom, the county recorder, has returned from a two weeks' trip in Baker county, where he went for a vacation and to look after some mining claims which he has in that part of the country.

PERJURER IS ARRESTED.

Famous Character of Walla Walla Is Guilty of Serious Crime.

Walla Walla, July 11.—Adam Smith, known as the "Mayor of Little St. Petersburg," and deep in the councils of the Burford-Smalls machine in matters political, was arrested at his home yesterday evening by Deputy United States Marshal Short, of Yakima. The charge preferred against Smith is perjury and brings to light what appears to have been a wholesale attempt to vote members of the Russian colony at the coming city election, who, it is alleged, had been granted naturalization papers by false testimony as to the length of time they had resided in the United States.

The specific case is that of Henry Humburg, a Russian laborer, who, with 12 other Russians took out their final papers 10 days ago in time to register at the city election. Humburg, it is stated, has confessed that his papers were illegally obtained by the false testimony of Smith and George Gradwohl as witnesses, who swore he had been a resident of the United States for five years, whereas he had in reality come to this country in October, 1898. According to his own statements, he could not legally obtain his final papers until next October.

Suit to Determine Title.

C. B. Wade has filed suit against the Oergon Land and Construction Company to enforce them to come into court and show cause why they should have an interest, as is claimed by them, in certain lots in the town of Foster, said lots being the property and in possession of the plaintiff. Carter & Raley are the attorneys for the plaintiff.

Farm Sold.

Daniel P. Hicks and Jessie F. Hicks, his wife, have sold to James D. Hargett for $4,100 about 200 acres of land in section 35, township 4, north of range 35, being land in the vicinity of Weston.

George L. Baker, manager of the Northwest Theatrical Association, has been sued by a singing aggregation, known as "The California Trio," for wages alleged to be due on contracts which were never fulfilled, in the Portland theaters.

ELGIN WOOL SALE WAS A FROST

Growers Did Not Like Prices and Held On.

Elgin, Or., July 10.—The big pool of Wallowa county wool which was offered for sale here Wednesday was not very eagerly sought after by the representatives of the big woolen mills.

A large number of the Wallowa county woolgrowers had pooled their product, with the expectation that the buyers would give higher prices for the product than if offered in individual lots. The buyers were on hand in force but did not appear to be at all anxious to purchase, offering considerably less than the growers had an opportunity of selling for at the beginning of the season. Prices offered ranged from 12½ to 13 cents and as this was not deemed sufficient by the growers no sales were made.

Considerable dissatisfaction appears to exist among the smaller growers over the outcome of the pooling business, which was engineered by some of the larger flockmasters and it now appears as if the combination will go to pieces and the individual growers sell independently.

That the proposition will result to the detriment of the sheepmen is an evident fact, as the handling of the wool by the warehouse men will necessarily be considerably more, and this taken with the freight and insurance charges will eat quite a hole in the profits of this season.

After the sale meeting adjourned a number of independent growers disposed of their clips, 13 cents being the top price. This action will have a tendency to relieve the congested conditions in Mays' warehouse until the 21st inst., when another attempt will be made to sell the pooled wool.

HEPPNER WOOL SALES.

Large Amount Sold Yesterday Under Sealed Bid Method.

The second series of wool sales in this city under the sealed bid method, which were advertised for June 22-23, but which were delayed on account of the flood, were pulled off yesterday at the warehouses of the M. C. L. & T. Co., and Heppner & Co., says the Heppner Gazette.

Taking it all the way through the growers were hardly as well satisfied as they were at the previous sales, however, good prices were paid for most of the wools, and most of the offers were accepted.

The offer on the McCallum & Bayley lot of 115,000 pounds was rejected, the price offered not being satisfactory.

The clips of Andy J. Cook and oJseph Luckman topped the sale at 14¾ cents per pound. This was very fine wool and brought the highest price here this season.

The following well-known buyers were present: E. Y. Judd, E. W. Brigham, Charles H. Gunn, Alex Livingstone, Frank Lee, Ben Lee, J. T. Harris, Ferd Kuhn, William Ellery and M. W. Stoehr.

TEACHERS' INSTITUTES.

Superintendent Ackerman Fixes the Dates for Same, Also for Examinations.

Superintendent Ackerman, with the co-operation of the county school superintendents, has fixed the dates for the holding of the fall institute in Eastern Oregon, as follows: Union August 17; Bandon, August 17; St. Helens, August 18; Wallowa, August 24; Heppner, September 2; Burns, September 3; Canyon City, September 7, and Vail, September 10.

The State Teachers' Association will be held at Baker City during Thanksgiving week. Superintendent Ackerman has made arrangements to be in attendance at all of these institutes except Bandon and Heppner and he does not, on account of other official business, think he will be able to attend those.

The teachers' examinations will begin throughout the state on August 12. As yet no preparations are being made for them and, so far as is now known, they will be conducted in the same manner as in the past.

ILLEGAL FENCING

RICH CATTLEMEN ENCLOSE SETTLERS' HOMESTEADS.

