

CONGRESSMAN LIVINGSTON SAYS PE-RU-NA IS A Splendid Catarrhal Tonic.

Colonel L. L. Livingston, Member of the Industrial Commission and the leading Democratic member of the Committee on Appropriations in the House of Representatives, whose home is at Atlanta, Ga., writes:

"I take pleasure in joining with General Wheeler, Congressman Brewer and others in recommending Peruna as an excellent tonic and a catarrh cure."

All phases of catarrh, acute or chronic, are promptly and permanently cured. It is through its operation upon the nervous system that Peruna has attained such a world-wide reputation as a sure and reliable remedy for all phases of catarrh wherever located.

Mr. Jas. O. Morin, 1179 Ontario street, Montreal, Canada, writes: "Peruna is certainly a great catarrh remedy. It cured me of catarrh of the head and I gladly endorse it. Canadians are peculiarly afflicted with this disease and for years the doctors have tried to overcome it with oils, powders and pills, but Peruna has solved the question and since the medicine has been established here hundreds of people have been cured of catarrh."

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

A COW BELL CHIMES PROSPERITY WHEN THE DAIRY IS EQUIPPED WITH A De Laval Separator

Up to date dairymen don't try to get along without a De Laval Dairy Separator.

Write for catalogue telling all about separators, dairy apparatus and supplies, mailed free.

THE Keeley Cure Alcohol, Opium, Tobacco Using

Flat Irons wear out. So do Kingsbury Hats. But if takes a long time to ask your merchant.

R. ALEXANDER, Sole Agent. STRAIN TOO GREAT.

Hundreds of Pendleton Readers Find It So. The bustle and worry of business men. They cured me. I have used them.

The woman's household cares. Are too great a strain on the kidneys. Backache, headache, dizziness. Kidney troubles, urinary troubles follow.

A Pendleton citizen tells how to cure them all. F. A. Morris, retired, who lives on Park avenue, and is well known to Pendleton people, says: "I was troubled with my kidneys on and on for three years. In earlier days I had worked in a shoe factory in Stockport, Ill., standing all day at a bench and later on I became a motorman on an electric car. That, too, kept me on my feet all day and aggravated my complaint if it did not start it. It annoyed me through the day more than at any other time. I finally got a box of Doan's Kidney Pills at the Brock & McComas Co. drug store and used them. They cured me. I have not had even the slightest attack of backache for five years, nor have I used any pills since I stopped the treatment last October."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no other.

DOAN'S CURE FOR KIDNEY AND BLADDER AFFECTIONS

McRAE'S COMBINE

IS BEING GIVEN A THOROUGH TRIAL ON THE RESERVATION.

is a Very Light Draft Machine. Requiring Only 12 Horses to Draw a 12-Foot Sickle—Simple in Construction and Does Not Waste Grain—Can Be Drawn at Greater Speed.

Alex McRae, of the Umattila Impement Company, of this city, has designed a new combined harvester and has it now in the field at work, which, if it proves to be a success, will be a revolution in the combined business in this part of the country.

For more than a year the inventor has been at work on the plans of his machine, and has at last perfected it and the machine has passed the experimental stage and has been proven to be a success.

The new machine is a 12-foot combine that does the principal thing that it has accomplished in its ingenuity of the draft. For several days the owner and builder of the machine has been threshing on the reservation and has passed the experimental stage and has been proven to be a success.

The difference in the pull of the machine is caused by the interior construction. It is simpler in the inside gearing, and has fewer parts to work. In the old machines the whole outside is a mass and a maze of gears and driving chain wheels and pulleys, while the sides of the McRae machine are practically free from them.

There are a few little wheels, but they are not in such much evidence as in the other build. It would be hard to attempt to explain just how the machine is different from the rest, but it might be said that the re-cleaner has been taken out and by a system of double fans the wheat is cleaned as well, if not better than by the method generally in use.

The rollers or screens over which the wheat must travel to be separated from the straw and chaff are longer in the new machine, and the re-cleaner has been taken out and by a system of double fans the wheat is cleaned as well, if not better than by the method generally in use.

Another advantage of the new machine over the old one is that the threshing begins almost as soon as the wheat leaves the sickle in the old machines the cylinder is in the middle of the machine and while in McRae's it is at the mouth, as in the stationary machines, or nearly so.

