

The New Northwest.

FRIDAY JULY 23, 1875.

HOME NEWS.

The Alleghanians are announced to appear at New Market Theater on the 25 inst.

Boat-riding has been a favorite recreation during the warm and beautiful evenings of the past week.

For baby carriages, croquet sets, fruit jars, or jelly-glasses, call at Ackerman's Dollar Store, No. 29 First street.

Grand matinee at New Market theater on Saturday afternoon, July 31st, by the world-known Alleghanians.

Many of our prominent citizens are robbing the heated term of its discomforts by a temporary sojourn at the Seaside House, Clatsop beach.

The Supreme Court met at Salem on Monday morning, in consequence of which there was a grand exodus of attorneys from this city on that day.

The run of salmon this year has been unusually large. Nearly 100,000 cases have been shipped to San Francisco during the past six weeks.

The camp-meeting is in progress at Powell's Valley on Sat. Sunday was attended by a large number of the citizens of this city and East Portland.

Bosse & Meyer continue to make the best photographs ever taken in this city. Special attention paid to all portraits. Nos. 127 and 129 First street.

A number of those who labored so earnestly, with Mr. Hammond during his stay in this city, went up to Salem on the express train on Monday, to assist in his labors there.

Seven persons received the rite of baptism at the Baptist Church in this city on Sunday evening. A like number waited with the Methodist Church on the same day.

Rev. Bishop Morris is now paying his annual visit to Eastern Oregon. His visit will extend as far as Lewiston, and will include all the churches and missions in his route.

The moonlight excursion of the pupils, teachers and friends of the M. E. Sunday School, on board the "Williams Child," from this place to Oregon City on Thursday evening, was a most enjoyable one.

Walter Moffett reached his home in this city on Tuesday evening overland from San Francisco. He has been absent for some months on a voyage to Hong Kong, and returns in excellent health and spirits.

Dr. J. L. York, of San Jose, California, is now giving a course of liberal lectures at One Pine Hall in this city. The course began on Thursday evening, and will conclude on Sunday evening. The lectures are free, and a cordial invitation is extended to all.

Open air services were held on Sunday afternoon on the corner of Stark and First streets, before a very large audience assembled. The crowd went from the place mentioned to the rooms of the Young Men's Christian Association, where services were continued.

The new light draught steamer "Champion," after a successful trial trip to Swan Island and back, started on her first trip down the river on Monday morning with 120 tons of freight. She draws with this load but 10 inches of water, and will be able to reach Albany all the year round with a fair load.

The appearance of the new post office building has been much improved recently by painting, and the ground floor has been turned into a room of a landscape garden, and shows much improvement. Contractors in this city are at work upon the furniture for the different rooms, which are now completed and ready to receive it.

A Chinaman employed at the barrel factory at St. John's got his left arm so mangled by being caught in the machinery, that amputation was necessary. The operation was performed by Dr. Cardwell, and the poor fellow subsequently taken to St. Vincent's Hospital, where he is kindly ministered to by the humane Sisters of Charity.

Messrs. Corson & Champlin are at work, energetically endeavoring to raise the required capital, (\$100,000), with which to establish a boot and shoe factory in this city. We are informed that their prospects of success are quite flattering, and sincerely hope that they may be able to carry forward the enterprise that promises much for the future prosperity of the community.

The "Little Monitor" sewing machine is one of the grandest achievements of the age. No shuttle, no bobbin, and no re-winding of thread required; makes the "clock stitch," "chain stitch," and "cable stitch." Runs easily, and sews readily upon all fabrics. Call upon Mrs. A. B. Paxton in the Good Templars building, No. 104 Third street, near Alder, and see this magic "Little Monitor" at work.

E. W. Ryan has recently returned from the East, with a magnificent and varied stock of oil cloths, which he displays with artistic effect on Third street, next door to the post office. These he offers for sale at very reasonable prices, and he assures his friends and the public generally that it is a pleasure to show pictures, whether he sells them or not. Don't neglect to call at this charming gallery and examine the elegant variety of pictures displayed.

The dedication of St. Vincent's Hospital, in the northern portion of the city, took place on Monday afternoon. A large concourse of citizens witnessed the ceremonies, and listened to the very appropriate address of Rev. J. F. Ferenc. At the conclusion of the services, as many of the assembly as desired to do so, entered the building and viewed its admirable adaptation for the purpose designed. Ice-cream and cakes were distributed to the visitors, and all seemed to enjoy the occasion.

