

For years it has been the practice of medical men to treat patients suffering from piles by local, external applications. These treatments give but temporary relief, but have never effected a positive cure.

After months of research and study, accompanied by actual experience with various patients, Dr. C. A. Perrin arrived at a positive conclusion as to the exact action of the various parts of the bowel system, under different conditions, and when subjected to various prescriptions.

He finally prepared that wonderful internal remedy known as **DR. PERRIN'S PILE SPECIFIC**, which is put up in bottles, retailing at all reliable drug stores for \$1.00 each. This internal remedy has been on the market for the past ten years, and in all of that time there has been but three cases where a positive cure has not been effected.

Dr. Perrin's Pile Specific is sold under a positive guarantee by the druggist making the sale, to refund the full purchase price, providing the remedy fails to cure. This is the absolute proof of its merit. Any man or woman who suffers from blind, bleeding, itching or internal piles can try this internal remedy with the absolute certainty that it will cost nothing unless it cures. Here is what one sufferer says of this wonderful remedy:

Dr. C. A. Perrin, Helena, Mont.—I wish to thank you for the cure your wonderful medicine has done for me. I had the piles some time, and after the advice of a doctor had them removed by the knife and felt free for awhile, but they returned and I at once bought a bottle of your Pile Specific, and now I am entirely cured, and I am as good as I ever was.

Better get a bottle of your druggist today and get relief from present and future suffering.

DR. PERRIN MEDICAL CO., HELENA, MONT.

A Great Bargain

\$5,500.00 will buy 160 acres in crop, as follows: 80 acres in growing wheat; 40 acres in growing alfalfa (irrigated); about 150 fruit bearing trees; one and a half story house; good stone cellar. Large barn, plenty of timber on the place.

The crop is included in above price if bought within 10 days. Two and one-half miles from city.

No. 7201.
Treasury Department Office of Comptroller of the Currency, Washington, D. C., June 14, 1904.

Whereas, by satisfactory evidence, presented to the undersigned it has been made to appear that "The Commercial National Bank of Pendleton," located in the city of Pendleton, in the county of Umatilla, and state of Oregon, has complied with all the provisions of the statutes of the United States, required to be complied with before an association shall be authorized to commence the business of banking.

Now, therefore, I, Thomas P. Kane, deputy acting comptroller of the currency, do hereby certify that "The Commercial National Bank of Pendleton," located in the city of Pendleton, in the county of Umatilla, and state of Oregon, is authorized to commence the business of banking.

15 testaments whereof witness my hand and seal of office this fourteenth day of June, 1904.

T. P. KANE,
Deputy Acting Comptroller of Currency.

OLD NEWSPAPERS—TO PUT UNDER carpets, on shelves, walls or for wrapping purposes. Old newspapers in large bundles of 100 each at 25 cents a bundle at the EAST OREGONIAN office, Pendleton, Oregon.

IN THE BEET BELT

FRED LOCKLEY WRITES OF THEIR CULTURE AND PROFITS

Grande Ronde Valley Has Been Converted into a Valley of Small, Highly Cultivated Farms Through Beet Culture.—The By-Products Invite Creameries, Dairying and Diversified Farming.

Elgin, June 24.—From La Grande to Elgin one passes through a country largely devoted to the culture of sugar beets. Here and there one will see a thrifty orchard, but on both sides of the track may be seen the level beet fields. Men and boys and here and there women and girls may be seen in the fields thinning or weeding the beets.

Those who are familiar with the sugar beet industry are prophesying a bumper beet crop as the rains have come at times when most needed. The beets look very thrifty but no more so than those at Echo, Echo, which have a warm sandy loam soil peculiarly well adapted to the sugar beets' growth and development. It is to be hoped that the farmers in Umatilla county will take hold of the growth of sugar beets.

