

Send for Book about "Motherhood."
 Are you to become a mother? If so, do you realize the great amount of suffering that most women are obliged to undergo, the pain they have to bear? If you could do anything to relieve that pain would you not do it? You are a sensible woman, and of course you would—then read carefully every word.

Mother's Friend
 Is a liniment so potent that it will greatly lessen the suffering of any case of labor, no matter how difficult. With this liniment, Motherhood is a beautiful dream, without a nightmare. No more suffering, no more needless cares, but one peaceful ideal, motherhood, as you will find upon your eyes.

For external use, safe to administer, and wonderful in results. A word to the wise—"Mother's Friend." All druggists sell it at \$1.00 per bottle. We send our book, "Motherhood," free.

 FRIDAY, SEPTEMBER 22, 1904.

A magic lamp, unlovely for the lack
 Of legendry in gem and carved scroll,
 Burned in a dusky chamber of the world,
 With untripped wick a-smoulder in the bowl.

Then timid Chance—the chamberlain of God—
 A-stumble in the dark, with groping hand,
 Scattered the crust of ashes from the wick—
 And lighted every corner of the land!

—Aloysius Coll in Everybody's Magazine.

FREE GOVERNMENT HOMES.
 The rush of homeseekers to secure tracts of land under the various irrigation projects announced by the government shows that the home building instinct is as strong as ever in the breasts of the American people.

As the government land, suitable for homes, becomes further limited in area, it is more and more of an outrage that public land should be acquired for speculation. Yet large acreages are passing into the hands of the land grabbers, every day in the year, under both the desert land law and the commutation clause of the homestead law, while under the timber and stone law, not only the land but the most valuable timber in the world today is being speculated in with absolutely no regard for the settler or for the country at large.

These laws are active instruments in the stealing of the land which belongs to the people of the United States. And there is no citizen who may not desire to avail himself of his right to acquire some of this land, he or his son.

All the great land interests are a unit in their opposition to the repeal of these laws. They present a solid front. They are organized; they are aggressive and it is a sinister fact that they have thus far prevented any land reform legislation in congress.

But the country is becoming aroused to the fact that it is being literally robbed by a small band of selfish men who would amass fortunes, and who by the evasion of the spirit if not the letter of the law, are absorbing the choicest remaining tracts of land which should be reserved for the real home-maker.

And the men in congress who are in reality bitterly hostile to any change in these land stealing laws, are the same statement who most loudly proclaim that they are the great friends of the settler, the home-builder and the small farmer. They are found on the wrong side of every land reform measure, yet urging with might and main that the welfare of the settler is their sole object.

FIRST PROMISE OF SPORT.
 The San Francisco Call, in speaking of the release of the Russian, cruiser Lena, says:

The question of the Russian warship has been settled by the president without ruffling the dignity of Japan or Russia. He gives her two months in which to make repairs and get out, and as an alternative she must go now or disarm and lie here till the close of the war. Of course she will disarm and rock idly on the bay until peace comes.

On some grounds it will be regretted that her government does not accept the two months' time for repairs. She could be patched up and coaled in that time, and then Japan would have a cruiser waiting for her outside the three-mile limit, and when they met there would be a sea fight right off our western water front. There would be standing room only on the hills from Mount Tamalpais to the Twin Peaks. The CHIEF HUNTER, would look like a bee hive about to swarm and there would be lively betting on the grounds. It would be a sight worth seeing, and if the Lena's sailing date were set long enough ahead San Francisco would have a bigger crowd than came for the Knights Templar. It is many a long year since hostile powder has been burned near our coasts, except in the Civil War, and such a fight as might be here would have the zest of novelty, with the additional pleasure that we could see the show without costing us a cent in men or ships or powder.

Japan would be willing to do her part in the spectacle, and if Russia had any regard for the feelings of our people and the czar had a spark of the genuine circus spirit in him, he would say the word "go" and furnish us some real sport.

The fact reported in this morning's telegrams that France is agitated over the opposition of a complete separation of church and state will lend interest to the statement that the government now levies taxes and pays over \$3,000,000 a year to the religious orders, says the Lewiston Tri-

After pondering over the figures of the department of commerce and labor for about a month, the Chicago Chronicle has discovered Mr. Wright's "average man does not exist," but that "the standard of living is better" than it was a few years ago. Since the beef trust, the coal trust, and the hundreds of other trusts have advanced prices to the top notch, the average man and woman have discovered that it costs a great deal more to keep up the standard of living, and that present wages and trust prices are an obstacle that everyone feels. All the sophistry of the partisan statisticians cannot gloss over the fact that the limited income cannot be stretched to meet the demands that are made upon it. High trust prices, fostered by the unjust tariff, may give a glamour of prosperity to the protected industries, but the many have to pay to the prosperous few.

The state irrigation convention is over and now for the national congress at El Paso, in November. The states that show a disposition to aid the government in making straight their crooked irrigation laws, will stand more chance of receiving a portion of the \$27,000,000 reclamation fund than the states that remain in the antagonistic condition. Oregon can get a larger share of this fund by showing an actual interest in irrigation. She should have one of the very largest state delegations at El Paso. It will prove to the government that the interest in irrigation here is not superficial nor selfish.

School has started and young men and young women from every part of the country are making a temporary home here. In order to afford them the greatest possible safety and the best possible moral atmosphere, drive out the white shirt hobo. Business don't depend on this class of parasites. They produce nothing, add nothing to the community, except a contamination and their presence is not needed. It is not wanted anywhere and Pendleton should not be forced to support the cast-off refuse of other parts of the world. Drive out the white shirt hobo. He is the really dangerous specie.

Oregon must now stop talking about "soulless corporations" until the few private citizens now blocking the progress of the portage road, imitate the example of the O. R. & N. Company and sell a right of way to the people at a reasonable price.

What is a Savings Account?
 THE USE of a Savings account is not fully understood. It is a banking feature that does more service to a community that can readily be appreciated. In every community, there are numbers of people who have small sums and no means of using them to advantage. The Savings Department of this bank affords the means of utilizing these funds. One man has \$5, another \$10, another more. These sums when placed together in a bank can be loaned out so as to pay interest. The Savings Department is the means of getting these small sums together and loaning them out safely. There are many people who would be pleased to receive interest on their money for a short time.
 The Commercial National Bank is the only institution in this city which provides strictly for the receipt and care of savings and trust funds. Interest paid on all such accounts at the rate of

Four Per Cent per Annum
 for each calendar month that the money remains in bank. Deposits made on or before the 4th of a month draw interest from the first of that month. Interest is credited on all accounts February and August 1st, at which times, if not drawn, it becomes part of the principal. Any part of a deposit may be withdrawn without disturbing interest on the balance.
 Certificates of deposit are issued bearing interest at the following rates:
 Certificates Payable in 6 months, 4 per cent.
 Safety deposit boxes for rent.
 Don't overlook the fact that we are a National Bank, under the direct supervision of the Federal Government.

Interest Compounded every six months

TORMENTING RHEUMATISM
 Columbus, Ohio, May 20, 1903.
 Six years ago I had a severe attack of Inflammatory Rheumatism. I was laid up in bed for six months, and the doctors I had did me no good. They changed my medicines every week and nothing they prescribed seemed to help me. Finally I began to use Dr. Swift's Specific. My knees and elbow joints were swollen terribly, and at one time my joints were so swollen and painful that I could not close them when I opened. I was so bad that I could not move knee or foot. I was getting discouraged, you may be sure, when I began to use Dr. Swift's Specific.
