

The Sheen of Pearl

reflected from perfect teeth can easily be destroyed by improper dentifrices. There are many preparations that will whiten teeth, but few that preserve the enamel while they whiten.

Dentifoam

saves teeth while it beautifies them. It arrests decay, hardens the gums, removes discolorations, sweetens the breath—and stops there.

Price 25 cents.

NEW FEVER GERM

GOPHERS TRANSMIT THE DISEASE TO HUMANS.

State Board of Health Finds That the Harmless Ground Squirrels Carry an Infected Specie of Tick That Transmits Spotted Fever to Human Beings—Board Has Found Numerous Cases of Infection From This Cause.

The state board of health has discovered that a very malignant form of fever is transmitted to human beings from the ticks infesting the common ground squirrel of Eastern Oregon, and the following interesting article from the Morning Oregonian of Friday gives the board's conclusions. The Oregonian says:

"A new disease, fatal to 90 per cent of those stricken, is being investigated by the state health board. Ticks which live upon the bodies of ground squirrels or gophers carry the disease germs into the human body through their bites.

Spotted fever is the name given to the new disease. It resembles cerebral meningitis, which is also called spotted fever, because eruptions under the skin become apparent within a short time after the victims feel the first symptoms of high fever. But the disease is entirely different in every other way from the dreaded cerebral meningitis, though equally fatal. It is apparent only during the months of May, June and July.

Dr. Ralph Matson, bacteriologist of the state board of health, has proved that the germs of spotted fever are animal protozoa. Medical science now believes that the germs of nearly every disease but malaria and smallpox are not of an animal nature at all, but are of the lowest forms of vegetable life.

Malaria's animal origin has been satisfactorily proved, smallpox is generally held to be transmitted by germs and one or two other less common complaints are on the doubtful list. The fact that it is carried to mankind by supposedly harmless ticks and that the germs themselves are one of the rare animal microbes are but two of the peculiarities of spotted fever.

The fever is at its worst in the Bitter Root valley of Idaho. Here from 85 to 95 per cent of those afflicted die. The cases are mostly sheepherders and prospectors, and for this reason the origin of the disease was long laid to drinking water from the Bitter Root valley. It is therefore believed that two distinct forms of the disease exist.

Dr. E. E. Massey of Boise, Idaho, first brought the strange disease to the attention of medical science. Two bacteriologists were sent to Idaho by the Minnesota state board of health to discover the origin of the disease. Gradually it was found that the disease always occurred in connection with the bite of a tick whose habits was the gopher. This rodent is plentiful in Idaho as well as in nearly every part of Eastern Oregon. Apparently the gophers suffered no ill effects from the bite of the ticks, for the blood of healthy gophers was found to be swarming with the spotted fever microbes.

Finally a man from Idaho developed a case at Hood River. Dr. Woods Hutchinson, secretary of the state board of health, had a guinea pig inoculated with the blood of the patient. But the guinea pig was given too large a dose and quietly died within 48 hours after the experiment started. Had he lived he would have acted as a "culture medium" for the microbes, which lives on gophers is the vehicle through which the disease reaches the human body. The disease is apparently one of those harmless to one type of mammal but deadly to another. In this case the gopher is at one extreme and mankind is at the other end, and the wrong end at that.

Dr. Matson is now searching for some antitoxin which will nullify the bite of the tick. But so long as there

WRONGED WOMAN SEEKS REDRESS

ALLEGES ALMOST UNSPEAKABLE CRUELITIES FROM HIM.

County Clerk Saling was in Weston Sunday.

Robert Harp, of near Holdman, was in Weston today.

William Mills, Juniper Canyon, is harvesting his wheat.

E. D. Johnson, from Holdman, was in Pendleton Saturday night.

O. F. Steele, of the assessor's office, spent Sunday at his farm near No. 10.

D. J. Bell, of Tutuilla, has finished having his wheat cut. No reports as to yield or quality.

Felix Ridenour, of the county clerk's office, visited his parents in Weston on Sunday.

C. M. Hong and family have gone to Kamela, where they will camp out and pick blackberries.

Miss Bertha Gross has returned home after a month's absence visiting with relatives at Adams and Athena.

Fred Taute, of Tutuilla, has finished cutting 120 acres of wheat which is said to be in fair yield and excellent in quality.

Peter Ehrbrick, of Havana, is threshing. He has not accurately measured the yield yet, but believes it will average 35 bushels.

Madison Jones, appointed a delegate to the Development League convention at Portland, left on the morning westbound train.

