

COMMERCE - TRADE

EXPORTS OF FLOUR AND WHEAT ALMOST CEASED.

Market for Wheat and Barley Both Steady—A Drop in Wheat is Predicted by Authorities in the General Markets—The Green Groceries Market and Local Market Generally is at a Standstill.

For the first time in the history of things, there is no change in the whole list of the markets for the week. Perhaps the grocers have the idea that the wheat market is as they wish them to be. At any rate, they note no changes in their stock, and nothing new has come in, and nothing new is expected. It is quiet, and standing for a time until the fall time of change sets in, and until then the housewife will have to pay what is noted below for what she buys for her household use.

Pendleton Retail Grocery Prices.
Coffee—Mocha and Java, best, 50c per lb.; next grade, 45c per lb.; lower grades coffee, 35c to 50c per lb.; package coffee, and 20c per lb.; 3 packages for 50c.

Rice—Best head rice, 12½c per lb.; next grade, 10c per lb.
Sugar—Cane granulated, best, 16.50 per sack; do, 13 pounds, \$1.
Salt—Coarse, \$1.10 per 100; table, \$2.50 per 100.

Flour—B. B. \$4.40 per barrel; Walter's, \$4.40 per barrel.
Wheatmeal, 25c each.
Muskellons, 50c each.
Apples, 5c box.
Peaches, 7c pound.
Peach plums, 5c.
Tomatoes, 5c pound.
Green corn, 20c dozen.
Green beans, 5c pound.
Onions, 15c.
Cabbage, 3c pound.
Carrots, 2c pound.
Green apples, 3c lb. box.
Pumpkins, 2c each.
Potatoes, 15c per hundred.

Pendleton Livestock, Poultry and Produce Market.
Chickens—Hens, 7c; \$4.00 per dozen; roosters, 4 to 6 cents.
Geese, per dozen, \$9.
Ducks, per dozen, \$9.
Butter, 40c to 60c, good.
Eggs, 20c.
Garlic, 15c per pound.

Choice Beef Cattle, Etc.
Cows, per hundred, \$25.00 to \$27.50.
Steers, \$25.00 to \$27.50.
Hogs, live, \$5.00 to \$5.50.
Hogs, dressed, 7.00 to 7.50.
Veal, dressed, 7.00 to 7.50.

Portland Grain Market.
Portland, Aug. 27.—Wheat—Millers are the only buyers at present; exporters have dropped out of the market and are waiting until the wheat needed, as they claim that prices are too high to buy or speculate on. Prices will ultimately take a drop, a great many in the trade claim, as the export value today is only about 45c for club. The main reason for this is that the basis of 75 to 80c at tide water. Blue stem is being bought from 85c to 90c and valley 90c per bushel. At these prices, farmers should feel that they are doing pretty well, but the majority of the growers want 75c for club at home; this means from 55c to 60c per bushel. This price may be paid, but it is rather doubtful.

Conservative dealers in the trade think that about 6,000,000 bushels of wheat of this crop will be used for export, the balance for flour. California will, no doubt, call on us for wheat, as their crop will hardly come up to 15,000,000 bushels. It looks as if the days for wheat raising in that state are over, farmers paying more attention to barley and fruit.

Flour—Market is firm and the demand is beginning to subside. It has taken time for the forelock and secured plenty of flour to last them the balance of the year. There is no demand from any other section of the world. California shipments from Portland are fair, but Puget Sound is shipping down quite extensively good lots of flour. Quotations locally are from \$4 to \$4.30 per barrel.

Millstuffs—The demand continues quiet for bran; it is firm with a fair demand. California being a good buyer for all our surplus, and a great many country mills cannot fill orders, calling on jobbers here to help them out. Quotations for bran is \$22.50 per ton; shorts, \$22 and middlings, \$26.50 per ton. Millers do not look for any change of price, but many think that the price will go up before a drop is recorded.

