# FIGHTS ALMANACS CONSUMPTION CAN BE CURED STAGES.

A Beautiful Girl Saved From Dread Consumption -Other Wonderful Cures.

> Miss Amelia Weymer, Appleton, Wis., writes: "Early last summer I contracted a cold which eemed to hang on to me and could not be shaken From the head it went to the throat, and then affected my lungs. My mother felt very anxious and as we had used Peruna in the family before, she advised me to try it. I was somehow very opposed but was persuaded to try Peruna. Using it one day convinced me that it was no ordinary med-icine, within a week I was much better and in twoweeks I was well, and I felt much stronger and in much better health generally. I was perfectly sat-isfied with the results from the use of Peruna."---Miss Amelia Weymer.

# CATARRH CAUSES CONSUMPTION

## Pe-ru-na Never Fails to Cure Catarrh Wherever Located.

THE medical profession has so thora oughly prejudiced the minds of the people against patent medicines that it is with great reluctance that anyone can be persuaded to try such a remedy at first.

in nearly every one of the thousands f remarkable cures that Peruna has made the patients had to be persuaded by friends very strongly before they ould lay aside their prejudice against it. A large multitude, of course, hold out

against the persuasions of friends and die simply because they have allowed their minds to be poisoned against this very excellent remedy.

But fortunately there is another large multitude of people who are able to shake off their prejudice and try Peruna before it is too late. These people are rately disappointed. They generally try ther remedies at the beginning of their roubles. They allow a cold to develop into catarrh of the head. They allow catarrh of the head to gradually become catarrh of the throat. They still keep using the doctor's medicine, or some other ineffectual remedy. The catarrh stealthily spreads down the bronchial tubes and reaches the lungs. Everybody then becomes alarmed. Faith in the doctor begins to disappear. The patient reaches a state of mind in which he is willing to try almost anything. A hottle of Peruna is sent for.

The first week it produces a decided change for the better. A few weeks' continued treatment cures the patient. Then another happy man or woman is decided to give it a trial before he left | It is the praise of those who have been added to the long list of people who are
