WOMEN'S SYMPATHY

Is Proverbial—Pendleton Women No Exception.

How much we owe to the sympathetic side of womankind! When others suffer they cheerfully lend a helping hand. They tell you the means which brought relief to them that they may profit by teir experience. Read the testimony given here by a Pendleton woman.

Mrs. L. Hodson, of 717 Aura street, says: "While my kidneys have never caused me any trouble which made itself apparent in the kidneys themselves nor in the secretions, I have been bothered more or less by an aching across the small of my back, then down and through my kidneys. When I caught cold it hurt me across my loins and made me feel lame and sore. I got a box of Doan's Kidney Pills at the Brock & McComas Co. drug store and used them. While I did not take them according to directions, being a poor hand to dose myself with medicines at all, they benefited me in every way, making my back stronger, and toning up my whole system."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

In the shipment there were 19 separate lots of cattle, and they were delivered to the city in separate bands, which brought quite a bunch of stockmen together at once. There were here H. H. Trowbridge and H. Laycock, of Izee; John Pearson, D. H. Briggs, Claude Steen, G. P. L. Smith and Robert Nelson, of Susanville; William Howard, of Camas; Ben Ogle, of Ridge; R. N. NO ACCIDENTS IN NATURE.

Every Calamity, No Matter How Great, Has a Definite Beginning.

There are no accidents in nature. The avalanche that without a moment's warning rushes headlong down the mountain side is not an accident. For years previous tiny atoms have been crystalizing, and adding their minute weight to the mass which left its base when the accumulation reached a certain point.

Neither is baldness an accident. The infinitesimally small germ which is the cause of Dandruff and Baldness, feeds silently and long before the result is seen.

The small germs which thrive on the scalp and which are the cause of Baldness and Dandruff cannot exist, however, when Newbro's Herpicide is applied.

SHEEP TRAIL CLOSED.

No More Sheep Come by Way of Ukiah.

Pilot Rock, Nov. 11.—News comes form Ukiah to the effect that the narrow passage, south of Ukiah, for the past four years granted sheepmen through which they drove their herds to the mountains in Grant county, has now been taken up and will be closed in the future to the sheep from Morrow county.

The only outlet now will be by the way of Alba, following the road to Lehman Springs, which means a drive through brush and heavy timber. At the John Day, near the confluence of Desolation creek, the land is also being filed on and there is talk of this passage being closed to sheepmen in the future. If these statements be true, thousands of sheep that have hitherto found summer feed in Northern Grant, will be prohibited from entry into that section.

APPETITE'S GONE.

Food eaten without appetite always causes gastric disturbances, because unless the glands of the stomach are stimulated by a desire for food no digestive juices are formed. Consequently the food is wasted and clogs up the bowels. For loss of appetite and constipation there is nothing to equal the Bitters. Try a dose before meals. It also cures Dyspepsia, Indigestion, Insomnia and Malaria, Fever and Ague.

HOSTETTER'S STOMACH BITTERS.

STATE VS. THOMPSON AND HOWARD, ALIAS WILSON.

Sidney Van Hook, of Umatilla, Claims They Forcibly Robbed Him Two Months Ago — Thompson Was Caught After a Run.

The circuit court met this morning at 9 o'clock in adjourned session and took up the case of the state of Oregon vs. C. C. Thompson and L. M. Howard, known as Louis E. Wilson.

This is the case in which Sidney B. Van Hook, of Umatilla, accuses the defendants of having robbed him of a draft for $100 which they took from him on the evening of September 22 last. Thompson is the man who attempted to escape fro mDeputy Sheriff J. A. Blakley when he went to arrest him at Umatilla.

Owing to the absence of the witnesses for the defense, the case was postponed by the court until afternoon, to which time it took a recess.

Continued Till January.

When the court was called in the afternoon the defense asked that the case be continued until the January term, owing to the absence of one of the important witnesses, who was out of the state and could not at this time be found. The court granted the motion for continuance, and the case is set for the first day of the January term. The jurors were excused from further attendance and went home.

