

CAMPAIGN PLAN OF LOCAL OPTION

VOTE WILL INCLUDE ALL REMAINDER OF COUNTY.

G. L. Tufts, of Portland, Addressed Large Meeting at Baptist Church Last Night—Outlined Plans of the Temperance People—After Public Sentiment Has Become Educated to the Cause, a Vote Will Be Taken in Pendleton—First Announcement of the Entire Plan of Temperance People Yet Made—Expect to Carry Several Counties.

Dr. G. L. Tufts, of Portland, superintendent of the Anti-Saloon League, addressed a large and enthusiastic meeting at the Baptist church last night. The address is highly spoken of by all who heard it.

Mr. Tufts will be at Echo tonight and is on his way home to Portland from a speaking tour of this county, which included Milton, Free-water, Adams, Weston, Athena and Pendleton. He reports excellent prospects for the anti-saloon cause generally, although the forces are divided in their allegiance between the Anti-Saloon League and the Prohibition Alliance.

Many Petitions Filed. The Anti-Saloon League has filed petitions with signatures that will insure a vote on the local option issue this fall in all but the Pendleton and four adjoining precincts. The league has no intention of bringing about a vote in the excepted precincts this fall, but does have great hopes of carrying all the remainder of the county—across, the north and south sides of the county, and the west end, and carrying them, to have that vote added to the balance of the county.

Will Carry Some Counties. Those counties which the league believes will carry for the abolition of the saloons are counties, en masse, are Tillamook, Benton, Polk, Yamhill, Lane, Douglas, Crook, Wallowa, Morrow, Malheur, Wasco and possibly Linn.

The followers of the Anti-Saloon League simply believe that it is not good politics to force a full county vote this fall in this and some other counties, where the saloon interests apparently hold the balance of power, but that if isolated precincts are carried by districts (as in this county) can be carried, that after a few years' observation of the effects of prohibition in a limited territory, that it will be easier to abolish the saloons in localities known to favor them now, than to carry the abolition policy in the county as a whole and have within it restricted localities wherein the enforcement of such a policy will be practically impossible.

The Prohibition Alliance is actuated by greater radicalism, as to rounding precincts actually hold the balance of power, which claim is probable.

LIQUOR DEALERS ACTIVE.

Portland Wholesalers Inquire About Petitions of Local Optionists. The Brewers and Wholesale Liquor Dealers' Association of Portland, Or., is taking a lively interest in the local option movement throughout the state. County Clerk Frank Collins has in receipt of the following letter from that body:

SOUVENIR FAIR COINS.

Portland Committee of Women Will Sell 100,000 Lewis and Clark Coins. The Lewis and Clark corporation has fixed the price to be charged for the 100,000 souvenir coins donated by the United States government to the Portland committee of the fair has made arrangements with a large number of Portland girls and young women to handle the bulk of the souvenir coins, during the progress of the fair.

DEWEY'S GODE WEST SPICES, COFFEE, TEA, BAKING POWDER, FLAVORING EXTRACTS. Absolute Purity, Finest Flavor, Greatest Strength, Reasonable Prices. CLOSSET & DEWEY, PORTLAND, OREGON.

is the intention of the bank to secure more of the coins. The dollars are stamped on one side with the head of Captain Merriweather Lewis and the words "Lewis & Clark Exposition, Portland, Ore., 1894." The obverse has the head of Captain William Clark and the words "United States of America, One Dollar."

EXPECTS GOOD PRICES.

E. W. McComas Says He Fully Expects Wheat Prices to Prevail. Rain at this time is a welcome thing to the average Umatilla county farmer, said E. W. McComas, a prominent local wheat buyer. "If the showers continue, it means plenty of fall seeding, and history teaches us that the early sown grain always produces the best crops. With a dry fall the farmer is obliged to postpone his seeding until spring and thus runs a larger risk of a poor yield."

"Moisture has been needed for the past 19 days by the majority of the farmers in this section, but it is not too late and I only hope that we get a good soaking rain." Discussing the future crop situation, Mr. McComas said: "Last year was a poor season; this summer has been a phenomenal yield, and provided no unforeseen conditions arise, I believe that we should have good crops for at least two seasons more."

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution in its entirety. What is Life?

In the last analysis, nobody knows, but we do know that it is under strict law. Abuse that law even slightly, pain results. Irregular living means derangement of the organs, resulting in Constipation, Headache or Liver Trouble. Dr. King's New Life Pills quickly readjust this. It's gentle, yet thorough. Partial List of Cases Has Been Arranged for Trial—George Lamont Charged With Embezzling \$700 From C. W. Irwin, to Be Tried—Jesse Salling Charged With Gambling, Ralph Ward Alleged Assault on Miles Kemler—Warren Stevens and Judd Teeters for Horse Stealing.

The next jury term of the state circuit court convenes on October 19. The list of criminal cases on the docket is unusually large. The dates of the different trials have been arranged. The information was secured in the justice court on August 29, but Cahoon has not yet been arrested. Jens Jensen and Gabriel Jensen, convicted in the justice court of obstructing a public highway and fined \$50 each, have given notice of appeal to the state circuit court. This case will perhaps be tried next month. George Lamont is charged with obtaining money under false pretenses. He was arrested in Portland on August 18. He is alleged to have secured \$700 from C. W. Irwin, a contractor, for the purpose of buying machinery and embezzling it. These cases will be tried at the next term. Fred L. Thompson, alias John Wilson, is charged with forgery. John W. Lettice, an Indian, is charged with assault with a dangerous weapon. He was arrested on September 22 upon complaint of H. P. Jensen, who claims the siwash struck him with a rock. Stephen Ward will stand trial for assault with a dangerous weapon, on September 12. He is alleged to have fired a shot at Miles Kemler, with whom he had quarreled. Warren Stevens and Judd Teeters will be tried for horse-stealing, alleged to have been committed last June.

