

NEW COAST LINE

TACOMA TO BE TERMINAL OF ROCKEFELLER ROAD.

Leviston Paper Gives Graphic Description of the Route to be Followed by the Intended Line of the Standard Oil Magnate—Leviston Will Be on the Proposed Road, and Tacoma Said to Be the Terminus Now in View.

Eastern newspapers are now filled with announcements relative to the plan of the Chicago, Milwaukee & St. Paul to build a road to the coast, and yesterday an Associated Press dispatch from New York stated upon authority of an official of the company that the survey for the road had been made, says the Leviston Tribune.

As to the route, no announcement was made. However, developments on the coast during the past few months, relative to the plan of Rockefeller to build a tide water, show quite clearly that Tacoma is to be the terminal.

It is also definitely known that the line as surveyed, reference to which was made in yesterday's dispatch, strikes Idaho near Salmon City and then follows down the Salmon river and Snake river to Lewiston.

At the time the surveyors appeared near Salmon City wide publicity was given their movements, but the engineers declined to make any announcement.

This was followed by a trip down the Salmon river and Snake river in a small boat of a party of four men, who made the preliminary reconnaissance of the route. Upon reaching Lewiston they spent two days here. The trip was made in February and to a Tribune reporter they gave the interesting explanation that the object of the journey was to find good hunting grounds and that later they would guide a party of eastern men into that country.

The railroad engineers—for they were railroad engineers—had experienced a hard trip. The upper Salmon was running much ice, and at points it became dangerous for them to carry their boat great distances overland.

The engineers quietly disappeared from Lewiston and the hunters evidently were abandoned. However, later in the spring, with the utmost secrecy a party of surveyors made the trip down the Salmon to Lewiston and on to the coast.

After they had left this country, knowledge of their work became public, but the survey was accredited to the Burlington. In view of late developments, however, there now seems no doubt the surveyors were representing the Rockefeller line.

ROGUE IS IN JAIL

A. C. CHAMBERLAIN GAVE ROGUE CHECK FOR \$2000.

Bought House and Lot of E. T. Wade and Gave in Payment Check on Grants Pass Bank, Which Proved to Be Worthless—In Meantime Mortgaged Property for \$350, Bought a Ticket for Omaha and While Waiting for Evening Train Was Caught by Mr. Wade.

For a few hours Saturday afternoon E. T. Wade, a local real estate dealer, was minus a house and lot, and all he had to show for it was a worthless check for \$2000 drawn on the First National bank at Grants Pass. Today A. C. Chamberlain, who gave Wade the check in exchange for the real estate is in the county jail with a charge of obtaining goods and money by false pretenses hanging over him.

Chamberlain represented to Wade, it is alleged, that he had several thousand dollars in the Grants Pass bank and desired to purchase property in Pendleton. A deal was soon consummated by which Wade deeded to Chamberlain a house and lot and received from the latter the check for \$2000.

The real estate dealer then wired the Grants Pass bank to see if the money was on deposit there. The reply was in the negative, but Chamberlain had disappeared. Wade hurried to the county recorder's office to prevent the transfer from being recorded, but he was too late. The officers were notified and a search made for Chamberlain. He was arrested two hours later by Wade, when it was discovered that Chamberlain had gone to the Commercial National bank and mortgaged the property for \$350.

Wade compelled the prisoner to deed the property back to him and secured \$122 of the mortgage money. Wade this morning paid back the money to the bank and satisfied the mortgage. "I am out about \$25 or \$30 on the transaction," he said. "When placed under arrest Chamberlain had in his possession a ticket to Omaha. He had deposited some of the money secured through the mortgaging of the property in the bank. The bank book was found several miles south of this city, lying beside the county road. It is thought Chamberlain threw it there to mislead the officers, and then returned to Pendleton for the purpose of taking the night train.