There are now several cases on the civil and divorce docket, but the jury cases were all cleared from the book.

THE GEERS CALLED HOME.

Ex-Governor and Mrs. Geer Receive Sad News This Morning.

Ex-Governor T. T. Geer and wife were called unexpectedly to Olympia today by the sudden death of Mrs. Geer's brother-in-law, at that place, this morning.

Mr. and Mrs. Geer have been the guests at Locust Hill during the meeting of the irrigation association, and were enjoying their visit to the city very much. They attended the brilliant reception tendered to Governor and Mrs. Chamberlain last night, and Mrs. Geer expected to meet the club women of Pendleton tomorrow at the residence of Mrs. C. B. Wade.

While the sudden departure of Mr. and Mrs. Geer and the sad occurrence which occasioned it, is deeply regretted by their friends in this city, the club meeting called to take place at Locust Hill tomorrow, will be held, notwithstanding Mrs. Geer's absence.

Several members of the state federation are in the city and will attend the meeting.

J. B. Howard Has Much Trouble With His Injured Leg.

O. F. Steele is in receipt of a letter from J. B. Howard, at Spokane, stating that he is in the hospital at that place, where he has had an operation performed on his leg, which was hurt while tending a separator for L. E. Henson, near Helix, last harvest.

He left here October 15 for the mines at Gem, Idaho, thinking he was sufficiently cured to go to work, but being threatened with blood poisoning again, he had an operation performed.

Adopted a Daughter.

A petition was filed with the county court this morning by George M. Bannister and wife, asking that they be allowed to adopt Helen Russel, the 2-year-old daughter of Theodore Russel, of Spokane. The mother of the child is dead. The petition was granted and an order of adoption was entered.

Dogs Worried Sheep.

Joe Connelley is now moving his sheep from the summer to the winter ranges, and yesterday brought a large drove through the city, bound for his ranch near the city. Arriving late in the afternoon the sheep were shut in a vacant lot on the outskirts of town. During the night some wandering dogs got among the band and mangled nearly a dozen of the animals to such an extent that some of them will have to be killed.

Redmen Smoker.

The Redmen will hold a smoker this evening at Hendricks hall in honor of the sixth anniversary of the foundation of the order. The committees in charge have provided all of the necessaries for a good time, and the members and their guests expect to have one of the best times in the history of the order.

Bailey-McDermed.

Mr. and Mrs. Henry Laycock and H. H. Trowbridge, all of Izee, have left after a short visit in the city for Calgary, Alberta, where Mr. Laycock has extensive land interests. Both of the gentlemen are stockmen and will investigate the promises of the northern country, it being very probable that Mr. and Mrs. Laycock will locate there.

Been Away on Vacation.

I. R. Bamber, the industrial teacher at the Indian school, returned this afternoon from his vacation trip of several weeks. While away he has visited Spokane and other of the Washington cities, and has made a general tour of the principal cities of Washington and Oregon.

Returned to Morrow.

G. W. Phelps, F. P. Farnsworth and Phil Metschan, Jr., all of Heppner, left this afternoon for their homes, after a couple of days spent here as the Morrow county delegation to the irrigation convention.

THE NEXT CONVENTION WILL MEET AT ONTARIO

A. H Devers of Portland Re-elected President of the State Association, and E. P. Dodd of Pendleton Secretary.

After the able defense of the resolution asking for the repeal of the timber and stone act, the desert land act and the commutation clause of the homestead, by A. King Wilson, last evening, a vote was taken, resulting in a tie, 31 for and 31 against the resolution.

President Devers decided the question by casting his vote for the repeal, making 32 in favor of the Trans-Mississippi Congress resolution, asking for the repeal of those laws.

The resolution as passed is as follows:

Repeal Land Laws.

