NO. 77

IRRIGATION AND POLITICS

Both Subjects Afford Material for a Most Interesting Interview.

MEMBER FROM THE SECOND DISTRICT HAS THE FLOOR.

Magnitude and Uncertainty of Irrigation Experimental Work—Cost Is Not Understood by the Public—Reservoir a Mile Long May Be Built at Echo.

Congressman J. N. Williamson was at the depot this morning awaiting for a train to take him to the Dalles. In fact, he has been waiting for some time, but the train has failed to put in an appearance...

"Well, young man," said the man from Washington, as he artfully pointed his foot, "the more I see of the situation the more I am inclined to believe that it is now some time before the water flows. I myself had no idea of the immensity of the task until I spent some days with the engineers...

"Now take the Echo proposition," and the speaker traced lines in the sand with a stick. "Take that proposition down there, and you see how big a thing it is. There is the river, and 30 miles below is the place where the reservoir can be put in if the conditions are all right and good."

"The irrigation of this country has resolved itself into the storage of the waste or flood of the winter season, and for that purpose reservoirs must be built large enough to hold all the water that comes down in the winter time. And canals must be built that will carry all of this water to the place of storage. So you can see the magnitude of the scheme and the responsibility upon the men who are investigating the problem."

"Fardon me for suggesting it, but I think that it is the duty of the papers to educate the people as to the vastness of the work, and the cost of it. The question that is now coming before the engineers is whether or not the land to be benefited will justify the expense. In other words, will the land that it will be able to throw off the burden of the cost of the work, or will the debt imposed on the land be too heavy to bear?"

"The irrigation of this country has resolved itself into the storage of the waste or flood of the winter season, and for that purpose reservoirs must be built large enough to hold all the water that comes down in the winter time. And canals must be built that will carry all of this water to the place of storage. So you can see the magnitude of the scheme and the responsibility upon the men who are investigating the problem."

DAMAGE CLAIMS FILED AGAINST GOVERNMENT.

Truck Patches and Windows Suffer Along the Coast of Maine—Claimed That One Man Has Been Driven Insane.

Portland, Me., Aug. 31.—Claims aggregating hundreds of thousands of dollars will be presented against the government as a result of the combined manuevers on account of damage to truck farms and windows broken by cannonading.

The claims, moreover, will not be confined to those of this character. It is asserted that Jonathan Hillhouse, who was recently discharged from the insane asylum as cured, has been driven insane again by the noise and excitement. Hillhouse owned a small cabin near which a shell exploded. The direct damage done was considerable, but Hillhouse being in a nervous, convalescent state, was very unfavorably affected by the noise, which was an entirely novel experience for him.

He hid in his cottage, crouched under his bed, from the beginning of the manuevers until neighbors, alarmed at his protracted absence, searched and found him the day before the manuevers ended. His condition is pitiable. He has every appearance and the actions of a man terrified nearly to death.

The government officials profess to believe that the pecuniary damage, mostly to truck farms and windows, will hardly exceed \$15,000, and will recommend remuneration amounting to about that figure, if they adhere to expressions made before the sailing of the fleet.

The manuevers are by no means popular with the populace, who refuse to be placated by representations that the whole affair is destined to settle the problems of offensive and defensive war which this neighborhood offers on account of its proximity to the lines of attack that would probably be followed in the event of a war with England. They say the contingency is too remote to be weighed.

After the Magnates. European Railway Officials Threatened by Anarchists. Munich, Aug. 31.—The directors and five of the highest officials of the Bavarian state railway have been notified by the anarchist secret committee that all have been condemned to death.

Funeral of Salisbury. London, Aug. 31.—Lord Salisbury's funeral took place today at Hatfield. Simultaneously, memorial services were held at Westminster abbey, attended by the most distinguished members of the English nobility. Choate represented America. Representatives of King Edward, the Kaiser and other rulers were in attendance.

Bryan in Ohio. Lincoln, Neb., Aug. 31.—William J. Bryan denies that he has cancelled his dates to speak in Ohio in behalf of Johnson, and leaves tonight to take an active part in the campaign.

Fire in Tangiers. Tangiers, Aug. 31.—A big fire occurred in the Moorish quarters today, doing heavy damage. Six were killed in the panic.

King is Ill. Berlin, Aug. 31.—The King of Saxony is dangerously ill.

Will Take No Exceptions. Washington, Aug. 29.—The navy department has informed this morning that Admiral Cotton is now at Genoa coaling with the Brooklyn. The San Francisco is en route to Boston.

The state department has received informal assurances from all the powers that no obstacle will be placed in the way of America, regarding its mode of action toward Turkish territory. It is generally admitted the situation for aliens in Syria is grave, and it may even be called a verdict of guilty toward Syria for Admiral Cotton to land forces.

JURY FINDS THAT POWERS SHOT GOVERNOR GOEBEL. The Third and Last Trial of the Defendant—Others, Charged With Being Accessories, Have Either Disappeared or Migrated. Georgetown, Ky., Aug. 29.—The jury in the Powers case this morning returned a verdict of guilty of murder in the first degree, and recommended that he be sentenced to death.

Corrupting young members of the Y. M. C. A. while in steam baths in that institution at San Francisco. The circular also states that if Harper will resign and leave the city the charges will not be pressed.

