The Herald claims, and justly, that all these taxes ultimately come off of the consumers; that were universal free trade the rule of faith and practice, the manufacturer would not become a monied aristocrat through the heavy taxes borne by the people, from which they reap no benefit; that the Oregonian, as a mouth-piece of the Republican party, whose idea a few years ago was universal suffrage, from which it has unaccountably backslided of late, yet favors monopoly and Protective Tariff, is not more wonderful than that the Herald, which as an exponent of the Democratic party, an open and avowed party of

caste, should favor Free Trade. Both journals and both parties are badly in the fog. Each sees half of the true theory, and half only. Universal suffrage and universal free trade is the vital principle which must ultimately prevail. When the civilized world shall be governed by the regulations of free speech, free press, free trade and free progression, universal peace will follow as a natural consequence; and now when we see our brethren wrangling over the different halves of a great, vital principle, we only pity both of them because their ideas of government, being one-sexed, one-sided, and consequently only half developed, fall so far short of the true principle or ethics of government when considered in all its bearings, that we do not wonder that they make mistakes.

# Woman vs. Female.

The term "female" as a symonym for woman, is a vulgarism that ought to be scourged out of good society. As it is equally applicable to one-half of the brute creation, its use instead of woman, lady, or girl, tends to lower the dignity and position of womanbood. When it is used without the proper substantive, one is sometimes provoked to inquire whether it is the female sheep, or bear, or swine, that is intended. Those who have a true respect for woman would never employ a term so indelicate and objectonable as this, if they realized how bad it was. There may be occasions when its use is correct and unavoidable; but to speak of schools for young women as female seminaries, or female colleges, is not only ungrammatical, but essentially vulgar. Gail Hamilton holds up a young lady to ridicale because she objects to being called a female teacher. The objection is reasonable and just. We do not say "male" teachers, "male" colleges, "male" clubs; certainly the great army of patient, hard working, underpaid women, should have the privilege of being called "women. bad it was. Yet custom is so powerful that even her friends constantly, but thoughtlessly, use this epithet, which tends to degrade her. Usually, when one makes an effort to win the standard of womanhood, there are opposing bigots who quote the Bible in its condemnation. But the Bible where posing bigots who quote the Bible in its condemnation. But the Bible, whose teachings are the foundation of the women cause, is a model in respect to the use of this objectionable epithet. In no place do we find "female" used when women, or maken or danged con when woman or maiden, or damsel, can be employed. Those who desire to have its authority on their side, should follow its example in this respect,-Jane, O.

How absurd it would seem to hear people say, Harvard male university? Yet is that any more ridiculous than to say, Rutger's female institute, or Troy female seminary? How often we hear men speak of meeting "females" in the street. Would they feel complimented or insulted, were the ladies to pass them by as "males?"

The use of this term is another evidence of the low estimate placed upon woman for these long weary ages. It is the result of the harem idea which regarded her as a mere human animal, created for the sole purpose of pleasing created for the works are transported for the valley with an two san francisco, for his great success in euring Chronic and Acute Disease, will not always the surface and acute of the care of the created for the works, and the will not care of the care of the