Whereas, We have a higher destiny as a nation than the mere creation or accumulation of capital; and we must preserve and bequeath to future generations the natural resources, which will be necessary to their material welfare; be it

Resolved, That the timber and stone act should be forthwith repealed and thereafter a system should be immediately adopted under which the fullest utilization of the timber might be made, and the prosperity of the lumbering communities assured, the forest at the same time preserved from destruction;

That the desert land act and commutation clause of the homestead act should be immediately and absolutely repealed, and five years' residence in all cases should be required from a settler before the government parts with the title to any of the government land under homestead act. There should be no increase of the acreage area of a homestead entry. It should in no case exceed 160 acres.

Professor Young's Able Paper.

Following the adoption of the resolutions, as published last evening, Professor F. G. Young, of the state university, read an able paper on "Co-operation with the government in determining the water power and artesian facilities of the West."

Professor Young is a student of industrial science and economics and has spent much labor and thought in pursuing this topic. It will be published in the East Oregonian, in full.

Experiences of Idaho.

J. H. Lowell, of Caldwell, Idaho, one of the irrigation commissioners of that state, and author of the Idaho irrigation law, followed Professor Young's paper on the working of the Idaho irrigation law.

Mr. Lowell told of the growth of the irrigation sentiment in his state; of the gradual change from the "shotgun" rule of former days, to the present progressive and successful policy of law-making.

He told of the difficulty the lawmakers, experienced in that state in bridging over between the old custom of holding water and owning water by force, and the new law, which justly and equitably distributes it among settlers according to the amount needed by their land and the amount furnished by the stream.

Conditions in Idaho and Oregon being largely identical, he suggested that Oregon could benefit by the same line of procedure as that pursued in his state.

Idaho is divided into three irrigation districts, with a commissioner in each district, appointed by the governor. These commissioners and the state engineer comprise the state board of irrigation, which has complete control of all matters relating to irrigation, unless litigants appeal to the courts over the heads of the board.

Mr. Lowell's address was a thoughtful, able practical paper, and shows wide familiarity with the subject treated. It will also appear in the East Oregonian in full.

Bees in Irrigated Districts.

C. W. Mallett, of Ontario, then read a paper on "Bee Culture," as an adjunct to irrigated farming, after which the convention proceeded to the selection of the next meeting place, the election of officers and the passage of a resolution of thanks to the citizens of Pendleton.

Ontario in 1904.

H. Hirschburg, of Polk county, placed Ontario in nomination, which was unanimously selected as the meeting place for 1904.

Election of Officers.

When the election of officers was reached, Mr. Herschburg also nominated A. H. Devers for re-election. At this juncture Mr. Devers called Walter Pierce, of Umatilla county, to the chair, and in a few happy remarks, said that he did not want to monopolize the office of president and much preferred to see the honors passed around and suggested that First Vice-President Will R. King, of Ontario, be elected president. Mr. King declined to allow his name to be used and no other nominations being made, the election of Mr. Devers was made unanimous.

He thanked the convention in a few well-chosen remarks for the honor and assured them of his hearty interest in the great subject of irrigation.

Will R. King, of Ontario, was unanimously elected first vice-president, and E. Carbine, of Union county, was selected as second vice-president.

E. P. Dodd, of Pendleton, who has been assistant secretary of the state association for the past year, was unanimously elected secretary, and C. C. Hunt, of Ontario, was chosen assistant secretary for the coming year.

W. T. Wright, of Union, had no opposition for the office of treasurer and was made the unanimous choice of the convention for that position.

Treasurer's Report.

The treasurer's report, which was made at this time, showed the total receipts of the state association for the past year, not including this meeting, to be $196, and expenditures $186, leaving a balance on hand of $10.

The receipts of the session in this city were something over $75, from membership fees, which amount to $1 each.

Resolution of Thanks.

After the election of officers, A. King Wilson, of Portland, introduced the following resolution, which was unanimously adopted:

Resolved, That the sincere thanks of this association be tendered to Mayor Halley and the citizens of Pendleton generally, for the courteous treatment of delegates; to the Commercial Association for the use of its rooms; to the press for notices of the meeting and reports of the same; and especially to the ladies of Pendleton for their efforts in our behalf as manifested in the musical selections by Mrs. J. A. Borie and Miss Cozbi Raley, and in the further efforts of the members of the various women's clubs of the city in arranging the most enjoyable reception of Monday evening.