The check passed on Baker & Sullivan was drawn on the Pendleton Savings bank and signed by Schaberg. Investigation showed that the man known as C. W. Schaberg, calling at the information has yet been filed in the matter.

Saloon Music Heard No More

ANTI-MUSIC ORDINANCE IS TO BE ENFORCED.

Council Amended Fire Limit Ordinance, to Prevent Alteration or Remodeling of Any Frame Building Without Permission of the Council—Object is to Decrease Danger From Fire—Liquor Licenses Granted to Baker and Garrison and Joseph Hoch—Wholesale License to Pendleton Ice Company and Conrad Kohn.

Not a piano or other musical instrument was played in a Pendleton saloon last night as the result of a personal visit of Mayor W. F. Matlock, requesting that the saloon men stop all music. "Every saloon man," said the mayor at last night's council session, "promised to stop the music, and if they do not, I am in favor of enforcing the ordinance and compelling them to do so."

The council session last night was attended by the full board. The only business of importance transacted was the amendment of the fire limit ordinance, to prevent the remodeling or alteration of any wooden building within the restricted district without permission from the council. The amendment passed unanimously. The petitions of Baker & Garrison and Joseph Hoch for liquor licenses were acted upon favorably. Conrad Kohn and the Pendleton Ice Company were granted wholesalers' licenses. The purchase of a rock crusher was discussed at some length, but no definite action was taken. A representative of a local contracting machinery firm was present and addressed the council.

Separator and Grain Burn.

Joe and Will Lay's separator, together with six stacks of grain, were totally destroyed by fire at the Vancell ranch on Prairie creek Monday evening at 11 o'clock. Mr. Vancell estimates his loss at about \$400, there being some 600 bushels of grain destroyed. The Lay Bros. machine is a total loss of \$1,400. The origin of the fire cannot be accounted for as Mr. Lay was very careful to see that every precaution was taken to prevent fire; the engine was put in position 75 yards from the separator with three stacks of grain between them. Mr. Lay even took the precaution to place the spark arrester on the smokestack and was very careful to bank the fire before leaving, which he and the crew did not do until after being around the machine for more than an hour.—Joseph Herald.

Asotin County Grain Crop.

Grain is now pouring into the Asotin warehouses at the rate of about 1500 sacks per day, and there is a continuous rush with Messrs. Jones & Coon. Before another week rolls around the daily receipts will not only reach at least 2000 sacks per day, but as soon as the rancher gets his grain threshed he will start teams to hauling. It is no exaggeration to say that it will be at least the middle of October or the first of November before all of the grain is safely sheltered in the warehouses. Although the market is pretty strong, but very heavy by stocking here, the past week several sales of barley, however, have been made.—Asotin Sentinel.

Cattle Market Improving.

Agent W. P. Lawrence, of the O. R. & N. Co., advises that orders have just been received for the shipment of 10 cars of cattle to Walla Walla, and 12 to Seattle, and two cars of sheep to Chicago. This marks the turn in the cattle market, and it is expected by stockmen here that the prices will improve and some of the surplus stock can be got off the ranges. The indications are now for a fair winter, and with ordinary weather there will be feed enough to carry the stock through without hardship, although most ranchers will be glad to sell some of their herds if reasonable prices can be had.—Baker City Democrat.

Experting County Records.

The contract for experting the county records here, that of J. L. Dunlap, formerly deputy clerk of Multnomah county for \$12.50 per day. There were several other bids submitted ranging from \$450 to \$1,500 in lump sums, but the court considered it better to be on the safe side so far as expense to the county is concerned and let the work out by the day, reserving the right to discontinue the experting at any time it sees fit. Mr. Dunlap will furnish an assistant at his own expense and if the work is finished on an entire county records it will consume about three months.—Crook County Journal.

Old Man for the Job.

Orlando Robbins, traveling guard, left for Challis yesterday, after a couple of prisoners, who have been sentenced to terms in the penitentiary. Mr. Robbins was 68 years old a few days ago, and he celebrated the event by riding horseback 50 miles and during the week he traveled no less than 500 miles on horseback in search of Dougherty, the escaped convict. Such a trip would be had enough for a man of 20, but Mr. Robbins said he felt none the worse for it.—Hoise Capital News.

Charged With Embezzlement.

E. Ashley Mears, who for the past two weeks has been confined in the county jail, charged with embezzlement, and who has been committed in the management of his bank at Starbuck, was brought before Judge Holman Wednesday morning for preliminary examination. He waived and was bound over to the superior court in the sum of \$250. Mr. Mears claims that he will soon pay all claims against him.—Columbia County Dispatch.

Boring for Oil.

Work is soon to be resumed on the oil well at Myrtle creek, Douglas county, says the Plaindealer. This well was abandoned several months ago on account of lack of funds. If oil is not found at a depth of 2000 feet the project will be given up entirely. According to geological reports the strata of the district are favorable for the location of oil.
