ABSURDITIES.—To make your servants tell lies for you, and afterward be angry because they tell them for themselves.

To tell your own secrets, and believe others will keep them.

To fancy a thing cheap because a low price is asked for it.

To say a man is charitable because he subscribes to a hospital.

To vote for a candidate at an election because he shakes hands with your wife and admires the baby.

WOMAN'S RIGHTS IN TEXAS.—A bachelor correspondent of the Chicago Balance writing from Thorn Hill, Texas, gives this suggestive item:

Not many months ago, Miss Grayson (daughter of Dr. Grayson, of Truxton Co., Texas), a very talented and accomplished young lady, came here and opened a school at \$2 per month per scholar. One of the citizens, who was a friend of the young lady, wishing to establish a school permanently, assumed the responsibility of offering her \$500 for a ten month session, trusting to her future success to liquidate the amount to himself. The result was, that at the close of the session, he found himself short one hundred and more dollars. So the school was given up. Last April, a notice was given that he would open a school in the same place, at \$125 per month. Now, as the parents in the first instance had complained that Miss G. had charged too much, and knowing there was considerable difference between \$50 and \$125 a month, I anticipated an entire failure of the enterprise. But what was the result? In a few weeks this representative of my sex had a flourishing school of forty pupils. All because he was a man, I suppose, for I have heard the children declare most emphatically their preference for the lady. Miss G. has always been a staunch supporter of the temperance cause, and I should think, after this evidence of public feeling against women competing with men, she would come out boldly for the rights of her sex. The cause needs a champion in this region.

Miss Anthony is not without the sympathy of a large number of people outside the ranks of the woman suffragists. A majority of the journals of the country are earnest against her and warmly endorse the action of Judge Hunt, who would come out boldly for the rights of her sex. The cause needs a champion in this region.

Susan B. Anthony paid \$100 for the privilege of casting a vote. There are hundreds of men who have not the thousandth part of her fitness to exercise the elective franchise, and who get paid for voting instead of paying for the privilege.—Oregonian.

Finally Decided.

It is an old but true saying that a man is known by the books he reads and the company he keeps. This saying is illustrative of the great sewing machine war, in which nearly all of the second-class machines have played prominent parts, expending much ammunition and making forest marches attended with great loss. But our readers have not seen the name of the world-renowned Grover & Baker Sewing Machine furnished before the people in the above connection, and this dignified reserve has established the popularity of the Grover & Baker Sewing Machine, now and forever. It stands on its respectability as an merit. These machines make the Elastic Stitch and Shuttle Stitch, and will be sold on instalments of \$10 per month. W. T. Shannon, agent, 71 First street.