And the cylinder is larger in proportion to the size of the machine also as it carries a 24-inch cylinder, making the working capacity of the machine greater in proportion than is the case with any of the bigger combines. It has been demonstrated that the McRae combine will do as much as a 14-foot machine from the fact that it is lighter and moves faster.

One heavy bushel of the grain in proportion to its size. The machine is now being given a thorough trial, and any changes that may have to be made will be made before the machine is put into the market in numbers, and at a price that will make it the universal machine.

A VALUABLE RELIC. A. J. Owens Possesses a Copy of an Oregon Newspaper 51 Years Old.

A. J. Owens, who resides on Thompson street, has a copy of "Vox Populi," a newspaper published at Oregon City, in the early days of Oregon Territory. The copy in question is No. 1 of volume 1, dated January 2, 1852, and is therefore 51 years old last January.

The paper is a three-column, four-page publication and contains no advertising. The editorial discussions relate to the struggle between the Americans and Hudson's Bay Company, for political supremacy in the new territory. One heavy discussion treats on the "Fugitive Slave Law," and another on the actions of Amory Holbrook, a district attorney for the Hudson's Bay camp. Still another editorial flings some hot shot at the Portland Oregonian, of which Dr. J. J. Bennett is the time.

The paper is fairly well preserved and is highly prized by Mr. Owens, who has in possession of it through A. B. Holcomb, a pioneer who settled near Oregon City in 1848, and resided there until his death a few years ago.

SUES FOR AN INJUNCTION. Touching the Ownership of Wheat in a Bonded Warehouse.

Through Attorneys Carter and Ray and J. T. Hinkle, a suit has been filed by G. W. Loring against F. P. Shewmaker in order to restrain the defendant from hauling and disposing of wheat that is not his property.

The complaint alleges that the defendant has hauled it to the city of Pendleton and put it in a warehouse here, receiving for the same advance money which virtualy puts it out of the power of the plaintiff to get the wheat or its value; that the defendant is now planning to haul all of the wheat yet in the field to the warehouse and to deliver it to the plaintiff, and therefore the plaintiff prays for an injunction to restrain the defendant from hauling or storing the wheat until the third has been paid and delivered as according to the contract.

POSTOFFICE AFFAIRS. Business of the Pendleton Office is steadily increasing.

The business in the postoffice is increasing from month to month, and as a result of the increase Postmaster Livermore and Assistants Howland and Charles French have received an increase in pay of \$100 a year.

According to the postal regulations when the revenue of an office exceeds \$12,000, the salary of the postmaster is to be \$2,400 a year, and the assistants are to be graded in accordance with the salary of the chief. During the last year the revenue of the local office went above

BEHOLD AND RIDGE

QUALITY THE CROP, BUT THE CROP IS LIGHT.

Large Shipment of Horses Will Be Made Next Week—Butter Creek Telephone Matters—Improvements Being Made at Echo Continually.

Echo, Ore., Aug. 4.—J. H. Kooztz is putting a new front on the store building occupied by Charles H. Miller, and otherwise improving the property.

J. B. Saylor was in from his ranch today looking after the interests of the Butter Creek Telephone Co., of which he is manager.

Grain is coming into the warehouses here about the rate of over a hundred sacks a day. While the yield is short the quality is very good.

Cloyd Oliver is applying a new coat of paint to his residence and saloon. W. H. Habb came down on the delayed train from Pendleton today. He has decided not to ship his horses until some time next week.

Echo, Ore., Aug. 4.—Mrs. John Barger, who has been in Hepper for the past few years, has returned here for the purpose of educating her daughter, Buehla, who has returned here, which was her former home.

L. A. Estab has ordered his press and will commence the publication of the Echo News about the first of next month. Miss Pagsley is expected here in a few days and will take a course in the city.

Mr. Wells has the contract for painting the building of the American Hare Packing & Cold Storage Co., which will do as soon as he finishes the saloon. The company will open a meat market in connection with their business and expect to commence by the first of next month.

Mrs. H. C. Willis and son leave today for the mountains and Mr. and Mrs. Charles H. Miller leave tomorrow for 10 days outside the city.

The boys and the hammer are abroad in the land and the sound thereof is heard on all sides in Echo. The jackrabbit heard the sound thereof and moomouth that he is soon to be canned.