There are indirect benefits which follow in the wake of sugar beet culture, which are as important as the raising of the beets. Wherever a sugar beet factory is established there is the by-product of sugar beet pulp. This is usually sold at from 50 cents to \$1 a ton, and makes a cheap and nutritious food for stock. It has been found better for milk production than for a fattening ration. This means that the sugar beet industry will stimulate the dairy industry. An increase in the dairy herds means the establishment of a creamery. Wherever creameries are found you will find a prosperous community, not alone from the monthly check for their butter fat, but from the use of the waste product of the creamery—the skim milk. This is used for feeding hogs, calves and poultry. It is a sort of endless chain and benefits all alike. Sugar beets mean that more money must be spent, more labor hired in their cultivation, thinning, weeding, topping, etc. This means more money in circulation and increased trade for the merchant.

It means that the tops and pulp will be fed to stock, thus enriching the land from the excretion of the cattle. It means more attention paid to dairying and its attendant industries of hog-raising and poultry raising. All this tends to diversify farming and the breaking up of the large farms so that more people can engage in farming. It means more attention paid to irrigation, for the sugar beet requires two to four inches of natural precipitation a month during its growing season. If the rainfall is deficient from irrigation if the rainfall is deficient.

Since the sugar in sugar beets is simply water, the establishment of a sugar factory and of a creamery must have the necessary amount of each of these ingredients. We have no shortage of air and sunshine and irrigation solves the problem of water.

It is well worth the while of the Commercial Association to use every effort to encourage the planting of sugar beets. The establishment of a sugar factory and of a creamery. We have ideal climatic conditions. They can be planted early and have a long season of growth. They grow successfully in such states as North Dakota, where they can not be planted till the middle of May on account of the frostiness of the soil. They can not be planted there much later than the first of June, or they will not mature before the growing season is over. We have no such handicap to contend with here. Every one has given conclusive proof on the experiment farm near Union that beets can be raised of a high tonnage per acre, and of a high sugar per cent without containing large percentage of mineral salts which interfere with the extraction of the sugar.

Their roots are thick and fleshy, better as they combine large sugar per cent with good tonnage.—Fred Lockley.

NOVEL EXPERIMENT.

Alkali Field at Poor Farm Reclaimed With Dynamite.

J. B. McDill, the superintendent of the county poor farm, was a Pendleton business visitor today. Some time ago Mr. McDill made an experiment on what is known as the alkali flat field at the poor farm which has proved so far to have been a great success. There is a large field at the farm which is underlaid by a hardpan of several inches thick. Under this the soil is rich and deep while on top it is shallow and badly mixed with alkali. Mr. McDill put charges of dynamite in this hardpan and broke it up after which he seeded the land to alfalfa. He now has a fine crop of alfalfa on the field with every promise of being one of his best producers in the next year.

GOOD HAY CROP.

T. P. Gilliland Reports Good Cutting at Pilot Rock.

T. P. Gilliland, the county commissioner from Pilot Rock, was a Pendleton visitor today. Mr. Gilliland is in the midst of haying on his place and is well pleased with the crop that he is getting off his land. According to him there may be no shortage in the hay this year for he has grown to see so much hay being taken from the fields of the Pilot Rock country and back towards the mountains this year. All kinds of Oregon hay is better than it has been for some years and the stockmen over that part of the county are feeling jubilant.

BLOOD POISONING.

Result of Slight Wound on a Finger With a Wire.

A. G. McCarthy came to town today with a hand in very bad shape. It is terribly inflamed and in the opinion of the attending physician, blood poisoning has developed in the member. Only last Monday a finger of the hand was hurt by having a wire thrust into it while Mr. McCarthy was at work, and the slight wound thus produced being neglected, has developed into a very serious proposition.

BAKER COUNTY WOOL.

Most of It Was Sold on the Backs of the Sheep.

Alex and S. A. Oliver have returned from Baker county, where they have been for several weeks, shearing plants. A feature of the industry in Baker county this year is that most of the crop was sold on the backs of the sheep, and at from 12 to 13 cents. Sixteen cents is being offered in many cases for the remainder of the crop, now in the hands of the owners.

Wages this year in Baker county

FELL FROM A BARN

BARNEY ANDERSON LOSES FOOTING AND FALLS.