Harper states that the conversations he had and visits to the baths were in the interest of morality and that the charges are false.

Murder and Suicide. Richmond, Ind., Aug. 31.—Frank Bates, Jr., shot and killed his fiancée Rena Gentry, today, and then suicided. Both are prominent.

Fire in Seattle. Seattle, Aug. 31.—Fire this morning damaged the Moses block \$50,000. It is owned by R. Sartoris. The origin of the fire is unknown.

Failure on Cotton Exchange. New York, Aug. 31.—R. Johnson & Co., members of the New York Cotton Exchange, announced a suspension this morning.

New Laundry for Walla Walla. The new machinery for the Troy Steam Laundry in Palouse street, has arrived and will be installed as quickly as possible. A force of men will start the work Monday morning and it is expected nearly everything will be in place by Saturday.

Homeward Bound. Montreal, Switzerland, Aug. 31.—Cardinal Gibbons has gone to Paris.

The Wall street flurry of some weeks ago, is denominated by the ruling classes on the street as "a rich man's panic." The result would have been disastrous to the whole country had it not been for the immense volume of currency in circulation among the common people, rendering them relatively independent of the shock.

COMPLICATIONS BESET THE PORTE

Macedonians Receiving Munitions of War From Odessa Via Austria.

Constantinople, Aug. 29.—The war office has authentic information that revolutionary outbreaks will occur at three points in Macedonia during the next week. Great precautions are being taken.

Christian Missions of Asia Minor in Great Danger—More Vessels Ordered to Beirut—Powers Serve Notice on United States to Go Ahead and Do as She Pleases.

Constantinople, Aug. 29.—The war office has authentic information that revolutionary outbreaks will occur at three points in Macedonia during the next week. Great precautions are being taken.

O. R. & N. FIREMAN MEETS DEATH

Crown Sheet on Freight Engine No. 304 Explodes With Fatal Results.

La Grande, Aug. 29.—Fireman F. B. Faust was instantly killed last night at Weatherly Station on the O. R. & N., 12 miles west of Huntington, by the explosion of the boiler of freight engine No. 304.

Engineer Harry C. Gilman was blown out of the cab window and severely bruised, and William Wade, head brakeman on the train, who was sitting on the fireman's seat at the time, was also blown out of the window and sustained severe bruises.

The engine was attached to train No. 21, and was just coming into the yards at Weatherly Station at 10 o'clock when, without a second's warning, the crown sheet of the boiler gave way, and the boiler head in the cab bulged out, blowing out the grates in the firebox, tearing the fire door from its hinges, and wrecking the interior of the cab.

The fireman was blown violently against the coal gate on the tender, and was instantly killed. The force of the explosion threw engineer Gilman out of the window, and he struck upon his head, but was able to come to this city on the delayed passenger train this morning and walk home.

The train was in charge of Conductor James A. Connor, who, with Rear Brakeman Ed Cross, escaped injury.

LA GRANDE WINS OUT. County Seat Election Will Now Be Held in Union County on the First Monday in November.

Judge Sears, of Multnomah county, sitting in place of Judge Eakin, of Union, who declined to pass upon its merits, has rendered a decision in the injunction case from Union county, in which the county clerk was enjoined from issuing the call for the special election.

The county seat was in Union county, but was a source of worry and expense to the citizens of that county for the past 20 years, and a final settlement of the question will come as a welcome relief to the taxpayers.

The county is now in debt something like \$200,000, and the people of Union based their hopes of defeat for the call for the election, on that portion of the statutes of Oregon providing that a county from incurring any debt exceeding \$5,000 without the assent of the voters.

The county is now in debt something like \$200,000, and the people of Union based their hopes of defeat for the call for the election, on that portion of the statutes of Oregon providing that a county from incurring any debt exceeding \$5,000 without the assent of the voters.

SEVERAL LIVES AND A VALUABLE CARGO LOST.

Grand Nephew of Senator Hawley Drowned—The Collision Took Place in a Dense Mist That Was Soon Disipated.

Stonington, Conn., Aug. 28.—The steamer Maine came in this morning with one of the crew of the three-masted schooner Booth, which was in a collision last night with the steamer Whitney, bound from Boston to New York. The schooner was sunk and five of the crew and one passenger were drowned.

The Booth was laden with a heavy cargo of manufactured leather goods and hardware novelties. The former will be a total loss, no matter how quickly the cargo may be brought to the surface. The hardware goods will not be injured by immersion. The leather goods are valued at upwards of \$60,000.

The collision took place in a dense mist that had collected after the two vessels had sighted each other, and which had been dissipated by the sun and wind before the schooner was struck. It took 20 minutes following the collision.

PARDONS BLIND CHINAMAN. Governor Chamberlain Exercises Clemency Toward Aged Murderer.

Salem, Aug. 29.—Wong Long, a Chinaman sent up from Clatsop county for 12 years for manslaughter, was pardoned yesterday afternoon by Governor George E. Chamberlain. He was received in 1900 and still had nine years to serve.

He was pardoned on the recommendation of the prison physician, Dr. J. D. Shaw, who called Dr. B. Gillis, an eye specialist, to examine him, and the latter pronounced him incurable and would soon be blind. Several months ago he exercised executive clemency in his behalf, in order that his people might have an opportunity to care for him and give him what medical aid is necessary.
