Last Monday morning an accident occurred on the railroad near Comstock's Mill.

It appears that a number of men were propelling themselves along the road on a hand car, and had just turned a curve when the shrill whistle of a locomotive was heard.

The freight train had been delayed some time and was in a hurry to reach the first station beyond the mill, ahead of the passenger train.

It was her whistle that the men heard. Four of the men jumped, but one, named Henry Otto, either paralyzed with fear or become insane therefrom, remained on the hand car.

The approaching train could not be stopped, and striking the car knocked him off. He fell before the locomotive, which, with the entire train, passed entirely over him, killing him instantly.

The following complimentary observations in regard to this city and State appear in a San Francisco paper, from the pen of a Californian:

"Oregon is growing so rapidly that the capital available is insufficient for its business, though the rates of interest have risen considerably.

A usury law limits the legal interest to twelve per cent, annually, for the sake of securing loans, the borrowers pay a bonus of five per cent., equivalent to seventeen per cent.

A quarter of a million could be loaned in thirty days at that rate, as we are informed on good authority.

The influence of railroads, immigration, good crops and high prices of grain, has induced the farmers to purchase large stocks of agricultural implements, and the merchants of Portland have erected fine buildings.

That town has doubled its population in six years, and has now thirteen thousand inhabitants. There is not an empty business house in the place, and its banks with an aggregate capital of \$250,000, are not able to accommodate the banking demands of the State."

WOMAN'S POWER FOR GOOD AND EVIL.—One gifted and beautiful woman, if wrongly disposed, can scatter more seed of corruption and death than a score of men with their arms raised.

Her capabilities for good in the different departments of morals are equally great, and such proportion to her powers, both for good and evil, must be her condemnation if she is false to her holy stewardship.

Society cannot be destroyed if woman is true, nor saved if woman is false. Besides, society shows no unequal discrimination in regard to this particular class of officers. The rule applies to all. A profane woman, a drunken woman, a female thief or murderer excites always a greater horror and disgust than if the crime had been committed by a man.

And this is right, and it will be an evil day for the world when woman, in her sin, excites no more abhorrence than a man.—E. C.

THE NEW ERA IN STEAMBOATING.—The Evansville Journal says: The rights of women have been fully recognized on board the Skilling, and the charming young wife of Mr. George W. McCoy, Jr., chief clerk, was carrying the keys of the safe and the money drawer, paid wharfage, printing and store bills with the most bewitching grace and dignity. Captain Chenoweth was in excellent spirits.

UNK WEED REMEDY.

THE UNK WEED REMEDY, Oregon Rheumatic Cure.

HISTORY: THIS REMEDY IS COMPOSED OF THE Active principle of the Unk Weed, extracted by Ether, and a bitter Tonic Principle.

There are few remedies known to the Medical Profession which will remove the Rheumatic Poison from the system, but whose action is so powerful in depressing the system of the already enfeebled Rheumatic patient, that their use has to be abandoned before specific effects are obtainable, and hence the want of success in treating this prevalent and distressing Rheumatic Poison, removing it from the circulation and system.