Was Working on Chris Breeding's Barn Near Fulton—Suffers From Injured Spine and Severe Bruises—Will Probably Recover.

Barney Anderson, a carpenter working on the barn being built by Chris Breeding at his ranch near Fulton, fell from the roof of the cupola this morning, a distance of about 30 feet and was seriously injured.

A physician was called from the city and attended the man, finding that he had suffered a concussion of the spine and was seriously hurt. Anderson left the house of Mr. Breeding in the morning to go to work and climbed to the top of the cupola, where he was working on the roof. In some manner he lost his footing and fell over the edge onto the main roof of the barn, a distance of about 15 feet. From there he rolled and slid to the eaves, going over the edge to the ground below, striking against the scaffolding and bounding from brace to brace of the timbers until he struck the ground, a distance of more than 30 feet altogether.

The people in the house heard the noise of the fall and rushing out found Anderson unconscious some distance from the foot of the scaffolding. He was taken into the house where he remained in an unconscious condition until shortly before the arrival of the physician. No bones were broken in the fall, though the head was covered with bruises and contusions from head to foot. His spine is badly hurt and it will be some time before he is able to leave his bed, but otherwise he is not seriously injured. It is thought that he will recover with no ill effects from his accident.

WALLA WALLA CHURCH MERGER.

The congregations of the First Presbyterian and Cumberland Presbyterian churches of Walla Walla, have decided to consolidate the two bodies, the union to be effective July 1. Rev. J. R. Lamb resigned and will leave for the East. Services will be held at the home of Mrs. J. R. Lamb, 26 S. Broadway church. The plan to consolidate has been in contemplation several months. Just what will be done with the extra building and parsonage has not been determined.

TO ADVERTISE STATE

PORTLAND COMMERCIAL CLUB OUTLINES A GOOD PLAN.

Will Call a Convention to Be Held in Portland August 2d and 3d for Official Formation of a League—Will Form Central Body and Auxiliary Bodies All Over the State.

The East Oregonian is in receipt of a letter from Tom Richardson, the manager of the Portland Commercial club, which outlines in part a plan for the formation of an "Oregon Development League" for the advertisement of Oregon throughout the United States. It is the purpose of the writer to make arrangements for the calling of a convention in Portland on August 2d and 3d under the auspices of the Portland Commercial club, for the official formation of the league. Every editor, mayor, county commissioner and president of any municipal association, or other body of men having the betterment of the state at heart will be given credentials as a delegate to the convention. It is the purpose to form a central body in Portland and many auxiliary bodies at every point over the state which shall work in harmony with the main organization.

W. D. Hasford, T. C. Taylor and R. Forster were present at the meeting held during the past week in Portland and state that the meeting there was very enthusiastic and the Portland people are willing to work hard for the success of the organization.

President J. A. Bore of the Commercial Association will attend the Portland convention when it is called, and will represent the association here in anything that may be necessary to be done.

Rees-Raymond Nuptials.

On the evening of Wednesday last Miss Bessie Nadene Raymond and George E. Rees were married at the residence of the bride's parents, Mr. and Mrs. R. Raymond, near Vancycle.

About 30 of the friends of the families were present at the wedding, which was a very pretty one. The ceremony was performed by Rev. G. W. Rigby, of Pendleton. Mr. and Mrs. Rees left in the morning for their future home on the Nez Perce Indian reservation, where the groom is in the employ of the government. The bride is well known to a large circle of Pendleton friends, having attended school here for the past year or two. She is the daughter of R. Raymond, one of the largest wheat farmers of the county.

Fire Wheat Samples.

M. W. Wyrick was in the city yesterday from his farm north of town, with some samples of wheat grown on his land. All of the heads were full and firm, and some of them very large, measuring from three to four inches in length. While the heads were some gleaned while walking through the fields, they are a fair indication of the heavy crop now ripening on the hills of the county.

Operation Successful.