Recent Tragedy in Northwestern Kansas Has Precipitated an Issue in the Interior Department That Must Be Squarely Met—Nephew of Admiral Dewey Is Charged With Trespass.

Washington, July 11.—The report of the special agent to investigate the conditions which have surrounded the fencing of lands, which resulted in the recent tragedy, involving the Dewey Cattle Company in Kansas, has been sent to the department of justice for whatever action the law officers of the government believe should be taken.

Although access has been refused to this report, it is understood that it is directly against the Dewey Cattle Company, and urges that action should be taken to prevent further violation of law and the continued existence of unlawful fences, which promise to result in further tragedies in the inevitable clashes between the cattlemen and homesteaders.

It is understood that the agent found that the cattle company did not have a semblance of title to the land and that in carrying out its fencing schemes it completely inclosed a number of homestead tracts of land.

No action will be taken by the government until the present intense ill feeling subsides somewhat, and until the result of the criminal cases becomes known. Then the government will take a hand, no matter what the outcome may be. It will insist that if there are illegal fences in existence at the time they must come down. The rights of the homesteaders will be carefully established and they will be strictly enforced if the whole power of the federal government has to be involved to do it.

DIED OF CONSUMPTION.

S. F. Thompson Dies After a Prolonged Illness.

Sidney F. Thompson died at the lodging house at 127 West Webb street, at 3 o'clock, aged 57 years. The deceased was taken with pneumonia last winter and the disease soon merged into consumption, from which he died after six months' illness.

Mr. Thompson leaves a widow, Mrs. Sarah Thompson, who is blind. He has a sister in Wisconsin, but her exact place of residence is not known.

The funeral was conducted from the undertaking parlors of Baker & Folsom this afternoon, by Adjutant Howell, of the Salvation Army.

Young Trout for Milton.

Carl E. Brown, the editor of the Milton Eagle, is in the city today, having come from his home city to take back with him the shipment of trout coming from the Clackamas hatchery for this county. Milton gets 2,000 out of the total of 20,000 shipped.

RANGE HORSES SOLD

C. B. WADE DISPOSES OF ONE HUNDRED TWENTY-FIVE.

Mr. Wade Owns the Two Finest Herds of Blooded Cattle in the State, the Animals Being Full-Blooded and High Grade Herefords and Shorthorns.

C. B. Wade has sold to the firm of McKennon & Ledbetter, of La Grande, most of his herd of graded horses from the fenced range on his ranch. For several years Mr. Wade has been grading the horses in his possession, and at this time he had one of the best herds in the state. He had gathered from the range all of the largest and best brood mares he could handle, and had taken care to breed them to blooded horses, using the Clydesdale and the English Hackney as the grafting stock for the mares in his paddock. From this process he got a large band of horses that are above the average of any of the range animals in the state.

The horses are practically range bred, for they have run at large on the extensive pasturage of the range; but on the other hand, they are more gentle than the usual run, for they have always been fenced and therefore more frequently handled. Mr. Wade sold to the purchasers 125 head of his herd, which leaves him about 30 head for another start. The band bought included most of the brood mares.

Mr. Wade also has on his ranch the two finest herds of blooded cattle in the state. He has made a specialty of the Shorthorn and the Hereford breeds, and his cattle took the sweepstakes prize nearly everywhere he had them on exhibition last year. At the places where there was a band that graded above his he bought the prize-winners, so that this year he has the whole show. He will doubtless send a few of his best from the two breeds to the fair at Salem in the fall, and will perhaps take a few prizes at some of the other exhibitions over the country.

N. C. Maris has charge of the cattle for Mr. Wade. He is a gentleman having had many years' experience in handling blooded cattle, and is capable of bringing the best there is in them out, and exhibiting the best points of his stock to the public.

FUNERAL TODAY.

Last Sad Rites Over Clide S. Shell, Followed by Interment in Olney.

The funeral services over the remains of Mr. Clide S. Shell, son of Mr. A. R. Shell and wife of this city, took place this morning at the M. E. church, South, at 10 a. m., conducted by Rev. E. B. Jones.

Mr. Shell died near the Potts, on upper Butter creek, where his parents had taken him for a change of air, July 9, 1903. The funeral directions were in the hands of Baker & Folsom. A large concourse of relatives and friends followed the hearse to the cemetery, where the remains were laid to rest. There were many beautiful floral decorations furnished by friends of the family.

Mr. Shell was almost 21 years of age, and had been sick for nearly a year. His father is one of the pioneers of Umatilla county.

Estray Notice.

Fancy Mixed Drinks,
whether made at the bar, or in the home, are rendered most pleasing and popular by the use of
CYRUS NOBLE BOURBON AND RYE
whisky. In punches, julips, egg-nogs, whisky sour, high-balls, and all fancy mixed drinks, requiring good whisky, the NOBLE brands should be used. In calling for a mixed drink, always say, "Make it with NOBLE whisky." On call, or in pints and quarts,
At all BARS, DRUGGISTS and DEALERS.
W. J. VAN SCHUYVER & CO., Inc., Distributors, PORTLAND, ORE.
