

The Cause of Many

Sudden Deaths.

There is a disease prevailing in this country most dangerous because it is so insidious. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney trouble. If kidney trouble is allowed to advance unchecked, it will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell. Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy. It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing kidney troubles. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. It is a simple bottle of this wonderful new discovery and a book that tells all about it, sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

THE DAIRY MAN

Flat Irons wear out. So do Kingsbury Hats.

But it takes a long time to ask your merchant.

R. ALEXANDER, Sole Agent.

ALL TIRED OUT.

Tired all the time. Weary and worn out night and day. Back aches; side aches. All on account of the kidneys. Must help them at their work. A Pendleton woman shows you how. Mrs. Fred Noble, who lives at 219 Cobble street, says: "I was troubled for three or four years with my back and kidneys, and was oppressed with a tired feeling the whole time. My back commenced to ache whenever I did the least amount of work around the house that compelled me to lift anything or stoop over. The kidneys were irregular and annoyed me especially if I caught cold. I felt sleepy or drowsy all the time. I used many different medicines, some of which helped me, and some of which did not. I saw Doan's Kidney Pills so highly recommended that I went to the Brock & McCormac Co. drug store and got a box. They helped me more from the first and did me more good than anything of the kind I had ever used. I am feeling better since the treatment than I had in a long, long time before, thanks to Doan's Kidney Pills." For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no other.

PISO'S CURE FOR CONSUMPTION

ATHENA, HELIX AND RIDGE

DAUGHTER WAS BORN TO MR. AND MRS. LOUIS BERGIVEN.

Very ill With Dropsy and Lung Fever—Some Wheat Around Havana and Warren Will Be Fine—Union District School House Nearly Completed—Epidemic of Marriages.

Athens, July 19.—Mrs. J. E. Froome's niece, Miss Myrtle and Bella Buzan, of Pendleton, were guests at her home in the city last week.

Mrs. J. D. Hawes is on the sick list at present.

Dr. Mrs. Plamondon have returned home from the Unatilla. They report fishing fine.

Miss Emma Wagner returned home last Saturday from Walla Walla, where she has been taking of her sister, Mrs. Ramen.

S. C. Kilgore had a narrow escape a few days ago of being hurt. His team ran away breaking the stage, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing kidney troubles. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. It is a simple bottle of this wonderful new discovery and a book that tells all about it, sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Mr. and Mrs. Proudford, of Walla Walla, were visitors of Miss Myra Owens of this city last Sunday.

Born, to Mr. and Mrs. Louis Bergiven on July 15, a daughter.

Bill Wells and Clayton Luna left for Elgin, Ore., last Wednesday morning.

Mr. and Mrs. Samuel Boober and son, Lawrence, and Mrs. Boober's father, Mr. Helms, left Saturday for Bingham Springs, where Mr. Helms and daughter will spend several weeks for the benefit of their health.

Mrs. G. W. King, on her way from Spokane to Portland, passed through Athens Tuesday.

Rev. Lamar was over from Weston Wednesday.

Charles Marsh is down from Orchard Valley, Wash., where he and his family have been residing for several months.

Jess Licalof, of Weston, passed through town Tuesday with a band of line horses from Morrow county. The stock is of good size and offered for sale.

Livi Trowbridge has returned home to his home in Garfield, Wash.

Ed Hendricks, of Lafayette, Ore., was in the city Tuesday.

Grandma Banks, who has been suffering from paralysis for some time, is reported to be no better at present.

Albert Probstel, of Weston, has accepted a position as clerk in Silver City, New Mexico.

W. H. Bailey, Milton's leading painter, was in Athens last Monday. He was after the contract for painting the M. E. church.

A marriage epidemic has struck Milton. Those figuring in having the nuptial knot all over the county are: Scott and Margaret Maelstrom; Ralph Edwards and Edith Bouson; and Harry Davidson and Bertha Harris.

Harvest has commenced between Milton and Walla Walla, numerous headers and threshing outfits being at work in that vicinity.

Mrs. Wagner and Mrs. Joe Banister left this morning for Walla Walla to attend the bedside of Mrs. Wagner's grandson, Buzz Ramen, who has been sick for a year or more. He is not expected to live, having the dropsy and lung fever.

Monday July 5th Mr. George Phillips and Miss Liza Ashworth, of Dry Creek, were united in the holy bonds of matrimony.