Udney Richardson, of Helix, the 10-year-old son of D. B. Richardson, the well known resident of that city, was brought to the hospital yesterday where he underwent an operation for rupture. The little sufferer is recovering nicely from the results of the operation and will soon be up and around provided there are no complications not at the present time foreseen.

Cold on Farms.

John Zeits, one of the well known farmers residing to the north of Pendleton, was transacting business in the city today. Mr. Zeits reports that ice formed in his horse troughs last night and the night before. No damage has been done to the grain, however, by the cold though some of the garden truck was wilted to a slight degree.

Located Knee.

Dr. T. M. Henderson returned today from a visit to Meacham, where he was called to attend Mrs. Tom Burns, who fell and dislocated her knee yesterday morning. Mrs. Burns will be disabled for some time as the result of the injury, which wrenched the ligaments of the knee joint very severely.

Damages Against Wallawa County.

Mrs. S. E. Rice has secured, in the Union county circuit court, a judgment for \$1500 against Wallawa county for personal damages received by a bridge over Hurricane creek giving way under her last year. She sued for \$2000.

Hopkins-Stetson.

Orlando C. Stetson and Miss Adeline Hopkins, both of Milton, were married June 23 in Pendleton, at the Hotel Bickers. Rev. Robert Warner officiating. Mr. and Mrs. Stetson will reside on a farm near Milton.

FELL FROM A BARN

BARNEY ANDERSON LOSES FOOTING AND FALLS.

Was Working on Chris Breeding's Barn Near Fulton—Suffers From Injured Spine and Severe Bruises—Will Probably Recover.

Barney Anderson, a carpenter working on the barn being built by Chris Breeding at his ranch near Fulton, fell from the roof of the cupola this morning, a distance of about 30 feet and was seriously injured.

A physician was called from the city and attended the man, finding that he had suffered a concussion of the spine and was seriously hurt. Anderson left the house of Mr. Breeding in the morning to go to work and climbed to the top of the cupola, where he was working on the roof. In some manner he lost his footing and fell over the edge onto the main roof of the barn, a distance of about 15 feet. From there he rolled and slid to the eaves, going over the edge to the ground below, striking against the scaffolding and bounding from brace to brace of the timbers until he struck the ground, a distance of more than 30 feet altogether.

The people in the house heard the noise of the fall and rushing out found Anderson unconscious some distance from the foot of the scaffolding. He was taken into the house where he remained in an unconscious condition until shortly before the arrival of the physician. No bones were broken in the fall, though the head was covered with bruises and contusions from head to foot. His spine is badly hurt and it will be some time before he is able to leave his bed, but otherwise he is not seriously injured. It is thought that he will recover with no ill effects from his accident.

NEWS OF MILTON.

Returned to Idaho—Serious Case of Typhoid Fever—Returned From Grand Lodge—Will Spend the Summer in Spokane—Gone to British Columbia—Visitors From California—Saddle Horn Driven Into His Hip—Taken to Walla Walla Hospital.

Milton, June 24.—Miss Cora Morris fell Wednesday for Walla Walla, when she was visiting her aunt and uncle, Mr. and Mrs. J. L. Elam. George Hughes has been visiting friends here. He has returned home to Moscow, Idaho.

Mrs. W. E. Miller is quite ill with an attack of typhoid fever. Miss Mabel Overmier, who has been visiting her sister, Mrs. A. E. McKnight, has returned to Eureka, Wash. Dr. M. M. Ditteland returned Sunday at the home of M. E. Miller. Miss Mabel Overmier, who has been visiting her sister, Mrs. A. E. McKnight, has returned to Eureka, Wash. Dr. M. M. Ditteland returned Sunday at the home of M. E. Miller.

Mrs. C. E. Berry and children leave tonight for Spokane, where they will spend the summer visiting relatives. Mr. D. Wardlaw and Miss Bessie York of Walla Walla, were guests Sunday at the home of M. E. Miller. William Whitmot, and Robert E. Frazier will leave tomorrow for British Columbia. They will be gone about a month.