Mrs. R. B. Stanfield and baby have returned from a visit to Helix, meeting Mr. Stanfield here, and all going to Echo this morning.

It is believed that some of the wheat in the Juniper Canyon, which will yield 40 bushels per acre and the quality is known to be excellent.

Ora and Frank Holdman have cut their ten acres of wheat. Nothing conclusive could be learned about the yield, further than that it is good, both as to quality and yield.

Simpson & Schubert are operating their harvesting plant in the Juniper Canyon, beginning operations on Mr. Simpson's crop, which is said to be extra good. Estimates on Mr. Simpson's crop generally agree that it is a percentage of the average will yield 40 bushels per acre.

SHEEP ON RESERVES.

Sumpter Paper Complaints That They Spoil Water Sources.

John Tomlinson, who was sent out by the Sumpter Light & Water Company along the new McCully's fork extension to the pipe line, armed with government notices to serve on sheepherders, returned last night, says the Sumpter Miner, Mr. Tomlinson found about 10,000 sheep on the Blue Mountain reserve, this side of the McCully's fork divide, and grazing on the waters which are to furnish the city its additional water supply.

The sheep in the main are from the vicinity of Heppner. Mr. Tomlinson says that several of the herders agreed to obey the mandates of the interior department, and move their flocks at once, but others used profane language and wanted to know where they would go. He informed them that this was no affair of his, but if they didn't hit the trail at once and vacate the reserve, they might expect a United States marshal after them.

The sheep are ranging all over Baldy and along McCully's fork. The rangers seen in the vicinity of Baldy last night, were made by the herders after they had corralled their flocks to keep wild animals away. If they venture very far beyond Baldy they will be in Grant county, and within the jurisdiction of Tom Gray, superintendent of the Valley Queen and deputy sheriff of Grant county, who says his previous record in this line will make it extremely tropic for them.

SMITHSONIAN INSTITUTE MAKES CHEMICAL ANALYSIS OF UMATILLA COUNTY EARTH.

The soil of Umatilla county, according to chemical analysis made by the late Prof. Henry of the Smithsonian institute at Washington, D. C., is identical with the volcanic ash formation of the Island of Sicily, where for the past 200 years abundant wheat crops have been yearly raised.

"This goes to prove," said Dr. C. J. Smith, "that we of Eastern Oregon have nothing to fear in regard to the wearing out of our grain producing soil. History tells us that the wheat crops of Sicily have been produced for 20 centuries without the aid of fertilization other than that contained in the soil itself.

"The question of how long the soil of the inland Empire would be able to produce wheat crops has been one that had been asked and considered many times. The soil with which Prof. Henry made his test was taken from near Weston. Chemically, he reported that it was exactly like that of Sicily. There, instead of deteriorating as the years have fled, the soil has gradually become richer."

DEATH OF AN INFANT.

Funeral Will Be Held Tomorrow at Presbyterian Church.

The infant son of Purl Bowman and wife, of 213 West Court street, died of some obscure bowel trouble, the cause of which has been one of some obscure bowel trouble. The child had been ill from birth, and nothing could be done for it that was of permanent effect. The funeral will be held at Meacham a week ago in hopes that it would be benefited by the mountain air, returning yesterday in a buggy, and arriving in Weston on Sunday. The funeral will be held at 10 a. m. tomorrow at the Presbyterian church, conducted by Rev. Van Nuys.

FREEDOM OF THE PRESS.

A. B. Noblett, editor and proprietor of the Freewater Times, is mourning the loss of an advertiser and subscriber because they did not like the article in which he criticised the actions of certain persons. In this connection we wish to say that the human race is the same all over and Brother Noblett happens to be the victim of a little misplaced confidence in that he must have been counting upon some one's friendship when it did not exist. There are some persons running around, waiting for an excuse of some kind to try to do some one else an imagined injury, and this was evidently the one, else he would never have jumped at so small a prick of the spur—Adams Advance.

GRANT COUNTY HORSES.

Alva S. Dore returned Monday night from a trip to Chicago which he made recently with a band of 93 head of horses. To the Blue Mountain Eagle he stated that he met with an excellent market for the animals that were in good flesh, and that before returning home he put a few head in pasture, which will be sold as soon as they have increased some in flesh.

WRONGED WOMAN SEEKS REDRESS

ALLEGES ALMOST UNSPEAKABLE CRUELITIES FROM HIM.

Henry Lorenzen Loves Four Acres on the Reservation.

At 12 o'clock yesterday Henry Lorenzen, a tenant of Amos Pond, whose farm adjoins the Presbyterian mission on the reservation, lost between four and six acres of standing wheat by fire.

