DR. VAN DEN BERGH'S Sovereign Worm Syrup.

THIS TRULY WONDERFUL MEDICINE Is warranted to expel all worms from the lowels and Stomach, except Tape and Chain

Bowels and Stomach, except Tape and Chain Worms.

The proprietor has taken much pains to test the comparative merits of the principal Worm Medicines of the day, which, numerous as the Entozoa themselves, have overspread the land, each claiming for itself the name of specific; and, while we frankly acknowledge that many of them are often successful, and do great good, were we not assured that this combines advantages possessed by no other worm medicine, its introduction at this late day would not have been attempted.

The pleasant taste and exceedingly small quantity of this medicine required to test the existence of worms, or to remove every one from the system—its operating in a few hours, unaided by any other purge, together with its certainty of effect, constinute it one of the most brilliant discoveries of the age.

Had we space here, scores of certificates might be adduced to abow its progressive and rapidly increasing reputation for the last few years; but to promulgate its fame and establish its character, we only ask for a trial.

Its speedy operation in all sudden attacks, as convulsions, colic, fits or spasms, gives it an unrivaled superiority. Sent by express on receipt of price.

Alternate paling and finshing of the countenance, dull expression of the eyes, drowsliness, itching of the nose, a swelled upper lip, tongue whitely furred and thickly speckled with red points, feted breath, an enlarged belly, a partial or general swelling or puffingness of the skin, a starting in the sleep and grinding of the teeth, a sensation as if something was lodged in the throat, a gradual wasting of the fiesh, sickness of the stomach, vomiting, a short and dry cough, appetite sometimes voracious, at other times feeble, bowels sometimes coative, at other times loose, great frefulness and irritability of temper, pains in the stomach and bowels, colic, fits, convulsions and palsy.

Its value in removing masses of crudilies from the stomach and bowels of children, even where no worms exist, cannot be too highly estimated.