The anniversary of Multnomah and Nonpareil Lodge, I. O. G. T., were appropriately celebrated at Good Templars' Hall on Saturday evening. The chronicles of the former Lodge were given in a very pleasing and lucid manner by Jas. A. Smith. Among the interesting items presented by him was a statement that the life-long pledge of total abstinence had been administered to two thousand persons in the halls of Multnomah Lodge during the decade of its existence. Mr. E. W. Ryan acted as historian for Nonpareil Lodge in an acceptable manner. The records of this Lodge were destroyed in the great fire of '75, but the chronicles gave many interesting facts and incidents from memory. Mr. M. C. George, a member of Western Standard, but a temporary resident of this city, gave a most excellent address, hearty, bold, and cheerful. At the conclusion of the anniversary exercises, the attendance was fair, and everyone seemed to enjoy the evening.

Mrs. Phoebe A. Mansfield, of Jersey City, recently exchanged palpitants with her son, who is minister of a church in Little Falls, N. Y. This is the first instance on record of a mother exchanging palpitants with her son. We hope it will not be the last.—*Ex.*

POTENCY OF SUNSHINE.—From an acre weighing a few grains, a tree will grow a hundred years or more, not only throwing off many pounds of leaves every year, but itself weighing several tons. If an orange twig is put in a large box of earth, and that earth is weighed, when the tree becomes a ton, bearing delicious fruit, it will be very nearly the weight of earth. Great medical experiments are made by different sides men, it is an ascertained fact that a very large part of the growth of a tree is derived from the sun, from the air, and from the water, and very little from the earth; and notably, all vegetation becomes sickly, unless it is freely exposed to sunshine. Wood and coal are but condensed sunshine, which contains three important elements, equally essential to both vegetable and animal life—sunshine, lime, and iron.

It is the iron in the blood which gives it its sparkling red color and its strength; it is the lime in the bones which gives them the durability necessary to bodily vigor, while the magnesia is important to many of the tissues. Thus it is, that the more persons are out of doors, the more vigorous they are, and the longer will they live. Every human being ought to have an hour or two of sunshine at noon in winter, and in the early forenoon in summer.

In the dispatches of the 17th inst., we find the following in reference to the new postal law, which has been and is the cause of so much just complaint:

New York, July 17, 1875.—A case involving the constitutionality of the amended postage-law has been brought into the U. S. Circuit Court from this district. A gentleman offers a book for mail transmission to Philadelphia from this city; postage at old rates being refused, he applies for mandamus to compel the postmaster to receive the package. The argument of the applicant is that the sundry civil appropriation bill, into which the amendment is inserted, did provide ways and means for raising revenue; that the Senate has no constitutional authority to originate measures for that purpose, that being the sole prerogative of the House; and that the postal amendment, having originated with the Senate and been grafted on the bill which is not one for revenue purposes, is unconstitutional.

Are the young ladies of the present day fit for wives?" asked a lecturer of his audience. "They are fit for husbands," said a feminine voice; "but the trouble is that you men are not fit for wives!" The applause was great, and so was the discomfiture of the lecturer.

The amount of coin and bullion in the Bank of England is now the largest ever known.

Ladies, move your sewing machines with Gent's new patent castors (four wheels). Moved as easily as chairs; can be seen at the Home Sewing Machine Agency, G. W. Traver, sole agent of North Pacific Coast, corner Morrison and Third streets. Improved Home-Shuttle (new style), cloth plate, even with table, large and improved feed. Don't believe false statements of agents for other machines. Prices: No. 1, iron stand, black walnut top, oil finish, \$12; No. 2, \$15; No. 3, \$20.

SPECIAL NOTICE.

Ladies who wish to have their own hair braided, made into switches, or worked up into any kind of ornamental work for use or preservation, will do well to call on or send to Mrs. LARSON, Morrison street, between Second and Third. She does all such work very neatly and upon reasonable terms.

NOTICE TO THE LABORERS.

I would respectfully announce that I have a first-class Dress-Maker and Cutter, and hold myself in readiness to put forth first-class work, either Ladies' or Children's Garments. Also, constantly on hand, a large assortment of sewing-machine needles and attachments for each and every machine.

MRS. E. H. PARSONS,
33 Third street.

The National Gold Medal was awarded to Smith & Baldwin for the best Photographs in the United States, and the Vienna Medal for the best in the world. 43 Montgomery street, San Francisco.