C. H. HORSEMAN HAS SOLD HIS RANCH TO W. M. PIERCE. One Farmer Has Four Horses Stolen and a Fifth Shot—Cleans Up \$500 at One Season's Sheepshearing—Ridge School Reopens—Child Is Burned With Carbolic Acid—Dog Poisoning by Whoalene.

Ridge, Aug. 1.—C. H. Horseman, of Grandview, has sold his ranch to W. M. Pierce, of Pendleton, for a fair price.

One farmer has four horses stolen and a fifth shot. The thief was caught and the farmer cleaned up \$500 at one season's sheepshearing.

Ridge school reopens. A child is burned with carbolic acid. A dog poisoning by whoalene.

THIRTY-TWO BUSHELS. Wheat in Adams District All First-Class Quality.

N. McDonald, of Adams, was in the city today on business. Mr. McDonald has just finished threshing 160 acres of club that averaged 32 bushels of first-grade wheat.

Harvesting is in progress in the Adams district and crops so far threshed are yielding from 25 to 35 bushels and like other parts of the county, the wheat in that district is all first-grade.

There is no corn in the Adams neighborhood, but McDonald has a corn crop on the reservation is in fine condition.

Another party of Ridge spent a good share of the week in the mountains hunting blueberries, with success, so it is reported.

The drawer in the car which had a horse that has been shot six times in the head with a 22 rifle and still lives.

Dog poisoning by the whoalene is reported. The victim is a dog named Those losing dogs are James Marcum, Mel Olmstead and A. J. Cummings, while another saved theirs.

Mr. Holt, the farmer from north of Pendleton, who lost four fine work horses out of the A. J. Cummings farm, has been reported in fine mare shot since in that locality.

Our school commences again today after a three weeks' vacation. Miss Gardner is said to be giving satisfaction.

William, the little son of Mr. and Mrs. M. E. Fletcher, met with quite a serious accident Friday. He got a bottle of carbolic acid, but instead of swallowing it, as is most generally the case, he turned it over in his lap and burned his stomach all over. His parents discovered him and dressed the wound and at last accounts he was resting nicely. He is only 16 or 18 months old.

WEDNESDAY'S LOCALS. R. C. Hager, of Gibbon, is in the city today.

Miss Myrtle Hill is the guest of friends here for the first time.

T. J. Ennis, of Ritter, is in the city for a short time.

Miss Nellie Gordon, of Hepper, is visiting friends in the city.

ECHO MILLS SOLD.

G. W. Hunt the Purchaser—Consideration \$10,000.

For several months the Henrietta Flouring Mills at Echo, have been on the market, and some time ago it was rumored that the sale was about to be consummated, but not until today was the deal made.

By it the property was transferred from the hands of H. Kooztz and A. Kooztz, his wife, to Leonard G. Hunt for a consideration of \$10,000. This is the mill property, but in another transfer a tract of 100 acres of land, and same parties for the same price of \$1,500.

The property is all at and in the vicinity of Echo. The latter tract comprises about 50 acres of timber land near the city, and is a valuable piece of land. The former, or the mill property, comprises the Henrietta mill, all of the land and warehouses belonging to it. It is in the edge of the city of Echo and in connection with the mill building seven acres of alfalfa, which the mill and warehouses stand, and a flume two miles long.

The capacity of the mill is 100 barrels of flour a day, and the mill is now run on 150 barrels. There are two warehouses with the property, each 50x100 feet in dimension.

It is the intention of the new owner or owners, for it is rumored that it has been bought by a syndicate of Portland capitalists, to run the mill to the full capacity.

The new owners have had a varied experience, for they cost \$20,000 and expense has been put into them besides that amount. They are not going to hand the mill over to a new owner, especially if the rumor is true about there being a syndicate mixed up in the deal.

FOR RIVER IMPROVEMENT. Portland Association Will Agitate an Open River From the Farm to the Sea.

The Columbia River Improvement Association of Portland, will call a meeting of the association, to be held in the most convenient city, for the inland Empire delegates, some time in the month of October.

This association has been active and aggressive in demanding that the Columbia be opened to navigation, and in order to organize the friends of the open river, this meeting will be called for consideration of the subject.

Mr. W. Myers, of Portland, is secretary of the association and has sent out circular letters, setting forth the facts in regard to the object of the association, and in the past few days, when the postage rate scheme, which is intended to accomplish this very object, is tied up by its enemies, it seems that some agitation is necessary.