The convention adjourned at 5 o'clock to meet at Ontario, Malheur county, on the second Monday in November, 1904.

Delegates Go Home.

Many of the Eastern Oregon delegates left on the evening train for their homes. Professor A. B. Leckenby, of Union, intended to remain over until today, but was called home yesterday evening by the news of the death of Mrs. Leckenby's brother.

J. H. Lowell, of Idaho, left on the early morning train for his home at Caldwell, and the Multnomah and Morrow county delegates went home today.

Meeting Was a Success.

The meeting was successful from every standpoint. The visitors were all well accommodated, the entertainment prepared by the women's clubs was highly successful, the interest taken in the meeting by all the delegates was very marked, and all the proceedings passed off smoothly.

The papers and addresses were able and thoughtful, and all showed deep study of the subjects treated. Not a jar of any nature occurred; not a word of bitterness was spoken, and not a voice was heard in selfish or narrow interests and every delegate interviewed by this paper was free in his expressions of praise for the city and citizens of Pendleton, and all expressed hope that future meetings might be held here.

SUIT FOR DIVORCE.

Plaintiff Alleges Desertion and Cruel Treatment.

A divorce suit was filed this morning in the clerk's office by Mrs. Rose Robinson, asking to be freed from the bonds of matrimony existing between herself and George W. Robinson. The couple were married at Seattle, November 19, 1900, and came to this state soon after, where they lived at La Grande and afterwards in Umatilla county.

The plaintiff alleges that soon after their marriage the defendant abandoned her, leaving her alone among strangers and ill. He has since treated her cruelly and has refused to live with her. She asks for an absolute divorce and the care and custody of the 19-months-old son, the issue of the marriage. L. A. Estebb, of Echo, is the attorney for the plaintiff.

J. M. Bealer, of Morrow.

J. M. Bealer, the county road superintendent of Morrow county, was a visitor in the city yesterday, having come to attend the last day of the irrigation convention. He returned to his home this morning.

Returned to Portland.

Governor and Mrs. Chamberlain left for their home in Portland yesterday afternoon on the delayed train, after having visited in the city during the irrigation convention.

Eight deaths occurred November 7 in Rio Janeiro from bubonic plague.

OPINIONS REGARDING A SPECIAL SESSION

Representative W. M. Blakeley was seen today and expressed himself on the possibility of a special session of the legislature.

"While Umatilla county could tide over without the tax levy for 1903," said Mr. Blakeley, "it would be disastrous to the cities and school districts and for this reason it seems that it would be best to call a special session for the sole purpose of remedying the tax law.

"I think the session should be just as short as possible. The tax law could be made perfect and the legislature adjourn within two or three days, at the outside, and I am opposed to the consideration of any other legislation at the special session.

"It is very unfortunate that the session should be called, but from all reports from over the state, it would be better to call it than to subject the municipalities and school districts to the embarrassment that would surely come without the tax levy for this year.

"I received the governor's letter yesterday asking my opinion on the question of calling the session, and while I do not believe the legislature should consider any other matters than this one defective law, it would hardly be policy for the members to enter into a contract not to do so, for fear of other emergencies which might arise before the session could be convened."

Representative Phelps' Views.

Representative G. W. Phelps, of Morrow county, who has been in attendance on the irrigation convention, left for Heppner on the delayed train this afternoon.

Mr. Phelps gave the East Oregonian a brief interview on the question of the special session of the legislature, if called.

"If the financial condition of the state demands that a special session be called," said Mr. Phelps, "I believe the work of remedying the tax law should be done as quickly as possible and the session adjourned to make the expense as small as possible on the taxpayers.

"I do not believe that any general legislation should be taken up at this session, but it is not good business policy to enter into an iron-clad agreement to not consider any other legislation for the reason that some other vital issue may confront the people before the session is called, and it should be attended to while the legislature is in session."

