We drink the cup of life as it is pressed to our lips, be the draught bitter or sweet, and not until the last drop is drained and the cup shattered shall we know why or wherefore. If the hope that the answer when it comes will repay us, enables us to endure, we should cling to it, irrespective of the cynical sneers of the devil and his imps.—Anonymous.

IRRIGATION AT ECHO.

Westerners who are accustomed to founding empires in a day, grow impatient with the slow process of the scientist, the expert and the specialist.

The cautious steps of the government in the irrigation movement in the West, seem to be unnecessary delays, to many of us, who are so deeply interested in the reclamation of the idle deserts.

The hardy pioneers who have laid the foundations of the state, feel that some results should be immediately forthcoming from the work of government.

But the government should not be censured for going slow. The entire scheme of government irrigation depends upon the success of the first efforts.

The Echo tract is reclaimed within two or four years, this will be a short time to wait, compared to the time already past, in which irrigators have hoped for government aid.

The Echo reservation has the advantage over all the other withdrawals in Oregon. It is situated on the main line of a transcontinental road.

Every homeseeker that passes through Oregon will ride through the midst of the reservation. Its success will be the greatest advertisement ever issued in the interest of Eastern Oregon.

DO YOU GET UP WITH A LAME BACK? Kilmey Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmey's Swamp-Root, the great kidney, liver and bladder remedy.

It is the greatest medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmey, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmey's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need.

It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble.

When writing mention reading this generous offer in this paper and send your address to Dr. Kilmey & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists.

There is one scheme to come before the irrigation congress, which meets at Ogden on September 15, that should be defeated. This is a scheme to have the government provide an appropriation of several millions of dollars to add to the accumulated national irrigation fund.

WISCONSIN'S CURE FOR CONSUMPTION

A practical manner, it is sufficient for all present purposes. The land that is reclaimed must pay back to the government the cost of reclamation, and the extra burden of an appropriation should not be added to the cost. Just let the West reclaim itself. That is all she asks.

Union county farmers are realizing a profit of from \$5 to \$6 per month from their milk cows.

Hillsboro, in Washington county, boasts of the distinction of having established the first condensed milk factory in the state of Oregon.

Double blessed with high prices and good yields this year, the farmers of Umatilla county should build more and better permanent homes in this city this fall, than ever before.

The reclamation of the Echo reservation means the establishment of a sugar factory somewhere in Umatilla county.

The departure from Portland, each month, of the cargoes of Oregon flour, for the Orient, means that more and must be opened to settlement in the West, to meet the increasing demand of the foreigners for American products.

Every nation on earth eats her bread and wears her wool.

CHRONIC SORES

Signs of Polluted Blood.

There is nothing so repulsive looking and disgusting as an old sore. You worry over it till the brain grows weary and work with it until the patience is exhausted, and the very sight of the old festering, sickly-looking place makes you irritable, despondent and desperate.

A chronic sore is the very best evidence that your blood is in an unhealthy and impoverished condition, that your constitution is breaking down under the effects of some serious disorder.

Often an inherited taint breaks out in frightful eating sores upon the limbs or face in old age or middle life. Whenever a sore refuses to heal the blood is always at fault, and, while antiseptic washes, salves, soaps and powders can do much to keep down the inflammation and cleanse the sore, it will never heal permanently till the blood itself has been purified and the deadly germs and poisons destroyed, and with S. S. S. this can be accomplished—the polluted blood is purified and invigorated, and when rich, pure blood is again circulating freely throughout the body the flesh around the old sore begins to take on a natural color, the discharge of matter ceases and the place heals over.

S. S. S. is both a blood purifier and tonic that puts your blood in order and at the same time tones up the system and builds up the general health. If you have a chronic sore write us. No charge for medical advice.