The association is strictly commercial, and seeks, through the opening of the river to accomplish the settlement of the wide domain of the inland Empire.

In Walla Walla Hospital. John W. Williams, familiarly known as "Jack" Wright, one of the oldest engineers on the O. R. & N. between this city and Spokane, was operated on at St. Mary's hospital, in Walla Walla, for chronic bladder trouble. He is getting along nicely and expects to resume his run in a short time.

W. A. Fletcher made a trip to Walla Walla this week to visit his father, who is taking his X-ray treatment under Dr. Blalock for cancer, and was reported to be some worse.

Another party of Ridge spent a good share of the week in the mountains hunting blueberries, with success, so it is reported.

The drawer in the car which had a horse that has been shot six times in the head with a 22 rifle and still lives.

Dog poisoning by the whoalene is reported. The victim is a dog named Those losing dogs are James Marcum, Mel Olmstead and A. J. Cummings, while another saved theirs.

Mr. Holt, the farmer from north of Pendleton, who lost four fine work horses out of the A. J. Cummings farm, has been reported in fine mare shot since in that locality.

Our school commences again today after a three weeks' vacation. Miss Gardner is said to be giving satisfaction.

William, the little son of Mr. and Mrs. M. E. Fletcher, met with quite a serious accident Friday. He got a bottle of carbolic acid, but instead of swallowing it, as is most generally the case, he turned it over in his lap and burned his stomach all over. His parents discovered him and dressed the wound and at last accounts he was resting nicely. He is only 16 or 18 months old.

WEDNESDAY'S LOCALS. R. C. Hager, of Gibbon, is in the city today.

Miss Myrtle Hill is the guest of friends here for the first time.

T. J. Ennis, of Ritter, is in the city for a short time.

Miss Nellie Gordon, of Hepper, is visiting friends in the city.

F. H. Beathe, of Weston, is in the city for a short business visit.

F. M. Wagner, of Hilgard, is in the city for a business visit.

F. C. Lawrence, of Baker City, is the guest of the Golden Rule.

G. W. Richardson, of Bingham, was a visitor in the city yesterday.

Mr. and Mrs. Barnett, of Lexington, are in the city for a short time.

ATHENA AND HELIX

C. O. BOWMAN HAS VERY BAD FORTUNE WITH HIS HORSES

Former Residents Here Now in Omaha—Fifty Sushels Barley on the Kirk Place—Marriage of a Very Popular County—Ladies' Aid Society's Annual Fair.

Athena, Aug. 4.—Mrs. A. R. Bradley, of Omaha, Neb., and children, Grand and children, were visiting in Athena last week. They spent week before last, with friends in Portland and at the seaside. Athena has been busy with many changes since Mrs. Bradley was last here; still she says that it seems like home again.

Mrs. Joe Banister has returned from Walla Walla, where she has been nursing the little son of Mr. Raymond of that place. She reports the little boy as much better, but not yet strong enough to hand.

Miss Alan McCaw, of Walla Walla, is the guest of Miss Elsa Rosenzweig.

Miss Jeanette Manasse spent Wednesday at Walla Walla.

Mrs. Lillian Dobson, of this city, is reported seriously ill at her home.

Mrs. S. Curtis, of this city, is stopping on his homestead at Crook county at present.

Mr. T. J. Kirk has just finished harvesting his barley, which averaged 30 bushels to the acre, which he thinks is very good for this year.

Marshall Gholson was presented a handsome billy-club, manufactured by Allen Bradley, of Omaha, the donor.

The ladies of the Ladies' Aid Society of the Baptist church gave out the announcement that they will have their annual fair in November. Further announcements will be made later.

Master Herbert Manasse left last week for Victoria, B. C., to visit relatives for several weeks.

Some very fine apricots were brought to town Thursday by Uncle Tom Wattle, which he distributed among his many friends of Athena, who appreciated the gift very much.

Mr. and Mrs. B. Carrano, of Moro, came up last week to visit her parents and relatives of this city. Mr. Carrano has returned home, but Mrs. Carrano will stay here for a few days.

Mrs. J. W. Smith lost a fine Jersey cow last Saturday and Sunday night another came very near dying, but was saved by heroic effort. It is supposed that the cow was killed by a snake.

Mr. and Mrs. G. W. W. of Walla Walla, were the guests of Mrs. Austin Foss last week.