Barley—This market is very strong, according to sellers' ideas, but buyers cannot see it, prices are too high to transact any business, and whenever sellers come down in their views, traders call on jobbers here to help them out. Quotations for barley are \$1.10 to \$1.15; feed quality and \$1.10 to \$1.14; has been paid. It is difficult to secure choice lots of feed. Receipts are quite heavy. Two high millers purchase freely at list prices; farmers are not free sellers. It is very doubtful whether very much wheat will be exported this season. The crop is hardly large enough to meet the milling demand. Shipping grades command \$1.45 to \$1.47; milling, \$1.52 to \$1.60 per cental.

Barley—A fair demand exists for feed qualities and \$1.10 to \$1.14; has been paid. It is difficult to secure choice lots of feed. Receipts are quite heavy. Two high millers purchase freely at list prices; farmers are not free sellers. It is very doubtful whether very much wheat will be exported this season. The crop is hardly large enough to meet the milling demand. Shipping grades command \$1.45 to \$1.47; milling, \$1.52 to \$1.60 per cental.

San Francisco Markets.
San Francisco, Aug. 27.—Market for wheat is very firm and without change. Shippers are buying very sparingly, as prices are too high; millers purchase freely at list prices; farmers are not free sellers. It is very doubtful whether very much wheat will be exported this season. The crop is hardly large enough to meet the milling demand. Shipping grades command \$1.45 to \$1.47; milling, \$1.52 to \$1.60 per cental.

Wool Markets.
Boston, Aug. 27.—The volume of actual trade in the wool market here this week was only moderate. Prices however, were firmly held, and there is no weakness in any direction. Quotations: Territory, Idaho, fine, 14½ to 15; fine medium, 14½ to 14¾; medium, 14 to 14½; Wyoming, fine, 14 to 14½; fine medium, 13½ to 14; medium, 13 to 13½; Utah and Nevada, fine, 15½ to 16; fine medium, 17 to 17½; medium, 15 to 15½; Montana, fine choice, 21 to 22½; fine medium choice, 19 to 20½; staple, 20 to 21½; medium, 20 to 21; Colorado and New Mexico, etc., fine, 11 to 12; fine medium, 14 to 15; medium, 16 to 16½.

Daughter Born.
August 22 there was born to Mr. and Mrs. G. W. Olmstead, of McKay, an 8-pound daughter.

BREVITIES.

See Sharp for paper hanging. See Sharp's artistic wall paper. Are you going to Lehman Springs? Ladies' half sales 40c. Teutich's. Why don't you go to Lehman Springs.

New books arriving daily at Frazer's book store.
Buy a fountain pen this week at half price at Frazer's book store.
Plenty of Uncle Sam's flags for Labor Day. Lowest prices. Noll's.

Wanted—Fresh milk cows. Apply to S. M. Richardson, Pendleton, Ore.
See Charles Lane about your painting and paper hanging, 807 Vincent street.

Miss L. Ritter, of Walla Walla, is in the city on a short visit with friends.

At and below cost all summer, military, especially patterns. Mrs. Campbell.

Mrs. A. L. Smith, of Walla Walla, is in the city the guest of friends for a few days.

Mr. and Mrs. L. H. Kretzer, of The Dirs, are the guests of Pendleton for a short time.

Estimates given on short notice on painting and paper hanging. Charles Lane, the pioneer painter, 807 Vincent street.

Good meat in summer must be taken care of. That's the kind you get at Housers', Alta street, opposite Savings bank.

Robert Standfield, of Echo, returned to his home this morning for a trip on business connected with his interests there.

Miss Julia Hallard left this morning for Portland, where she will be the guest of friends and relatives during her vacation.

Strayed—Gray horse, weighs about 1,200 pounds, branded P. O. on left side. Will pay liberal reward for same. P. T. Hales, Adams P. O.

C. G. Morey, one of the teachers in the schools of Umatilla, was a visitor in the city today, renewing his acquaintance with his friends in this place.

Mrs. R. H. Wilcox and children returned yesterday from a visit with relatives and friends at Independence, where they have been for the summer.

Mr. and Mrs. F. J. Crawford and children returned last night from Nye Creek and Albany, where they have been visiting friends and relatives for a few weeks.

