

Miserable as Men Are Made Kidney Trouble Prevalent

Kidney trouble prevails upon the mind, discolors and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder, and not to the habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and immediate effect of Swamp-Root is soon realized. It is sold by druggists in five-cent bottles, and may be had by mail free, also a *Bottle of Swamp-Root* pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received. It is not a cure, but a remedy, and it is not a medicine, but a natural product of the earth. It is sold by mail free, also a *Bottle of Swamp-Root* pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received. A BAD FALL. Might Have Resulted Fatally Had Help Not Come.

A resident of Pendleton has been persuaded to take the story of an severe accident which befell him. Here is a lesson to be drawn from his experience.

G. W. Baker, carpenter, living at Tustin and Aura streets, in Pendleton, says: "A year ago this coming April, while living in Seattle, Wash., I fell from a staging to the ground, 12 feet below, and struck squarely on my back. I was laid up for five weeks in bed and ever since then my kidneys have been affected. The secretions were highly colored and contained a sediment like brick dust. I had dizzy spells and headaches and a dull aching pain through my loins and kidneys and back. I procured Doan's Kidney Pills at the Brock & McComas Co. drug store and have used several boxes. I consider myself cured. The urinary difficulty is a thing of the past and I have neither headaches, dizziness, nor pains in my back."

For sale by all dealers. Price 50 cents per box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no other.

ADMINISTRATOR'S NOTICE.

In the county court of the state of Oregon for the county of Umatilla. In the matter of the estate of Francis Kennebec, deceased.

NOTICE is hereby given that I have been appointed administrator of the estate of Francis Kennebec, deceased, by the above-entitled county court. All persons having claims against said estate are hereby required to present them to me, at the office of C. S. & B. Baker, attorneys, in the Umatilla County Courthouse, at the city of Pendleton, Umatilla county, Oregon, within six months from the date hereof. Dated February 22nd, 1904.

ELIZA ROUSSEAU, Administrator.

WANTED—YOUR ORDERS FOR engraved cards, wedding invitations, etc. 100 engraved calling cards with plate, \$1.50; additional cards in future, \$1 per hundred. The East Oregonian.

TO HELP THE COUNTY

WILL UMATILLA BE ADVISED TIMED AT ST. LOUIS FAIR?

Every County in the United States Expected to Send Circulars to the Different State Headquarters at St. Louis—County Courts and Commercial Associations Expected to Take Active Interest in Gathering Statistics.

The East Oregonian is in receipt of a communication from W. H. Wehrung, superintendent of the Oregon exhibit at the St. Louis fair, asking what efforts are being made by the county court, or commercial associations of Umatilla county toward advertising the county at the fair.

Most every county in the United States will make more or less of a showing at the fair, and the superintendent, being naturally interested in his own state, makes particular inquiry about the various counties of Oregon which expect to have advertising circulars on exhibit at the Oregon headquarters.

The Lewis and Clark fair following so closely on the heels of the St. Louis exposition, Oregon will be the center of attraction at the St. Louis fair, and every person going to that great event, will be in search of information about the Oregon county.

So far Umatilla county nor Pendleton has had either one made any move toward having descriptive literature at the St. Louis fair, but the matter will be placed before both the county court and the Commercial Association in hopes of securing favorable action on sending a large amount of valuable descriptive matter there.

At least 50,000 illustrated circulars bearing on every feature of the wonderful Umatilla county should be sent to St. Louis, to satisfy the hunger for useful information among Eastern people. Other Oregon counties will be represented by tons of literature, and Umatilla county being third in wealth in the state, should have her supply of information there. The county court is empowered to expend \$2,000 per year in advertising the county, and this fund, with what would be cheerfully subscribed by the Commercial Association and citizens in general, would be sufficient to advertise Umatilla county properly, at St. Louis.

The same general descriptive matter, with later additions at the end of the year 1904, could be used for the Lewis and Clark fair next year, and at the expense of issuing an edition with slight alterations would be comparatively light.

SCHOOL CENSUS, Ninety-Three More Enrolled This Year Than Last.

School Clerk Haley has completed his annual census of this school district and from his figures it is shown that the district has increased 93 children between the ages of 4 and 20 years. Last year there were 1,233 children in the district who were of school age, and this year the number increased to 1,326. Mr. Haley will file his report with the county superintendent tomorrow.

