Por the beneal of my friends and the public, I state the following facts: On the rith day of September, I felt quite unwell, having head-ache, pains in my back and joints, with occasional chills; a fever set in and about the 9th a scarlet rash was plain to be seen on my skin. I had become satisfied that I had the symptoms of small-pox, and commenced taking Corrier's preparallon for the cure of that disease, and it proved a success in my case, as no farther developments appeared. I took but 13 doses, and have since felt all right. I have no healtancy in cocommending it to my friends who may feel any symptoms of small-pox.

I have taken one hottle of Dr. Borreau's Small-pox Remedy as a proventative, and although frequently exposed to the disease at the time, I escaped all symptoms.

JAMES M. MAYBERY,

I have been using Corwin's Small-pox Remedy, and though exposed to the disease, have no symptoms. I believe it to be a preventative as well as a cure.

Portland, Or. I being exposed to the small-pox, contracted the disease. I used for it forwin's preparation and no other medicine except alteratives. The postales never matured. Left no marks. My lineas was not at all severe. My children, five in number, were all taken with the disease, and treated byone of our lest physicians, employed by the city. One, a girl of four years, died, and the balancs were badly marked. I used about two battles of the medicine.

I had purchased a bottle of Dr. Borzeau's Small-pox Remedy some time previous, and commenced taking it has soon as I was sail isfied I had the disease, which was on the second day of my lineas. My sickness was mild, except severe comiting, which took place before I commenced using the medicine. The vomiting is what convinced me in the first place that I had the small-pox. I took one bottle—I think about thirty doses, In three days I was able to go to work. I have have and doubt but that the Remedy saved me from being marked, and parhaps from death.