Mr. Ben Ogil, of Athens, made a business trip to Warren last week, looking after his sheep farm. He reports wheat looking fine in that vicinity. He thinks his farm near Warren will make about 35 bushels per acre, and his wheat near Havana will make an average of 27 bushels per acre.

The new school house in Union district, Gerking Flat, near Athens, is nearly completed.

PENNY MYRICK IS BUILDING A RESIDENCE ON HIS FARM.

Delegates to the Grand Lodge at Portland—Gone to Wyoming on Business—Lawn Party at the Home of Mrs. Richmond—Daughter Born to the House of Simonson.

Helix, July 20.—Mr. and Mrs. I. N. Davis, of Walla Walla, are visiting at the home of their daughter, Mrs. E. E. King.

COUNTY POOR FARM

BUILDINGS ARE NOW NEARLY COMPLETED.

Reservoir to Supply Water to Farm and Buildings About Done—Cottages and Quarters for Inmates Are Conveniently Arranged.

In this utilitarian age Unatilla county is as businesslike as the next one and in evidence of that fact can be brought to mind the new venture at the poor farm where the workmen are now completing the buildings for a new departure in the problem of caring for the poor of the county.

About two miles south of west of the city a tract of 60 acres which the county has bought for a poor farm. It is part in the valley and part in the river bed so that when it is brought under the care of the management it will be made a garden and an ornament to the county government.

The entire tract will be irrigated from a reservoir which is now half completed and will soon be ready for the water. This reservoir is situated on the top of a hill near the cottage and from it the water will be piped over the houses and trenches out over the land. The water will be pumped into the reservoir from a well on the place and is a good water as there is in the county. It will be pumped up by a gasoline engine and there is sufficient of it to supply all of the demands of the farm.

Two Cottages Under Way.

There are two cottages under construction at present and they are situated near the road on the front of the county's holdings. The one nearest done is the cottage to be occupied by the superintendent and his family as a dwelling.

From the front door you enter a long hall from which the stairway to the upper floor takes its start. At the right of the hall as you go in is a large dining room where the inmates of the farm will take their meals. It is a room 13 feet and 3 inches wide by 21 feet 3 inches long and will be capable of seating all of the people of the county who will be fed for some time to come.

The floor will be tiled, as will all of the floors in the building.

From the dining room you come into the kitchen which is large and convenient and can be made it will be a place of the very way on the opposite side of the kitchen.

On the opposite side of the kitchen is the pantry, which is well supplied with shelves and drawers for the convenience of the cook. A range sink and a place in the wall so that the dishes can be handled as close as possible to the place where they are used.

The second cottage is the family dining room to be used by the superintendent and his family. It is a pleasant room, well lighted and finished with the best of materials.

Up stairs there are four rooms for the use of the officers of the place, as sleeping rooms. At the present time all of them will not be required by the superintendent's family and it is possible that some of the inmates of the farm may be placed there. The rooms are large and well lighted and will be cool and pleasant.

All of the plastering work in the finishing of both of the cottages is done by the plastering crew and imported from Texas, and which is almost as hard as cement. It is put on with great care by the contractors and special precautions have been taken to overcome the tendency to draw the plaster from the walls.

Wire lathing has been used in most of the construction and all of the woodwork has been made at the corner, thereby reducing the danger of shrinkage and subsequent warping of the plaster.

The second cottage and the larger is to be the home of the inmates of the farm and there all of the work pertaining to the household with the exception of the kitchen will be performed. It will contain 15 rooms of which about 10 will be for the sleeping apartments of the inmates.

In the basement, which extends over the whole of the area of the house, will be located the heating plant and the laundry. The place will be heated by hot air and will be lighted by electricity. No cold air will be admitted direct from the outside, but it will be tempered before it is put in the house. The heating pipes are first taken to the attic, and then forced down again through the air space in the big chimney and from there carried to the rooms to furnish fresh air to the people.

The central chimney is large and through its center the hot pipe or stack carrying off the smoke from the heater is run. As all of the air used for the ventilation of the house has to pass the length of the chimney and the heat of the air will be lost, there will be no cold air admitted to the rooms.

Laundry.

The laundry is also in the basement and covers 25x35 feet of the floor. It will be a suitable place for three cement tubs and several washing machines and a wringer. In fact, it will be a complete little laundry plant.
