

FRIDAY, AUGUST 21, 1933.

Often The Kidneys Are Weakened by Over-Work.

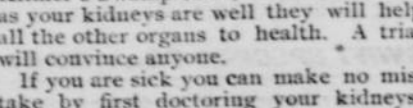

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles.

You may have a sample bottle, "Bottle of Swamp-Root," by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

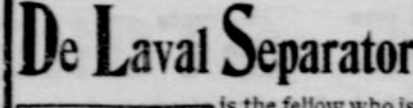

THE DAIRY MAN WHO HAS A De Laval Separator

is the fellow who is prosperous. The keenness of competition in modern dairy methods means that you've got to have the right equipment in order to make money.

We carry a complete line of creamery and dairy apparatus and supplies.

SO DIFFERENT.

Lots of Claims Like This, But So Different—Local Proof is What Pendleton People Want.

There are a great many of them. Every paper has its share. Statements hard to believe, harder to prove.

Statements from far-away places. What people say in Florida. Public expression from California. Oftimes good indorsement. But of little service here at home. Pendleton people want local proof. The sayings of neighbors, friends and citizens.

Home indorsement counts. It disarms the skeptic; is beyond dispute.

This is the backing that stands behind every box of Doan's Kidney Pills. This is a case of it.

S. B. Baldwin, retired, of 709 Thompson street, Pendleton, Ore., says: "When I saw Doan's Kidney Pills advertised, I desired to try them and got a box at the Brock & McComas Co. drug store. They did me a world of good. My kidneys had bothered me off and on for 35 years, always more severely after I had caught cold. There was not much backache, but I was annoyed with weakness of the kidneys which disturbed my rest several times each night. I got Doan's Kidney Pills at Brock & McComas drug store, and used seven boxes in all. They corrected the function of the kidneys and strengthened my back as well."

For sale by all dealers. Price 50 cents per box. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—DOAN'S—and take no other.

PISONS CURE FOR BILIOUSNESS, COLIC, CONSTIPATION.

BEEF OUTPUT SHORT

BUT FIFTY PER CENT OF USUAL AMOUNT TO BE FED.

Butter Creek Crops Short and Demand From Heppner Very Strong—No Cattle Changing Hands—May \$6 Per Ton in the Field, Against \$4.50 Last Year.

Reports from the Echo district say that there will not be over 50 per cent of the usual number of cattle fed in that locality the coming winter. The first cause of this shortage is the great amount of hay bought up on the Butter Creek farms, by Heppner people, as a result of the loss of crops by the cloudburst, and the second cause is a natural shortage in the alfalfa crop, in the Butter Creek district.

Hay is now selling in the field, in the Echo district, at \$6 per ton, while last year, at this time, it could be bought for \$4.50. The crop is estimated to be about 20 per cent of the usual amount, fed out to beef cattle during the winter season.

There has been an increase of 20 per cent in the alfalfa acreage, in the Butter Creek and adjacent alfalfa belts, this year. Almost every farmer in the locality has plowed out and seeded alfalfa, or clover, or alfalfa and clover, and the water supply is sufficient to irrigate an increase of about 20 per cent of the usual number of years, there is also a gradual increase in the ditch mileage, each season.

The Butter Creek country is more fortunate in that one good winter flooding will produce two crops. Less water is required to grow alfalfa, in this district, than in any other locality on the Pacific Coast.

There is very little movement in the beef business this fall, on account of the high price of hay. No calves or better stock are changing hands, and those who have both hay and cattle are holding on to them.

Last year over 150 carloads of fat cattle were shipped from the Echo country to the Sound and Portland markets. This year it is estimated that not over 75 or 80 cars will be fed, reducing the output of the district from about 4,000 head fed and shipped last year, to about 2,500 head this year.

JOHN DAY COUNTRY IS NOT UNDERSTOOD. Has Vastly More Possibilities Than Generally Supposed—Its Greatest Needs Are Railroads and Systematic Development—The People Now Living There Are Prosperous.

J. B. Despain and James Spence have returned from an eight-day trip into the Ritter and Long Creek part of the John Day country, and report that the country is mountainous and rough, but is settled in a scattered way. Looking from peak to peak, it would seem as though there could be a good living there at any point, so rough and shaggy is the land, but on closer inspection it is found that little ranches are nestled here and there in the heart of the mountains, and all the inhabitants are prosperous and doing well.

The farms there are not situated in the valleys as here, but are perched on the tops and sides of the mountains—hung here and there in the little cups and hollows of the canyons. Fields are cultivated from 20 to 100 acres are cultivated in this way and in these fields almost everything can be raised. Corn and tomatoes and melons are raised, and wherever there is no rock, be it on top of the highest mountain or in the valley, grain can be grown with profit. It is a curious and at the same time a wonderful country.

The chief interests of the country are centered in the stock business, and all of the corn that is raised there is cut and saved for the winter feed of the cattle. It is shocked in the fields and allowed to stand until dry and is then fed to the animals as needed. It makes better feed than anything else that can be raised, and the stock fatten faster on less feed when they are fed on the corn, than by any other means.