Dr. and Mrs. W. G. Cole left this morning for Ranier, where they go to bring home their children. Will also bring home a new horse and a fine cow. Mrs. Cole returned several days ago.

Miss Edna McGinn has returned from a visit of several months with friends in Portland. Miss McGinn will leave in a short time for Minneapolis by way of Seattle, where she will be the guest of friends for a time.

MILL SITE MOVED.

W. H. Fletcher Purchases Large Tract of Timber Six Miles From Old Site, on Weston Mountain.

W. H. Fletcher, who has operated a sawmill in Umatilla county, in the vicinity of Weston Mountain, for 15 years, has recently purchased a large body of timber land, consisting of 940 acres, on the main branch of the Weston to Elgin, and will move his mill from the present site at Cold Springs to this new location, six miles distant.

A new water power plant will be installed for the purpose of running the electric light plant for the works. The capacity of the mill will be about 20,000 feet per day, and the box factory, which forms one of the main features of the mill, will have a capacity of 5,000 boxes a day.

The box factory is operated altogether on the night shift, and supplies all the surrounding fruit districts. The capacity of the mill will be about 20,000 feet per day, and the box factory, which forms one of the main features of the mill, will have a capacity of 5,000 boxes a day.

The heating plant at the court-house has never given satisfaction since it was installed, and has been a source of nuisance to the building, for the reason that only one or two of the rooms in the house could be warmed by the furnace. It has been found necessary to reconstruct the whole system in order to get any work out of the plant, for the old system is so constructed that it cannot be changed in its present location.

The changes will cost several hundred dollars, but will pay for themselves in a short time, for it is much cheaper to reconstruct the whole system in order to get any work out of the plant, for the old system is so constructed that it cannot be changed in its present location.

Notice to Tax-Payers.
Pendleton, Oregon, August 27.—Notice is hereby given that the board of equalization of Umatilla County, State of Oregon, will meet at the office of the clerk of said county on the last Monday in August, and publicly examine the assessment rolls, correct all errors in valuation, description or qualities of land, or other property. It is the duty of all persons interested to appear at that time and place. If it shall appear that the said board has any lands or other property are assessed twice, or in the name of a person or persons not the owner thereof, or assessed under or beyond its value, or any lands or other property not assessed, the said board shall make proper corrections.

C. P. STRAIN,
County Assessor.

Horse Taken Up.
Came to place about six miles north-west of Pendleton, April 17, 1903, one dark bay mare, had halter on, brand on top of head, hind feet white, two white on left hind foot, all round weight 1,000 pounds, age about 10 years. Owner of above described animal can secure same by calling at my place and paying all charges.
D. HOWDYSHILL,
Pendleton, Ore.

Entray Notice.

One large bay mare, branded "W" on left shoulder; shod in front; 8 or 10 years old. One gray horse branded "H" on right shoulder, shod in front, 8 or 10 years old, large bell on. The owner can find these horses at
R. R. COLLINS,
Kamela, Oregon.

Entray Notice.

There is now at my place on Meadow creek, Union county, one large sorrel work horse, 10 or 12 years old. White stripes in face, with collar and saddle marks. Owner will please come and get him and pay the bill.
A. H. SUNDERMAN,
Pilot Rock, Ore.

Ukiah Ranchers in Town.

J. A. Bolins and his uncle, C. Bolins, of Ukiah, were in the city today from their ranch on a business trip. The gentlemen have large places and come to this city for their supplies, which they take out by the wagon load.

Hay Press for Sale.

R. J. Boddy, the butcher at Athena, has a No. 1 hay press, full circle, practically new. Address R. J. Boddy, Athena, Oregon.

LABOR DAY PROGRAM

MUSIC, SPORTS, SPEAKERS AND A BALLOON ASCENSION.

The Ninth Cavalry Band, a Long List of Sports, Balloon Ascension and Parachute Jumping, and Speeches by Labor Leaders Will Entertain the People September 7.

The committee in charge of the Labor Day celebration are hard at work, and have arranged a program that will be the equal, if not the superior, of that which was arranged to have taken place here on the Fourth of July. The men have had the matter under their care for some time, and have put all of their efforts toward having a list of attractions that would not be ashamed of, and which would give to the people coming into the city on that day entire satisfaction.

