TEMPERANCE LEGISLATION.

On the 22d of February of last year the temperance people of Oregon held an annual meeting, organized themselves into a permanent Alliance and our only hestiancy about giving it place is becomes of its (bold hillingsorte), and prepared certain resolutions, praying is because of its "bold billingsgate" and "fish-woman abuse." But here it is: for special legislation by our law-makers

for special legislation by our law-makers for the purpose of restricting or "regulating" the sale of intoxicating beverages. It is well known that these resolutions were promptly voted down by the very men who were sent up to legislate for the people by those strong advocates of temperance who certainly represented the will of the majority of the people in that grand Alliance.

Now, the question comes, why were temperance men, who were elected to the 'Legislature upon a temperance platform, induced to vote against the very measures which they were sent up by the people to advocate? We gladiy admit that many Legislators did vote for temperance laws, but care was taken by interested parties to so manage the vote that the desired measures should be lost at every balloting. Now, somebody was to blame for this, and whom? It is

hard for women to believe that Legislators were bribed to "count noses" and "complimentary vote," taking care to so manipulate their ballots that whisky should invariably win; but we are told In compliance with the importunities by men who have figured in past Legiswink the people who are not politicians, Legislature shall meet. Well, time It is known that, in addition to the rolls on and the body of law-makers many church-goers who have no meetsystem of swap and dicker is resorted to
