WOMAN SUFFRAGE.

The Builtein of this city republishes the views of a correspondent of the True Woman (what a misnomer), a seven-bynine anti-Woman Suffrage sheet, pub lished at Baltimore, and commends them to the attention of the Woman Suffrage advocates of this State. It would seem that this correspondent has been circulating an anti-suffrage petition:

I find intelligent and respectable ladies willing to sign, and many say they would not vote, even if the laws allowed them

Now, we say that this correspondent, by the ingenious wording of the language, endeavors to convey a false inipression to the world of the result of her. labors. It is not said that the majority of women were unwilling to sign, and as that is omitted it is fair to presume they were willing. "Many" is the word used. We submit that, under the circumstances, if a majority of the intelligent, respectable women had been opposed to the exercise of the voting power it would most undoubtedly have been so stated. So much for that. This

correspondent further says: But the ignorant are anxious to vote. In one house, the most filthy place I the American people, and which has so ever entered, I found six women. A lady at Long Branch excites a great deal of amusement by taking her daily bath in the ocean, arrayed in a waterproof bathing suit, India rubber shoes and oil-skin cap, India rubbergloves, and a wire mask over her face.