The increase in numbers is caused in part by the growth of the school, and were last year too young to be enrolled, and by the incoming of families from the outside, but it is also lessened by the same number.

There has been a great many who have outgrown the age of the public school, and have gone to other schools, and a number of families have moved out of the district.

Taking into consideration both of these conditions, the increase in this year's census will just about show the actual increase in the school population of the district during the year past.

REPORT OF CONVENTION.

Official Proceedings of the 11th National Irrigation Congress Now Out.

The official proceedings of the 11th National Irrigation Congress have just been issued by Gilbert McClurg, director of the irrigation department of the National Irrigation Association, of Colorado Springs.

The volume contains about 500 pages and numerous views and photographs of prominent places and persons, besides all the articles, debates, papers and addresses heard at the convention.

Many of the scientific papers by government experts are read during the official proceedings and will, therefore, be new to the delegates of Internal Commerce to Irrigation, by T. G. Haley of this city, appears in the proceedings, and also an article in the prospect of irrigation in Oregon, by John T. Whistler. The volume can be secured from Gilbert McClurg, Colorado Springs, Colorado.

MORMONS AT ECHO.

Many of the Homesteaders on the Echo Irrigation Reservation Are of That Faith.

A glance of the plats of the Echo irrigation reservation in the La Grande Irrigation office, reveals the fact that many of the homesteads being made upon that tract have been made by prominent members of the Mormon church at La Grande.

This indicates, in a measure, the Mormon's faith in the ultimate outcome of the Echo irrigation project, and presages a Mormon settlement in the Echo district, which is supported by the fact that those people are now deeply interested in pushing the experiments in best culture there.

As the Mormon has made few mistakes in his choice of locations in

WAR IN CITY JAIL.

Plain Drunks Indulge in a Fight With Frits and Thrills.

The city jail was the scene of bloodshed last night and peace has not as yet been declared. John Whitze, Jim Bennett and Harry McDonald were all implicated and were locked up together on the charge of being drunk on the streets. After being left to themselves, Whitze and Bennett both wanted the same bed, and as a result had a quarrel over the matter of precedence. Whitze was the better man and presented Bennett with an unprovoked face in return for his claim to the best bed.

Today Judge Fitz Gerald took a hand and gave the winner 17 days, and Bennett second money in the sum of three days. McDonald, who umpired the battle, also got three days.

THIN FOLKS

Should know that perfect digestion and assimilation of the food is the first essential to the putting on of solid flesh. Persons who have a weak stomach and suffer from Dyspepsia, Indigestion and Constipation are always thin, because they fail to derive proper nourishment from their food. Try Hostetter's Stomach Bitters at once. It will strengthen the stomach, perfect digestion and build up firm, solid flesh. It never fails.

NEWSETT-SPARKE.

A marriage license was issued this afternoon to Orlando L. Sparks and Miss Hulda Newsett. Both of the young people are residents of this city, and the prospective groom is the son of a prominent farmer of that section. Miss Newsett has been for some time one of the clerks in the Fair Store. The ceremony was performed this afternoon, at the home of the bride's parents on Birch creek.

REDEEMING A WASTE

OUTLINE OF WORK AT TONTON IRRIGATION PROJECT.

Over 400 Men Employed on Salt River Project in Arizona—Telephone Lines and Sawmill Operated by the Government to Facilitate Work—Foundations of Immense Cement Dam Now Laid.

L. C. Hill, the engineer in charge of operations at the Salt River basin, arrived at Phoenix yesterday morning from Globe, by rail, says a Phoenix Arizona paper. He expects to leave for the basin again about Tuesday, traveling overland and inspecting the telephone line now under construction.

Mr. Hill was applied to yesterday for information regarding the status quo of the cement question concerned in the storage enterprise. He said the force was slightly reduced, and any change in former plans and has heard nothing except what he has seen in the papers. All he can say for some time. There are approximately 400 men employed there and there never has been any stopping of operations.

About 75 men are employed there now. There were a few more who were laid off at his instance for the reason only that he thought they could not be economically employed just at that time. But while the force was slightly reduced, it was not delayed. The foundations of the mill are in and the building is well progressing.

As yet there is no general resume of what has been accomplished in the five months since the work actively began and how many men are actually employed. He gave a very interesting interview.