Mr. and Mrs. Peter Rudlo, formerly of Milton, have arrived from California and are visiting their daughter, Mrs. William Forester, three miles north of town. Mrs. S. E. Craig is here from North Yakima, visiting her son, William R. Craig.

Marion McLean of Emerson, Iowa, who has been attending the University at Eugene, has been visiting his old friends, Mr. and Mrs. E. A. Van Vranken.

Mrs. Marion Talbert left Wednesday for Milton to visit her sister, Mrs. Charles Cross.

Tuesday at Walla Walla Michael B. Knight and Margaret Rose Beller were united in matrimony. The ceremony was performed by Rev. Albert Dale Gantz of the First Presbyterian church. Mr. and Mrs. Knight will reside in Freewater.

Last Tuesday, Frank Wallace met with a very serious accident. While driving cattle his horse stumbled and fell, and the sharp horn of the saddle pinched his leg, causing a very dangerous wound. Mr. Wallace managed to crawl to the roadside, where he was discovered by George Boswell, who called and dressed the wound, and unless blood poisoning should set in the patient will recover.

Mrs. Henry Lloyd, who has been quite ill for several weeks, was on Wednesday taken to the Walla Walla hospital.

GOOD GRAIN PROSPECTS.

Eureka Flat and Touchet Valley Will Have Heavy Yields.

Charles H. Carter, the attorney, made a flying trip to Pasco yesterday to meet Mrs. Carter, who was returning from an eastern visit, and while the train was meandering through the grain fields of the Eureka Flat country and the Touchet valley he brought his powers of observation to bear upon the waving fields of ripening grain with gladness and satisfaction. The result is that Mr. Carter avers that he has never in all his experience seen such a beautiful grain in that part of the country, and predicts that where one blade grew in the past two or three are growing in the present, and will be harvested in the future to the great monetary benefit of the residents.

Generally the grain in that country is this, but this year it seems to be standing about as close as it can grow well and the heads are large and well filled. The farmers are some of them expecting 40 bushels to the acre where before the yield has been about half that amount. The grain is ripening rapidly and will soon be ready for the harvest.

SKELETON FOUND.

Passing Glimpse Into an Old Mystery of Combs Canyon.

William Mays has at his residence on Thayer street, an almost complete skeleton of a human being—whether of an Indian, or a white man is a subject of debate. The stronger probability is that it is the skeleton of a white man, well advanced in years and of medium height, but stocky and well-built. It was discovered about two feet below the surface of the ground, on the Nick Brown place in Combs' Canyon, some 12 miles southwest of town.

Mr. Brown had been digging out some locust hoes about 20 years old, and the skeleton was discovered directly beneath one of these tools. There was not the slightest trace of a gun, or of anything else to indicate that the body had been buried in a coffin, nor were there any bits of metal which might have once been

SATURDAY'S LOCALS.

Dr. A. M. Ditteland of Milton, Is in town today.

H. H. McReynolds, of Pilot Rock, is in town for a short visit.

O. D. Teel, of Echo, left for a brief visit to La Grande last night.

Mrs. Robert Manning, of Fulton, visited with friends here today.

Mr. and Mrs. J. N. Bahr, of Fulton, are the guests of Pendleton friends.

A. B. Thompson, of Echo, attended the tournament yesterday afternoon.

J. H. Saylor, a prominent citizen of Echo, was a Pendleton visitor today.

D. K. Mathews, one of the well known farmers of Echo, was in town today.

A. A. Cole, one of the shepherms of Vinton, spent the day in the city on business.

F. M. Lockwood, one of the wheat raisers of Helix, spent the day in Pendleton.

Mr. and Mrs. O. C. Stetson, of Milton, are visiting friends in the city for a few days.

Mr. and Mrs. T. P. Wilson, of Weston, are the guests of friends in Pendleton for a short time.

G. E. Adams, one of the well known farmers of McKay, spent the day in the city on business.

W. H. Colwell, of Arlington, one of the prominent shepherms of that section of the country, is in the city for a short business visit.

Albert Miller, a young man from Pilot Rock, is the new stenographer and bookkeeper employed in the real estate and abstract office of Miss Ida Boyd.