Senators Smith and Pierce are both out of town today and could not be seen. Senator Pierce is in the John Day and Senator Smith in the country near town.

Both of these gentlemen, it is understood, favor calling the session if the financial condition of the state demands it, and they both heartily agree with Messrs. Blakeley and Phelps that no other legislation should be considered and the session made just as short and inexpensive as possible.

SISTERS OF CHARITY

RELY ON PE-RU-NA TO FIGHT CATARRH WHEREVER LOCATED IN THE SYSTEM.

MISS BEATRIX CALLAM.

Interesting Letters from Catholic Institutions.

In every country of the civilized world the Sisters of Charity are known.

THE SISTERS GOOD WORK.

Not only do they minister to the spiritual and intellectual needs of the charges committed to their care, but they also minister to their bodily needs. With so many children to take care of and to protect from climate and disease, these wise and prudent sisters have found Peruna a never-failing safeguard.

A letter recently received by Dr. Hartman from Sister Beatrix B. Callam, 410 W. Thirtieth street, New York, reads as follows:

"I cannot say too much in praise of Peruna. Eight bottles of it cured me of catarrh of the lungs of four years' standing, and I would not have been without it for anything. It helped several Sisters of coughs and colds and I have yet to find one case of catarrh that it does not cure."—Sister Beatrix.

From a Catholic institution in Central Ohio comes the following recommend from the Sister Superior.

"Some years ago a friend of our institution recommended to us Dr. Hartman's Peruna as an excellent remedy for the influenza of which we then had several cases which treatened to be of a serious character.

"We began to use it and experienced such wonderful results that since then Peruna has become our favorite medicine for influenza, catarrh, cold, cough and bronchitis."

Another recommend from a Catholic institution of one of the Central States written by the Sister Superior reads as follows:

"A number of years ago our attention was called to Dr. Hartman's Peruna, and since then we have used it with wonderful results for grip, coughs, colds and catarrhal diseases of the head and stomach.

"For grip and winter catarrh especially it has been of great service to the inmates of this institution.

SISTERS OF CHARITY

All Over the United States Use Pe-ru-na for Catarrh.

Dr. Hartman receives many letters from Catholic Sisters all over the United States. A recommend recently received from a Catholic institution in the Southwest reads as follows:

A Prominent Mother Superior Says:

"I can testify from experience to the efficiency of Peruna as one of the very best medicines, and it gives me pleasure to add my praise to that of thousands who have used it. For years I suffered with catarrh of the stomach, all remedies proving valueless for relief. Last spring I went to Colorado, hoping to be benefited by a change of climate and while there a friend advised me to try Peruna. After using two bottles I found myself very much improved. The remains of my old disease being now so slight, I consider myself cured, yet for a while I intend to continue the use of Peruna. I am now treating another patient with your medicine. She has been sick with malaria and troubled with leucorrhœa. I have not a doubt that a cure will be speedily effected."

These are samples of letters received by Dr. Hartman from the various orders of Catholic Sisters throughout the United States.

The names and addresses to these letters have been withheld from respect to the Sisters but will be furnished upon request.

One-half of the diseases which afflict mankind are due to some catarrhal derangement of the mucous membrane lining some organ or passage of the body.

A remedy that would act immediately upon the congested mucous membrane restoring it to its normal state, would consequently cure all these diseases. Catarrh is catarrh wherever located, whether it be in the head, throat, lungs, stomach, kidneys, or pelvic organs. A remedy that will cure it in one location will cure it in all locations.

If you do not receive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

LOCAL WHEAT MARKET.

The wheat market is falling again and grain is now quoted at 63½ by the exporters and 65 at the mill. The market is getting weaker and according to the opinion of the buyers there is not much chance of a raise for some time to come. The contracts for the Oriental trade have been either filled, or the grain has been contracted for, and this, in connection with the local conditions, all go to weak en the market and keep it down.

After the fall demand is over the market is liable to be weak in any year, and this year is no exception to the rule.