C. O. Bowman, of Milton, met with the bad luck to lose one of his horses while peddling fruit on the reservation Saturday. The animal became frightened and kicked loose from the wagon and ran on, over a bluff and broke her neck. Mr. Bowman stopped at Ogilvie's of Athena Saturday night. While there his other horse got its foot over a rope and nearly cut it off.

Born to Mr. and Mrs. Henry Miller this city a 3-pound boy.

Born to Mr. and Mrs. J. E. Walden, of Weston Mountain, a bouncing baby boy.

Mr. Frank Rogers and Miss Carrie (he) were united in the holy bonds of wedlock at Walla Walla Monday afternoon. The wedding took place at the home of Mr. Rogers' sister, Mrs. E. E. Rogers. Rev. Olds officiated. Mr. Rogers is a well known wheat dealer of this city, and Miss Hill is the daughter of Mrs. W. T. Hill who resides on the ranch north of town. She has many friends in Athena and vicinity, who will welcome her in her new home at Athena. Mr. and Mrs. Rogers are living in the Hastings cottage where they are prepared to entertain their many friends.

Athena, Aug. 1.—W. R. Taylor and family, who have been gone about two weeks rustling and looking after the cattle and farm, returned home Tuesday bringing back about a head of nice looking horses.

Joseph Shind's aunt and two cousins, who have been visiting at his home near Athena, left for their home near Dakota, after a two months' visit, a few days ago.

Rev. C. A. Sims, former pastor of the Christian church at Athena, left Tuesday morning for Crook county. Mr. Sims intends to make a good many improvements on his new place. He and his family intend to make it their home in the future.

F. H. Adams and Mabel Banister, who have just returned home from an extended visit to Pullman visiting friends and relatives, report crops looking very well. Timothy is used extensively for hay and is a good yield.

Mrs. David Taylor is improving very rapidly now. She is able to be up and around at present.

RECENT HAULINGS OF ORE ASSAYED A DOLLAR A POUND. Huckleberry Harvest is in Progress—Gathering Up Horses to Ship to Alberta—Hay Crop is Better Than Was Expected—Range is Drying Up Fast.

Alba, Aug. 2.—William Doherty, who is hauling ore from Susanville to Pendleton, reports that the ore that he freighted out assayed as high as a dollar a pound. Mr. Doherty pulled out 4500 pounds and hauled supplies back.

The boys and girls not otherwise engaged are busy picking huckleberries and storing them away for winter consumption.

Tom Vaughn, who has resided here for a long time, will leave in the morning for Portland to reside. Mr. Vaughn is here negotiating for the purchase of two bands of horses of Cox and Hoover to ship to the Alberta country, and reports that the coming stock country of the Northwest is settling up very fast.

DRY AND COOL WEEK

ALL HAY CROPS ARE LIGHT THROUGHOUT THE STATE.

Some Complaint of Grasshoppers—Potatoes and Gardens Thrifty—Light Onions Show Some Blight—Light Crop Italian Prunes—Fruit Generally Will Be Good Crop.

The past week has been dry and cool. In the western section nearly every morning was cloudy, and in the coast counties the cloudiness was almost continuous, which seriously interfered with haying. The hay crop is now nearly all secured, and the yields are estimated to be slightly below the average. In Southern Oregon and in the Grand Ronde valley some of the deficiency has been made up by cutting grain for hay. The second crop of alfalfa is now being harvested in a few localities. Correspondents in Polk and Jackson counties report grasshoppers unusually numerous in the clover fields.

The grain harvest is now well under way in all sections of the state, and the yields are reported good as to quality, but below the average in quantity.

Hops are very backward, and the prices are beginning to show a heavy factor in the advancement of this crop. Potatoes and gardens continue thrifty, and some fine crops are reported. Warmth and sunshine in the field previously resorted to affecting field onions continues spreading slowly.

Prunes are beginning to color and early apples are ripe. A few correspondents report Italian prunes as dropping badly, and that the yields will be less than anticipated. Peas are doing nicely, and a heavy crop is expected. Apples continue doing well.

Columbia River Valley. Kingsley, Wasco county, G. J. Fisher—Weather fair, with heavy north winds during the afternoon; nights cool; haying nearly all done; heading begun; pastures are getting ready to be cut.

Douglas, Morrow county, H. W. Grable—Cool, windy and dry; farmers busy heading; some threshing done; wheat not turning out so well as expected; harvest apples ripe and a good crop.

