ATTEMPT TO

Prisoner Had Nearly Dug His Way to Liberty With a Large Pair of Shears.

BELIEVED THAT HE HAD OUTSIDE ACCOMPLICES.

Fellow Who Nearly Dug His Way Out Is Under a Two and a Half Years Sentence to the Penitentiary-Was Overlooked Last Night When the Prisoners Were Locked in the Dor-Nerve.

What came within an ace of mater- munication has been re-established county jail last night was avoided nearly destroyed by a cloudburst yes- wood, 23 miles south of here. only by the watchfulness of Deputy terday. So far no other deaths are Sheriff Davis. He arrived on the reported than Martin Smith and Mrs. scene, having made an investigation on hearing a slight noise, just as two and a half years in the peniten-still missing. tiary at Salem by Circuit Judge Ellis, liberty through the east wall of the houses were swept away in the valley county jail.

Used Shears and Flatiron.

The circumstances have convinced the officials that White had accomplices. The tool used in breaking a lock on an upper cell door and in tun-neling through the wall was a large Juan Delmonte. Rain fell incessantpair of shears and a heavy flatiron. ly for 20 hours and reached the un The flatiron and been lying around precedented aggregate of 17 inches. the hotel corridors for a long time in San Juan boats are the only methand was used by the prisones for sev- od of communication. People are eral purposes, but the authorities are seeking safety in the hills. convinced the shears were smuggled

in by friends. White was supposed to be locked in his cell with the other prisoners. when Deputy Sheriff Davis, who slept in the sheriff's office, went to Valley railway, and also of the Ore- given a clear track by the operator is not known. That he was overlook. mangled in a sawmlil here yesterday ed is not to be questioned. The cells evening. His right hand was cut in in the jail are arranged in tiers, one over the other. Before locking up time White went up stairs and climbing on top of the upper tier of cells crawled as far back as he could and lay quiet while the other prisoners

were placed in their cells. When all was still and he was sat isfied that Davis was asleep, he clambered down into the corridor and taking the flatiron and shears, mounted a back stairway, at the top of which is a small cell, next the wall. The door leading into the cell was open. Another door was fastened by a small lock. This was twisted out of place with the shears.

Dug on the East Side. White dropped down to the floor AVERY C. MOORE, OF next to the wall and began to tunnel through under a window. He tore the lower part of the window out and excavated a large hole. In order to make as little noise as possible he wrapped a piece of cloth around the handle of the shears and then drove

the intrument into the wall with the While he was engaged in this work Davis was awakened by the sound. He listened intently, and then being satisfied that a break was being attempted, hastily dressed and went after D. Turner, a special deputy. The two made an investigation of the jail premises and came on White while he was engaged in the work. He was led to a cell and locked in, making no resistance.

Was Nearly Successful. in wriggling between them. It is affiliations, he authorized the Tribune about eight feet to the ground from reporter to say: the point where he would have crawl-