BOWMAN IS BUILDING A STRICTLY MODERN BLOCK. Equipped With Cold Storage, Sample Rooms, Furnaces, Light and Air Shafts—Every Room in the Building Will Have an Exterior Frontage—Will Have an Elevator.

The workmen are now doing the excavating for the basement of the new Puri Bowman building, and as soon as the dirt has been removed the construction of the building will be started. When the place is done it will be the largest and the most modern of all of the business blocks in the city.

Commencing at the basement, the house will be built on a solid and substantial plan. The foundation will be built of native stone and will be massive in proportion. The main floor, basement will be divided into several sections, and in the middle will be located the furnaces and the machinery for the power plant.

The floors of the basement will be made of cement. The front part of the basement will be given to the store, and the rest of the basement, and the back part will be used as storage rooms, or sample rooms.

The first floor will be divided into store and sample rooms. In the part of the building fronting on Main street will be two rooms, one of which will be used for a saloon and the other for a retail establishment.

On the other end of the same floor will be two large sample rooms, 16x50 feet and a cold storage room 50x50 feet in size.

The second and third floors are duplicated in arrangement, the second having 42 rooms and the third 44. All of the rooms will be large and comfortable, and will be modern in every way. There will be lavatories in each room, with hot and cold water; also electric lights and telephone service.

In the part of the building facing the river an air shaft extending from the basement to the roof, and into this will be let the ventilating apparatus of the north side of the building, which will give light for the store rooms and the side rooms in the event of the erection of another building along the side. Besides this light shaft there will be large skylight that will give light for the inside rooms.

It is according to the plans as now drawn, an elevator in the center of the building for the accommodation of the guests and the convenient handling of the baggage.

The building proper will face the depot grounds and will be built of pressed brick on the Main street and

RANGE DROWING UP

PAST WEEK HAS BEEN VERY HARD ON GRASS.

Harvest Under Way All Over Eastern Oregon—Yield Much Better Than Expected—Hops Dropped With Lice—Prunes Not Falling so Badly as Usual.

A few small showers occurred Sunday in the Willamette valley, but other than that the week has been dry, with temperatures averaging slightly above normal. The rains were insufficient to be of much benefit to the alfalfa and pastures, which are now beginning to dry out badly. Feed is getting short on the ranges, and the supply of milks is decreasing in the dairy districts. Stock, however, continues doing fairly well, and cattle, as a rule, are in good flesh. An average second crop of alfalfa has been harvested in southern sections. There is some hay yet to be cut in the coast counties, but having in general is now completed, with satisfactory yields in all parts of the state.

The grain harvest is being pushed everywhere. In the Willamette valley the yields are especially good, and in Eastern Oregon they are much better than expected, although not averaging a heavy yield all over. Spring grain ripened under favorable weather conditions, and the heads are well filled with plump berries.

Late-planted hops and gardens need rain, and although they are more numerous than usual, the vines have not been injured to any extent, and the crop is being harvested fairly well. Prunes are not dropping so badly as they did during the previous week, and this crop will be an extra good one. Bartlett pears are also very promising. Apples are quite uneven, and it is expected the yields will be less than the average.

Columbia River Valley. Condon, Gilliam county, F. B. Stevens.—Weather moderately warm; crops are doing well; alfalfa is being cut; grain is being harvested; good crops.

Sinnahso, Wasco county, J. O. Ash.—Weather very warm; alfalfa is being cut; grain is being harvested; good crops.

Ridgeway, Wasco county, M. U'hen.—Weather very warm and sultry; alfalfa is being cut; grain is being harvested; good crops.

Plateau Region. Post, Crook county, J. B. Meyer.—Hay is doing well; garden crops growing nicely; last crop averages shorter than last year; range very dry and feed scarce; apples will be a fair crop, but not affected with scale to some extent.

Owyhee, Malheur county, J. M. Harris.—An excellent second crop of alfalfa is being cut; grain is being harvested; good crops.

Lakeview, Lake county, W. E. White.—Weather very warm; alfalfa is being cut; grain is being harvested; good crops.

Through the Waide Agency. Eight Transfers of Real Estate Within a Week.

E. T. Wade has closed a few deals in the last few days: For James R. Marple, lots 7 and 8, block 22, Reservation addition.

EXCELLENT QUALITY.

Reservation What Harvest is Not Heavy, But is Superior.

Alex McTae is threshing the crop on the farm of Thomas Thompson, on the reservation, and is doing the work with his new harvester. Mr. Thompson, in speaking of the work of the new machine, says it is doing good work and will do better. One or two small overights in the construction caused some delay at the outset, but these were quickly overcome, and now the machine is working from day to day without any trouble to the men running it.

The wheat on the reservation is of fine quality and is running from 25 to 30 bushels. Most of the harvest is over and ready for the market, and in a short time the wheat will be in to move to the warehouses and the mills. While the yield is not as heavy as it has been in the years past, it is all of the best quality and full and plump. Mr. Thompson will not be through with his harvesting for several days yet, but is well satisfied with the season's work.