The fire originated with sparks from Mr. Lorenzen's threshing engine, which had just gone by, removing from one stand to another in the field where the fire took place.

A large number of people assembled immediately, including those who were attending the mission services, and their efforts availed almost nothing. Had it not been for the summer fallow which the fire reached after also burning over 15 acres of stubble, there is no question that the fire would have been widespread and disastrous, as it had in line several of the finest grain properties on the reservation, and was driven before a fire.

The loss is fully covered by insurance written by Major Moorhouse.

10,000 RESIDENCE.

Finest Dwelling on a Farm in Umatilla County.

Henry Koepke, a farmer living two miles south of Athena, is building a \$10,000 residence, which will probably be the finest farm residence in the county when finished. Dan Mays has the contract for the foundation, chimneys and other brick and stone work, and Ed Barrett the contract for the frame. Mr. Mays has his work well under way now.

Pace Wants a Divorce.

Desertion and immoral conduct are the grounds upon which Jesse H. Pace of this city, bases action for divorce, instituted in the state circuit court this morning.

The defendant, Estelle D. Pace, he alleges, deserted him March 2, 1904, and upon that date and since has been guilty of adultery. J. Burzer, of Eugene, is named as the woman's paramour. The charges were entered November 11, 1903, at Malden Rock, Wash., and has three children. The plaintiff desires their custody.

Quality of Wheat Good.

There is no controverting the fact that the quality of the wheat this year will not strike as high an average as last year, in this county. It is good, but last year it was very much better than good, and all comparisons to express excellence for years to come will be made with the crop of 1903.

Thrashing on the Reservation.

On the reservation, John Crowe, L. L. Mann and Charles Hamilton are thrashing. The yields are estimated all the way from 25 to 40 bushels per acre, but no accurate measurements have been made. The quality is good but not the equal of last year. The old weather in the spring is credited with the deterioration.

Moran-Mosgrove.

Justice of the Peace Fitz Gerald his morning officiated at the marriage of Felix Moran and Miss Elias Mosgrove. The ceremony took place at the Hotel Bickers and was witnessed by a few intimate friends of the couple. Mr. and Mrs. Moran are residents of Adams.

LEAVES PILOT ROCK.

W. W. Allen Sells Lease on City Hotel to H. H. McReynolds.

W. W. Allen, who has had charge of the Pilot Rock hotel for some time past will give up his lease on the hotel property within a few weeks and will be succeeded in the management of the hotel by H. H. McReynolds, of the City hotel, says the Pilot Rock Record.

Mr. Allen has large property interests in this county. He and his sons were engaged in the wood bus-

"BOOTLEGGING" IS SUSPECTED

ILLICIT WHISKEY TRAFFIC AT SUMMER RESORTS.

Matter Brought to the Attention of Authorities—A Deputy United States Marshal is Sorely Needed at Pendleton—Commissioner Hailey Pledders to Act—Several Whiskey Peddlers Suspected.

What is believed to be illicit traffic in liquor at Lehman Springs and other summer resorts has been brought to the attention of the authorities, and while no arrests have been made, it is understood that several persons are under suspicion.

It is alleged that whisky by the case is being brought into Lehman Springs and disposed of to the campers. United States Commissioner John Hailey, before whom complaints in regard to the matter were filed, has issued warrants for the arrest of several persons, but they have not yet been taken.

"As a committing magistrate, I have not the power to make complaints, even when I personally know that the laws are being violated. There is little doubt but that bootlegging joints are being run, but what is needed is a deputy United States Marshal for this portion of the state. As it is all the deputies are in the office at Portland and whenever their services are required elsewhere they have to come from headquarters."

At one time a deputy marshal was stationed at Pendleton. The marshal for Oregon is allowed but four deputies. Two of these are office men, and the other two are for outside work. Chief Deputy P. A. Worthington, who was in town a few days ago, said that the business of the office in Portland required the services of all available deputies.

In Idaho the deputy marshals are stationed at various parts of the state.

DRY-LAND ALFALFA.

Weston Man Has Experimental Field Doing Well.

The dry-land alfalfa, when properly seeded on any land that will produce a reasonable crop of grain hay, will not only yield more tons of hay per acre, but furnishes a feed much richer in digestible nutriment. It is now being grown successfully in nearly every county of the inland Empire, but the plants are usually small—two to five acres, says the Inland Farmer.

Among those planting on a large scale is Robert Jamison of Weston, Or., who has 20 acres that is giving very satisfactory results. He reports three tons to the acre at one cutting, the third year from seeding. As a hog pasture it is unexcelled by any other plant known.

