RELIANCE WINS THE THIRD RACE

Crosses the Line One and One-Half Minutes Inside the Time Limit.

AMERICAN IS AHEAD FROM START TO FINISH.

Race Started in a Drag, Continued in a Brisk Wind, But Was Expected to End in a Fumble—Third and Last Race of This Series, and Holds the Cup.

Highlands, Sept. 3.—Prospects for a race today are good. A two-knot breeze was blowing at 9, but at noon it had increased to about seven knots.

Got a Late Start. Highlands, Sept. 3.—Shamrock crossed the line at 12:01. Reliance was seconds later, unofficial time. Reliance held the lead, outpacing Shamrock.

Promises Another Fluke. After waiting until almost the last minute granted by the rules, Reliance and Shamrock started today in a race that promises to be another fluke. The racers went to the starting line at the usual hour, but the wind was only blowing two knots. As the day wore on, the wind increased, but very slowly. Soon, however, it had taken a velocity of about six knots an hour, and the yachts hurried away on a course of 15 miles to windward and return.

Off at the Time Limit. A haze hung over both boats when the starting gun was fired. The official time of the start was: Reliance 12:01:56; Shamrock, 12:06:20. The wind freshened a bit, but was not steady. Reliance continually draws away from Shamrock, and a half hour after the start was nearly an eighth of a mile in the lead. Managed to sail, not to windward, but fore-reached on the Englishman, and as in previous races, held her head right and slipped along faster than the challenger. At 2 the wind was blowing eight knots, and if it holds out the yachts should finish by 5:30, the time limit.

It is Reliance's Race. At 2:25 Reliance has the windward position, is half a mile in the lead and outpacing and outpointing Shamrock. At 2:34 Reliance is still increasing her lead. Reliance turned the outer mark at 3:01; Shamrock two minutes later. Reliance has Long Lead. At 3:50 Reliance is now flying some with all sail set and about a mile and a half in the lead. At 4:04 Reliance is still outpacing Shamrock and nearly two miles in the lead. Will finish before the expiration of the time limit. At 4:25 Reliance is spinning along at a good clip, about seven miles from the finish. At 4:30, if the wind holds Reliance should finish in about an hour. A Fluke is Expected. At 5:05 Reliance is two miles from the finish. It is now doubtful if she can finish on time on account of the fog. Reliance Wins. Reliance crossed the line at 5:28:59, thus winning the third race, the end of this series.

FOURTEEN THOUSAND MEN IN MILITARY CAMP.

Scene is Upon the Largest Military Reservation in United States, Where There Are Quarters for Eight Thousand Men.

Junction City, Kan., Sept. 3.—The most unique camp in the history of warfare, military or naval, is planned for the maneuvers at Fort Riley. Between this point and the positions of the various organizations will be sufficient space to hold a review of the entire 14,000 troops that will be assembled.

Few people are aware that at Fort Riley, 125 miles west of Kansas City, is maintained a post that represents the largest outlay of money of any two other posts in the United States. Here are barracks for 8,000 privates and quarters for a proportionate number of officers. Here also is the largest riding hall, military or otherwise in the world, as well as the largest dining room. In the dining room is table space for 2,000 persons, and more than that number have eaten therein at one time.

WHICH WILL GET THE TERRITORY

DECISIVE VOTE MAY BE CAST BY ALVERSTONE.

Deadlock May Be Followed by Compromise—Proposed United States Pay Canada Cash for Disputed Territory—Belief Prevails in London That America Will Get the Decision.

London, Sept. 3.—Thirty persons, including the secretaries and counsel of England, were chosen president; Lord Alverstone, lord chief justice of England, was chosen president; Reginald Tower, the British minister to Stuttgart, secretary; John Carter, of the American embassy, and Pope of the Canadian office, are assistant secretaries.

The next meeting will be held the 15th, when the Canadian arguments will be heard. The meetings will all be open to the public.

The general belief is that the United States cannot lose. The three American commissioners will probably favor the United States, same as the Canadians will favor the Dominion, and the result therefore, depends on Alverstone. If he agrees with the Canadian challenge, it is a deadlock. The result may then be a compromise.

knowing to the United States is false. Continuing: "This gratuitous assertion there is no proof to sustain. It has been said if the Canadian government had instructed British vessels to disregard these regulations there would have been grave danger of serious conditions. There undoubtedly would have been collision. Just as certainly as if they had been instructed to disregard the regulations of the port of New York.

LARGEST CONSIGNMENT EVER SENT TO ORIENT.

There Was Nearly Fifty-Eight Thousand Barrels in One Cargo, Besides Thousands of Dollars Worth of Other Merchandise.

Portland, Sept. 3.—When the China steamer left her berth, shortly after 9 o'clock this morning, she carried the largest shipment of four ever from the Pacific Coast. She had exactly 57,577 barrels, representing a value of \$173,931.

The steamer carried a total of 14 passengers, all steerage. 11 of them Chinese went upon a junk into the sunny Orient, and three of the last permitted Japanese who were not allowed to land here, failing to qualify under the stringent examinations to which they were subjected by Immigration Inspector Barber. The Celestials comprise the entire number of travelers, the junk not taking out any Caucasians this trip.

All her cargo was not stowed aboard, as her register showed she was drawing over 22.5 feet of water, and it was deemed advisable by the pilot and officials of the Portland-Atlantic company, to lighten 200 tons. This was loaded upon a barge today and will be towed to a vessel belonging to the British steamship Indrapura. The British steamship Indrapura will be the next of the fleet in port.