Frank K. Wells, the county superintendent-elect, of Milton, spent yesterday in Pendleton on business and in acquainting himself with the details of his office.

AN OLD-TIMER.

Thos. Beale, Pioneer of 1863, Will Live in Walla Walla.

Thos. Beale, who resides on Ann street, will leave in a few days for Walla Walla, where he will make his home for a time at least, with his daughter, Mrs. J. T. Barger. Mr. Beale first came to Pendleton in 1863 from Lynchburg, Va., and resided in this vicinity for several years. Later he returned to Virginia and came west to stay in 1880. He talks very interestingly of his experiences during the years when Pendleton and vicinity was an almost untamed wilderness.

MOUNTAIN HARVEST.

Haying Now in Progress on Meacham Creek Above Bingham.

Haying is now in full blast on Meacham creek between Bingham Springs and North Fork. The hay consists principally of wheat, oats and some alfalfa. W. Swart has 30 acres of fine alfalfa near Bingham, the first crop of which is now being cut and both crops are yielding well. Stock on the creek is in excellent condition and the bunch grass has never been better than this year. Gardens and berries are also in fine condition on the creek.

STOOD OFF THE POLICE.

Baker City Man With a Grudge and a Gun Proves Dangerous.

Peter McGovern, drunk and with a loaded Winchester, stood off the city marshal and others of the police force of Baker, June 24. The hay consists principally of wheat, oats and some alfalfa. W. Swart has 30 acres of fine alfalfa near Bingham, the first crop of which is now being cut and both crops are yielding well. Stock on the creek is in excellent condition and the bunch grass has never been better than this year. Gardens and berries are also in fine condition on the creek.

\$1500 Reward.

The Antelope Woolgrowers' Association has met and offered a reward of \$500 on its own responsibility for the arrest and conviction of any person guilty of shooting or killing, or maiming any member of the association, or any employee, or of sheep belonging to any member of the association. The association adds \$500 to the standing reward of \$1000 offered by the State Woolgrowers' Association.

Real Estate Transfers.

George W. Wharton and wife have sold 10 acres of land in the vicinity of Milton, to U. S. Montgomery, for \$2000.

Mollie Rogers and husband have sold to George B. Dexter for \$3500, 20 acres of land in the south half of the northeast quarter of the northwest quarter of section 25, in township 6, north of range 35 east, being in the vicinity of Milton.

Morrow County Grain.

The warm and favorable weather is fast ripening grain everywhere and harvest will commence early this season. In the Lexington and Lone districts the heading of barley has already commenced. In Morrow county this season there is every indication that the wheat crop will be a record breaker.—Heppner Gazette.

Shingle Mill Strike.

Priest River, Idaho, June 25.—A packer in the shingle mill here quit work on account of a dispute with the company, which refuses to pay him a claim for wages, whereas the entire force of shingle mill employees quit work this morning and declare they will not return until the claims of the one man are recognized and paid in full.

Riding Contest.

A riding contest between expert broncho busters will take place June 26 on the Ott route two and a half miles north of Island City, Union county. A herd of outlaw cayuses has been gathered together, and the exhibition will be first-class in its line.

Preparing for Harvest.

John Harvey, one of the prominent farmers of Camas Prairie, was a Pendleton visitor today for a short time on business connected with his ranch. Mr. Harvey is now making arrangements for the harvest, which will soon be here, and was in the city to buy supplies for that time.

Wood at "Klondike."

Fully 3000 cords of wood are now banked out ready for shipment at "Klondike." The R. E. Porter wood camp, three miles east of Huron, very little of the wood is sold, and the owners holding it for better prices.

Smith-Barnes.

Miss Amanda Belle Barnes and William P. Smith were married Wednesday afternoon at the Presbyterian parsonage near Rev. W. L. Van Nys, the pastor of that church.

Married at their home in Pendleton, Thursday, June 23, Frank Day and Mrs. Mary E. Day, M. V. Howard officiating.