While many who have tried fail to get a good stand, the reason may always be found in poor preparation of the ground. To insure a good stand the land should be worked deep, thoroughly pulverized and firm with a roller, and the plants are usually never sown in rows where the ground has been thoroughly prepared.

GIVEN AWAY SOMETHING FOR NOTHING THIS WEEK AT THE FAIR

From Saturday, June 30, to Saturday, August 6

- Buy a man's dress shirt and get a silk tie FREE.
- Buy a pair of shoes and get a pair of socks FREE.
- Buy a shirt waist and get fancy collar or ribbon FREE.
- Buy a skirt and get a belt FREE.
- Buy a child's dress and get a ribbon FREE.
- Buy a suit of clothes and get a good hat FREE.
- Buy a pair of pants and get suspenders FREE.
- Buy \$3.00 worth of dry goods and get FREE, any toilet article in our case worth 50c.

AUGUST 6--SATURDAY SPECIALS--AUGUST 6

- House lining, good grade, 4 1/2 yard
- Good muslin, 7c grade, 10 yards for 49c
- Ladies' wrappers, 20 Per cent off regular price
- Men's 50c and 60c dress shirts, for one day \$2.50
- Misses' and children's shoes good and strong, sizes 8 to 2, only 99c pair
- STRAW HATS AT HALF PRICE.

THE FAIR

NOW FOR ANOTHER WEEK OF SUMMER BARGAINS

Our great July clearance sale was a great success. Many lines have been closed out entirely, but in several sections we still have a good assortment. MONDAY MORNING, AUGUST 1st, you will find on display many bargains that you cannot afford to pass by.

August Clean Up Sale on Skirts and Suits.

- All \$2.00 wash suits \$1.38
- All \$3.50 wash suits \$1.98
- All \$6.50, \$8.75 and \$7.00 wash suits \$4.45

Every skirt in the house, ladies' and misses, at August clean up prices.

Ladies' tailor suits at less than half price.

Ladies' and Misses' Vests.

- 25 dozen 12 1/2c, 15c and 20c vests go at 10c
- 50 dozen 35c, 40c and 50c vests go at 25c

Summer Dress Goods.

- 25c, 30c, 35c and 40c values all go at 15c a yard. Only about 50 pieces left. You'll have to hurry.

Lee Teutsch's Dept. Store

Corner Main and Alta Streets

Seasonable Goods at the Right Prices

- Men's summer underwear, purple striped, each 40c
- Men's underwear, blue and flesh color, each 50c
- Men's underwear, very fine quality, each 75c and 81c
- Fancy hosiery, 15c, 20c and 25c
- Golf shirts, cuffs to match, 50c, 75c and \$1.00
- New four-hand ties, large assortment of patterns, at popular prices 25c and 50c
- Negligee working shirts 50c and 75c each
- Negligee dress shirts \$1.00 to \$2.50
- Collars, cuffs, belts and suspenders.

BAER & DALEY

One-Price Furnishers and Hatters

LEGAL BLANKS

Write the East Oregonian for a free catalogue of them. A full supply always kept in stock.

St. Joe Store Stock Must Go

REGARDLESS OF COST OR VALUE Beginning July 30, Ending August 30 FOR 30 DAYS

HAVING PURCHASED THE ST. JOE STORE STOCK AT A BIG DISCOUNT OVER THE FIRST COST, FOR THE PURPOSE OF USING THE STORE ROOM FOR STORAGE PURPOSES UNTIL WE CAN GET INTO OUR BIG NEW DEPARTMENT STORE BUILDING NOW BEING ERRECTED BY JOHN SCHMIDT ON MAIN STREET, WE WILL BEGIN CLOSING OUT THE ENTIRE STOCK FORMERLY OWNED BY THE ST. JOE STORE, AT MANUFACTURERS' COST, GIVING THE PEOPLE OF PENDLETON AND UMATILLA COUNTY THE BENEFIT OF OUR BARGAIN PURCHASE.

YOU WILL FIND THIS THE GREATEST BARGAIN EVENT IN THE HISTORY OF PENDLETON. REMEMBER EVERYTHING IN THE STORE IS INCLUDED IN THIS SALE: NO GOODS WHATEVER WILL BE RESERVED. BELOW WE GIVE YOU ONLY A FEW ITEMS OF THE MANY MATCHLESS BARGAINS WHICH WILL PREVAIL DURING THIS 30 DAYS SALE. THOUSANDS OF EQUAL VALUES NOT MENTIONED ON THIS SHEET.