He says the force now is practically as large as it has ever been, yet not much larger than it has been for some time. There are approximately 250 men employed in the immediate vicinity of the storage basin, exclusive of those who are freighting lumber to the country.

There are about 15 men at the saw mill, about 10 at Ad. Farish's surveying camp, 20 at the cadastral survey camp of Mr. Hawley, south of Mesa, and about 40 at work on the telephone line. These, with the freighting to the basin and Globe, bring the total to about 400 men at the present time, and have been for a long time, employed on work connected with the Tonto project in one way or another.

Reconstructions that had been accomplished in the last five months Mr. Hill said over 50 miles of road has been built, the foundations of the cement dam are now being built, and the superstructure of the cement dam is well advanced. The yard and lime kiln have been established, water works have been constructed, piping water a distance of three miles, a saw mill has been built, surveys have been run for canals and general topographical surveys have been made and the telephone line is well on the way toward completion.

WEIDERT FARM SOLD.

Ben Stewart Purchases One of the Best Wheat Farms in the Vansyckle District.

Mrs. Julia A. Weidert has sold to Ben Stewart her valuable wheat farm, consisting of 250 acres near Vansyckle Canyon. The consideration being \$124 per acre, or \$31,000.

There are 270 acres of this land in cultivation and it is considered by Umatilla county people to be one of the best wheat farms in the district. There were many buyers for this place, Tassie Stewart of Milton, offering Mrs. Weidert \$15 an acre for it, and other farmers offering prices nearly as high as offered by the fortunate purchaser, Mrs. Weidert, it is said, will now purchase a farm in the vicinity of Walla Walla, where she will make her future home.

DEATH OF A CHILD.

Demise Was Caused by Typhoid Fever and Pneumonia.

Kenneth Reeves, the 22-month-old child of Mr. and Mrs. Silas Reeves of Alba, died at the home of his parents yesterday, after an extended illness with typhoid fever and pneumonia. The father of the infant is a well known farmer of Alba. The funeral will be conducted from the residence this afternoon, and the remains will be buried in the Pilot Rock cemetery.

Sale of a Farm.

Cora E. Learn and husband have sold to Dean S. Hamon for \$2,000, part of the southeast quarter of the northwest quarter and the northeast quarter of the southwest quarter of section 27, in township 36 north, range 36, being a tract of land close to Freewater.

Public Sales DAY PROPOSED

AN INNOVATION IN BUSINESS METHODS.

Frank C. Baker of Portland, chairman of the republican state committee, passed down the O. R. & N. last night from Boise City, where he has been looking over the newspaper Grosser Kurier, on a voyage which consumed 71 days from New York, including side trips and stops.

The American party will be under the direct supervision of H. E. Clark, American vice-consul to Palestine. The delegates will travel about 20,000 miles on the trip and the expenses will average \$450 each, to be paid by the organization.

FRANK BAKER AT BOISE.

BEAUTIFUL FILLY.

Half-Sister of Oregon Sunshine, the Famous Trotter.

T. Olsson, of the Queen Chop House, has bought of Carl Jensen, of this city, the 2-year-old filly, Priscilla J., and will send her to Walla Walla, to be trained for the track.

The colt was sired by Bonnie N. Dam Egan, and is a half-sister to the famous Oregon Sunshine, which made such a record for herself in 2-year-old races, but which died soon after being brought home at the end of the season.

Mr. Olsson's colt has not yet been broken, but is a beautiful light thing, and gives promise of being a speedy animal when put under the harness.

FOUNDRY OPERATIONS.

Progress on Fanning Mills and Combines at the Rigby-Clove.

The Rigby-Clove foundry now has a couple of their new fanning mills on hand, all the rest having been sold. The foundry has now a force of about a dozen men at work, and is turning out the mills regularly, though they have not as yet been rushing their orders. All they have made are finding a ready market, as the excellence of construction and the simplicity of work make them desirable to the farmer.

The men are also at work on the combined harvesters constructed by the firm and will have several of them completed by the end of the week. The men are also at work on the combined harvesters constructed by the firm and will have several of them completed by the end of the week.

Believes in Dry-Land Alfalfa.

Tassie Stewart of Milton, one of the prominent farmers of that vicinity, was in the city last night on business. He is greatly interested in the dry-land alfalfa experiments being made by the O. R. & N. in different parts of the country, and has offered the company a tract of land on which to try an experiment.

