Keep your blood clean as you keep your body clean. You don't wait until your body is foul before you cleanse it.

It is a matter of surprise that many people who are so careful to have clean bodies make no effort to keep the blood clean.

NO SECRETARY TO BE ELECTED

CHARLES F. MARTIN'S SUCCESSOR NOT NAMED.

National Livestock Association Will Leave Office of Secretary Vacant Until Next Annual Meeting—Chief Clerk Will Do the Office Work Under Direction of a Board of Control—Association to Be Organized on New Lines.

The National Livestock Association has issued the following circular letter to stockmen concerning the office of secretary of the association.

Denver, Col., Oct. 17.—To the Members of the National Livestock Association: Charles F. Martin, secretary of this association, almost since its organization, died suddenly at Greeley, Col., on September 21, 1904, as a result of hemorrhage of the lungs.

At the time of his death, Mr. Martin was en route from Denver to Casper, Wyo., on association business.

At a meeting of the board of control held in Denver to consider the vacancy caused by the death of Mr. Martin, it was decided that no appointment would be made until the convening of the next annual convention which is to be held in Denver the week of January 9th, 1905.

The officers of the association have received assurances from prominent stockmen and others, of both rural and financial standing, providing such action is taken at our coming convention as will put the association upon a broader and more conservative basis than has heretofore obtained.

The local committee in charge of headquarters will address you later and more in detail upon these plans. By order of the board of control. F. J. HAGENBARTH, President.

FAIR A SUCCESS.

Baker City Race Meeting Nets Over \$1000 to Managers.

One thousand dollars to the good is the result of the race meeting held in this city by the Baker County Fair and Speed Association, a record that as they say in Dakota, is "pretty pear".

But aside from the financial part of the proposition there is another consideration that is of far more importance and that is the friendly feeling established between the visiting spectators, and the officials of the race.

Not once during the meet was there a complaint made nor a kick registered and every man who entered a contest home feeling that he had been splendidly treated and that when the next meet was held he would be there more enthusiastic for its success than ever.

To President Geddes, Secretary Correll and Manager Rogers is due the credit for the able and business-like manner in which everything was handled. They spent their time and ability to looking after each detail and that their efforts were crown with success follows as a natural sequence.

230 HEAD OF HOGS.

B. F. McElroy Has Great Faith in This as a Hog Country.

B. F. McElroy a few days ago sold a carload of fat hogs to the Sound market. The price realized could not be learned. Mr. McElroy is feeding 230 head of hogs, of which number 160 will be put on full feed during the latter part of the winter.

Mr. McElroy is not the corn enthusiast that so many are in connection with the growing and fattening of hogs, believing that corn is not so essential as it is generally considered. He claims that as fine pork can be grown from wheat, mill feed and peas as from corn, and as cheaply.

PENDLETON LEADS WORLD.

In competition against the American Woolen Company, and the manufacturers of woolen fabrics throughout the world, the Pendleton Woolen Mills has been awarded the grand prize at the Louisiana Purchase Exposition, Charles E. Ferguson, lessee and manager of the Pendleton Woolen Mills, this morning received a message from his representative at St. Louis, of the award.

The products exhibited by Ferguson consist of Indian robes, bed blankets, shawls and steamer rugs. "The exhibit was taken from the shelves at the mill," said Mr. Ferguson, "with much care as to selection and were hurried to the fair."

The message stated that the award still lacked the official confirmation by President Francis, but that his signature would be received within a week. It is not known just how many mills were in the competition. The prize embraces more than 40 different plants and the products of these were displayed in an elaborate manner. The large Calumet mills were also represented in the competition.