WEDNESDAY'S LOCALS. James Hill, of Helix, spent yesterday in the city on business.

Ben Marlin, of the Cottage hotel at Beacham, is a visitor today.

Miss T. Dillon, of Walla Walla, is the guest of Pendleton friends.

Joseph Cuhla, of Echo, was in the city on a short business trip.

William Gilman, of Heppner, was a business visitor in the city yesterday.

Mrs. Mary Bridges, of Freewater, is in the city visiting friends for a few days.

J. W. Cronin, of Meacham, was in the city yesterday for a short visit on business.

Miss Martha Llewellyn, of Adams, is visiting friends in Pendleton for a few days.

J. R. Kilgore, of Weston, was in the city yesterday for a short time on business.

NEWS OF ATHENA

DEAN DUDLEY INJURED. AT A WHEAT WAREHOUSE.

Will Visit in California—Visitors From Indiana—Death of Archie McIntyre's and Alvin Turner's Infants—A Fifteen-Pound Baby Boy Was Born—Many Goings and Comings Among Athena People.

Athena, Aug. 16.—Miss Fraker, of Pendleton, was the guest of Mrs. J. P. Plamondon of this city last Sunday.

Master Dale Worthington, of Portland, is visiting his cousin, Emory Worthington, of this city.

The infant son of Archie McIntyre, which was born August 11, died Thursday, August 13.

Ed Kooz, of this city, made a business trip to Portland Monday evening.

The families of S. J. Robinson and H. O. Worthington will leave next week for a outing in the mountains where they expect to have an enjoyable time hunting buckberries. Miss Bertie Miller, a niece of Mr. Worthington, will accompany them.

One day I happened to be at my father's store, S. A. Birch, Coresville, Albion county, Va., and noticed your medicine had there for sale.

"I thought it might help my wife, so I brought a bottle of it home and within a week she commenced to eat, and she is hungry all the time and not half the medicine has been taken. We both agree that it beats any medicine I have ever used, and it has put me in good shape that we have ever had anything to do with. We had our family doctor to give her medicine and he did all he could, but she did not improve the

least. She has consumption in her lungs and she is in such bad shape; so I run down, nervous, weak, and could not eat. I had begun to get very uneasy, but your medicine made an entirely new woman of her. I believe she eats and feels better now than she has for years.

"I have not the slightest doubt but that your medicine has saved her from a long spell of sickness. If nothing more. All my family had begun to get uneasy, but, of course, she did not know it and I have only just told her of it since she has improved so much. I had no idea it would do half what it has and don't think there is another medicine made that will begin to compare with it."—W. E. Birch, Fruit Grover, Athena, Albion county, Va.

If you do not derive prompt and satisfactory results from the use of PERUNA, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

THE REX RHEUMATIC RING. Removes the cause. Price \$2.00. A postal card will bring you little booklet that tells the story. LOUIS HUNZIKER, Agent, Pendleton, Ore.

CHINAMAN TO LECTURE. Official of Chinese Reform League to Be in Walla Walla.

Walla Walla, Aug. 19.—Within a week Leung Kai Chew, vice-president of the now gigantic Chinese Reform Association, will arrive in Walla Walla to lecture before the local club of that institution. He will lay before the Chinese the plans, aims and successes of the association. The lecture will take place in the Chinese Reform Hall in Alder street between Second and Third streets. The local secretary, Doug Chow, is making preparations to receive the distinguished guest who, in addition to being vice-president of the largest fraternal order on earth, holds the fourth position in the civil service of the Chinese empire. His position is one of the highest a Chinaman can aspire to.

Wife Beater Wanted. Considering that he had a right to do as he pleased with his own property, Tom Denton, who lives up Mill creek, took it into his head Saturday night that his wife, a woman of good whipping and proceeded to do so. The Dalles Chronicle, Grabbing hold of her hair he succeeded in jerking when she swore out a warrant for his arrest. Sheriff Sexton and Marshal Crate are on the lookout for him and will pay him back in his own coin when they get their fins on him.

Visiting at Meacham. Robert Farnell and J. E. Goodrich, of Treston, Mo., father-in-law and brother-in-law of Ben Marlin, proprietor of the Cottage Hotel at Meacham, are now on a visit at Mr. Marlin's. They expect to remain in the county for a couple of weeks before returning home by way of Spokane and Seattle. Mr. Farnell is a subscriber to the Weekly East Oregonian for 10 years and is highly pleased to find that the wealth and resources of Umatilla county are up to the standard and even better than represented.

Three Delegates Appointed. Yesterday Governor Chamberlain called at large to the National Irrigation Convention to be held in Ogden on September 15-18. Mayor Halley, some time ago appointed Judge Hartman and E. J. Sommers, delegates from the city of Pendleton. This year yet remains unappointed. In Umatilla county, two delegates from the county court, two from the Columbia River Valley Irrigation