Moved to Umatilla.

Mr. and Mrs. W. C. Thompson and family left this morning for Umatilla, where Mr. Thompson is employed by the O. R. & N. in the yards. He has been at work for the company there for some time, and is now removing his family there for their future home.

Great Britain and Spain have entered into an arbitration treaty.

In California can be prevented. CUTLER'S BLACK LEG VACCINE, California's favorite, the most certain, easiest used and lowest priced reliable vaccine made. Powder, strychnine pill form. Write for Black Leg Booklet. THE CUTLER LABORATORY. Our vaccines are for sale by Brock & McComas Co.

Half-Sister of Oregon Sunshine, the Famous Trotter.

T. Olsson, of the Queen Chop House, has bought of Carl Jensen, of this city, the 2-year-old filly, Priscilla J., and will send her to Walla Walla, to be trained for the track.

The colt was sired by Bonnie N. Dam Egan, and is a half-sister to the famous Oregon Sunshine, which made such a record for herself in 2-year-old races, but which died soon after being brought home at the end of the season.

Mr. Olsson's colt has not yet been broken, but is a beautiful light thing, and gives promise of being a speedy animal when put under the harness.

FOUNDRY OPERATIONS.

Progress on Fanning Mills and Combines at the Rigby-Clove.

The Rigby-Clove foundry now has a couple of their new fanning mills on hand, all the rest having been sold. The foundry has now a force of about a dozen men at work, and is turning out the mills regularly, though they have not as yet been rushing their orders. All they have made are finding a ready market, as the excellence of construction and the simplicity of work make them desirable to the farmer.

The men are also at work on the combined harvesters constructed by the firm and will have several of them completed by the end of the week. The men are also at work on the combined harvesters constructed by the firm and will have several of them completed by the end of the week.

Believes in Dry-Land Alfalfa.

Tassie Stewart of Milton, one of the prominent farmers of that vicinity, was in the city last night on business. He is greatly interested in the dry-land alfalfa experiments being made by the O. R. & N. in different parts of the country, and has offered the company a tract of land on which to try an experiment.

Moved to Umatilla.

Mr. and Mrs. W. C. Thompson and family left this morning for Umatilla, where Mr. Thompson is employed by the O. R. & N. in the yards. He has been at work for the company there for some time, and is now removing his family there for their future home.

Great Britain and Spain have entered into an arbitration treaty.

In California can be prevented. CUTLER'S BLACK LEG VACCINE, California's favorite, the most certain, easiest used and lowest priced reliable vaccine made. Powder, strychnine pill form. Write for Black Leg Booklet. THE CUTLER LABORATORY. Our vaccines are for sale by Brock & McComas Co.

REDEEMING A WASTE

OUTLINE OF WORK AT TONTON IRRIGATION PROJECT.

Over 400 Men Employed on Salt River Project in Arizona—Telephone Lines and Sawmill Operated by the Government to Facilitate Work—Foundations of Immense Cement Dam Now Laid.

L. C. Hill, the engineer in charge of operations at the Salt River basin, arrived at Phoenix yesterday morning from Globe, by rail, says a Phoenix Arizona paper. He expects to leave for the basin again about Tuesday, traveling overland and inspecting the telephone line now under construction.

Mr. Hill was applied to yesterday for information regarding the status quo of the cement question concerned in the storage enterprise. He said the force was slightly reduced, and any change in former plans and has heard nothing except what he has seen in the papers. All he can say for some time. There are approximately 400 men employed there and there never has been any stopping of operations.

About 75 men are employed there now. There were a few more who were laid off at his instance for the reason only that he thought they could not be economically employed just at that time. But while the force was slightly reduced, it was not delayed. The foundations of the mill are in and the building is well progressing.

As yet there is no general resume of what has been accomplished in the five months since the work actively began and how many men are actually employed. He gave a very interesting interview.

He says the force now is practically as large as it has ever been, yet not much larger than it has been for some time. There are approximately 250 men employed in the immediate vicinity of the storage basin, exclusive of those who are freighting lumber to the country.

There are about 15 men at the saw mill, about 10 at Ad. Farish's surveying camp, 20 at the cadastral survey camp of Mr. Hawley, south of Mesa, and about 40 at work on the telephone line. These, with the freighting to the basin and Globe, bring the total to about 400