The Pendleton band has been secured to help furnish music for the parade, and the famous Ninth Cavalry Band, that was here on the Fourth, will be here for the parade in the evening. The committee will furnish a brass band of 24 pieces, and in the evening at the ball which will close the entertainment for the day, the same band will furnish a stringed orchestra of 17 pieces.

The parade that will be given in the morning will be one of the largest of the kind ever given in the city. All of the business houses will furnish floats for the occasion, and all of the members of all of the labor organizations of the city will be in line. The carpenters and clerks and painters, the employees of the scouing mills, the Teamsters' Union, and in fact, all of the different branches of organized labor in the city will be represented in the line of march.

In the afternoon there will be a long list of sports. There will be bicycle and horse races and foot races and all kinds of specialties for the entertainment and amusement of the people. The committee will be glad to have all of the people come to the city to attend the festivities.

Professor William McClellan, of Pomeroy, will be here with his balloon, and will give on this day the same exhibition that he has given in other parts of the country. He will be in the city Monday afternoon, Mr. Kelleher is an employee in the office of the bridge and building department of the O. R. & N. of this city, and his bride is a resident of Portland.

Mr. Kelleher went to the city not long ago for a vacation trip, and when he returned this morning brought with him his bride. Mr. and Mrs. Kelleher will reside in this city.

Suicide Prevented.
The startling announcement that a preventative of suicide had been given to a man who was about to jump from a bridge over the river, was a very interesting and convincing speaker, it is expected that the man will be not only pleased, but entertaining as well. In addition to Mr. Horan, Judge Stephen A. Lowell, A. D. Stillman, and Walter Gray, all of this city, will make short talks on the subject of organized labor. These gentlemen are too well known here to need any introduction. The committee is very glad to have them in the city, and they will be a very interesting and convincing speaker, it is expected that the man will be not only pleased, but entertaining as well.

THE COURTHOUSE HEATING PLANT BEING OVERHAULED.
Walla Walla Firm Doing the Work—Old Plant Never Giving Satisfaction—Changes Will Result in a Great Saving of Fuel.

C. Joy and several assistants, are busy at the courthouse remodeling the heating system. The men are the representatives of the George H. Sutherland Company, of Walla Walla, and are working on the heating plant at the Hotel Pendleton, where they have been engaged for some time in putting in a new steam plant and pipes for the heating of that hotel.

The heating plant at the courthouse has never given satisfaction since it was installed, and has been a source of nuisance to the building, for the reason that only one or two of the rooms in the house could be warmed by the furnace. It has been found necessary to reconstruct the whole system in order to get any work out of the plant, for the old system is so constructed that it cannot be changed in its present location.

The changes will cost several hundred dollars, but will pay for themselves in a short time, for it is much cheaper to reconstruct the whole system in order to get any work out of the plant, for the old system is so constructed that it cannot be changed in its present location.

Death of an Infant.
Raymond Pease, aged 2 months, the infant son of Mrs. Lizzie Pease, died at the home of his mother yesterday morning at 10 o'clock. The remains were taken to Adams this morning and will be buried there.

We sell the greatest of blood purifiers, Ackers' Blood Elixir, with a positive guarantee. It will cure all chronic and other blood poisons. If you have eruptions or sores on your face or are pale, weak or run down, it is just what you need. We refund money if you are not satisfied. 50 cents a bottle. F. W. Schmidt & Co., druggists.

AT OREGON'S FARM

EXPERIMENT STATION NOW IN ITS GLORY.

Over Five Hundred Tons of Hay Stacked This Year—Experimental Area Comprised 207 Acres—Seed Will Be Saved and Sold to Farmers at Cost.

The farm at the Eastern Oregon Experiment Station at Union, is now a fragment of Elysium. At no other spot in the state, and perhaps not in the Northwest is there such a variety of mingling hues, and flaming bouquets of bloom so highly cultivated and so tastefully intermingled, that it is almost impossible to say where one dream ends and another begins.