Helix, Umatilla county, S. L. Isaac—Weather very favorable; harvesting well under way; yields so far as threshed being less than yields two years ago on same fields; quality of wheat No. 1; barley somewhat shrunk.

Pendleton, Umatilla county, H. J. Taylor—Week favorable for harvesting wheat; have not heard of very many fields yet threshed.

Weston, Umatilla county, Maud M. Baker—Fine weather, clear atmosphere and light breeze most of the week; reports of excellent yields come from the wheat fields where threshing is in progress; barley is also yielding well; wheat is reported slump No. 1 grain in every instance.

Platasteau Region. La Grande, Union county, W. F. Geleker—Weather favorable and haying nearly finished; some fields yield well, but many are very short; some little grain cut, but no threshing done; grain looks to be well filled, but much of it very thin and short straw; fruit still promises a heavy yield.

Rock Creek, Baker county, J. K. Fisher—Weather clear; fall barley ripening; red and black raspberries ripe; clover hay put up; timothy down and ready to stack; very little irrigating for second crop of clover.

Post, Crook county, J. B. Meyer—Weather very favorable; haying second crop of alfalfa doing nicely; timothy and red top meadows turning out a good crop, yet a little short of last year; good crop promises extra good; spring grain is very well filled.

Klamath Agency, Klamath county, Geo. W. Looney—Weather most favorable for haying; good crop of hay is assured. The crops are unusually good for this season of the year; vegetable gardens are doing finely.

An unprecedented run of Columbia river salmon has been on since Sunday night. The price has dropped and the canneries have enough to last for a week ahead.

BEAR AND DEER MAKING THEMSELVES FAMILIAR. Severe Case of Typhoid Fever—Threshing Machines Are All at Work—Recent Arrivals From British Columbia—Rain is Needed Badly—Coyotes Are Becoming Numerous.

Briggsion, Ore., Aug. 3.—R. J. Boddy has moved his family to Athena, where he will start his butcher shop again, after a rest of a couple of months.

A large black bear was seen rummaging around in the county road a few nights ago. Also a deer made its appearance at the home of Louise Gibson. No chase was offered to either.

Bill Wilkinson was a visitor in this vicinity looking after his crop here and returned after a short stay to start his threshing machine near Sand Hollow.

Sam Rose, brother of Mrs. Maggie Taylor is very ill with a severe case of typhoid fever, and is reported a little better at latest reports, under the care of Dr. J. A. Best.

Jude Mitchell has started his threshing machine and is reported he is meeting with much success.

The family of Mrs. Anna Peterson, who came here recently from British Columbia, have been unusually good to the change of climate, but at last reports are convalescing.

Mr. and Mrs. Bob Kilgore, of the Weston bank, accompanied by Mr. and Mrs. Charles Taylor, of the Fair store, of Weston, were in this region for an outing a few days ago.

William Jamison passed through this vicinity to the mountains looking after his father's cattle, which are on the Breaks.

Everything is needing rain badly and are in hopes for it soon.

Mrs. O. M. Marvin will return home in a few days from Adams where she has been employed the past few weeks.

Miss Bessie E. Palmer, will leave for Pendleton in a few days.

Coyotes are getting quite numerous and many of them have been visiting people's barnyards.

WHEAT YIELDING BETTER THAN ANYBODY EXPECTED

Underwent an Operation for Appendicitis—Perry Myrick is Building a Residence—Visitor From Seattle—General News of the Neighborhood

Helix, Aug. 2.—Farmers are very busy with their harvest and wheat is turning out better than was expected.

Mrs. Ben L. Leland left for Canyon City last Wednesday for a visit to her brother, Mr. Hicks, of that place.

Dr. Frank J. Smith, of Seattle, has been visiting his brother, Lem Smith, for the past week.

Guy Smith came up from Jones Wednesday of a visit with his parents, and returned Friday.

Perry Myrick, who has just completed a new barn on his ranch, is building a residence at Seattle.

Miss Laura Gravelle, of Seattle, has been visiting at the Hill home.

Mrs. Myrtle Hahn and daughter, Neta, are visiting Mrs. Hahn's mother, Mrs. H. H. Hahn, of Helix.

J. W. Preston and wife, of Weston, have been visiting at the home of Mrs. Hays, of this city.

Mrs. S. Curtis, of this city, is stopping on his homestead at Crook county at present.

</
