class matter.

and the same

"Under our form of government all authority is vested in the people, and by them delegated to those who represent them in official capacity. Every power possessed by an official belongs not to him, but to the people. He is the trustee of an express trust to be administered for the public good, not for private gain. If all officials were corrupt and all official acts were for sale, then government would soon become the debauched tyranny of the few with wealth enough to purchase official favors.

"The official who would betray his trust would sell his country if he could. He is a traitor to peace-more dangerous-than the traitor of war. The greatest enemies of the republic today are the givers and takers of bribes."-John W. Folk district attorney of St. Louis

neumatism

Those who have ever felt its keen, cutting pains, or witnessed the intense suffering of others, know that Rheumatism is torture, and that it is right-

ly called "The King of Pain." All do not sufferalike. Some are suddenly seized with the most excruciating pains, and it seems every muscle and joint in the body was being torn asunder. Others feel only occasional slight pains for weeks or months, when a sudden change in the weather or exposure to damp, chilly winds or night air brings on a fierce attack, lasting for days perhaps, and leaving the patient with a weakened constitution or crippled and deformed for all time. An acid, polluted condition of the blood is the cause of every form and variety of Rheumatism, Muscular, Articular, Acute, Chronic, Inflammatory and Sciatic, and the blood must be purged and purified before there is an end to your sches and pains. External applications, the use of limiments and plasters, do much toward temporary relief, but such treatment does not reach

the real cause or cleanse the diseased blood; but S. S. S., the greatest of all blood purifiers and tonics, does cure Rheumatism by antidoting and neutralizing the poisonous acids and building up the weak and sluggish blood. It is safe and reliable in all forms of Rheumatism. It makes the old acid blood rich, and the pain-tortured muscles and joints are relieved, the shattered nerves are made strong, and the entire system is invigorated and toned up by the use of this great vegetable remedy. toned up by the use of this great vegetable remedy. If you have Rheumatism, write us, and our physicians will furnish without charge any information desired, and we will mail free our book on

WATCH US GROW

Our quarters are getting too small. Our steadily increasing business requires more room so we have secured new and commodious warerooms and offices in the new Ferguson-Maloney block just south of the East Oregonian building.

Why We Grow

There is reason for this steady growth. There is a reason why we have the names of our customers on our books from year to year. The reason is not far to seek. It is simply the quality of goods we carry that draws and holds our trade. In our new quarters we have ample room to display our splendid line of farm machinery, buggies and wagons.

Harvesting Supplies

In addition to farm machinery and extras we have a large line of Harvesting Supplies embracing Binder Twine, Axle Grease, Machine and Cylinder Oil, etc.

Good Vehicles Our Specialty

We have just received 3 carloads of buggies and 2 carloads of the celebrated Moline wagons. We especially invite everyone to come in and inspect our stock whether they intend to buy or not. Our specialty is good vehicles and we carry the popular priced top buggies and open driving wagons as well as the strictly high grade work.

The man who knows a good buggy when he sees it, is the sort of man to whom we enjoy displaying our rigs, for he appreciates the difference between a common ordinary cheap rig that's rushed through a cheap factory, with some cheap paint, cheap varnish and some other cheap trimmings thrown at it, and a vehicle of genuine merit, made from thoroughly seasoned woods, with forged steel metal work, best trimmings, best lead fillng, paint and varnish and with a grace and style to it that is absent in the common trash.
